How It Works

STEP 1 Initial consultation to understand your business needs	STEP 2 Selection of an industry-specific web design theme	STEP 3 Website built and optimised for performance	STEP 4 Client approval and website launch
---	---	--	---

Typical timeline: 24–48 hours for Starter AI Website; 1–2 weeks for Core and Premium Website builds.

Website Editor Access

Core and Premium plans include full access to our intuitive website editor — no technical knowledge required.

- Make text and image changes, add new pages, and update your site yourself
- View basic website analytics and performance
- Access your website administration from any device

Good to Know

Billing

Month-to-month, no lock-in contracts. Invoiced on the 1st of each calendar month. 10% GST included. First bill may include pro-rata charges.

Getting live

You have 90 days after project start to complete and launch your website. If not launched in time, billing begins automatically on your selected plan.

Cancelling

30 days' notice required to cancel. Plans can't be paused. Service may be suspended after 3 months of non-payment.

Support

Questions, technical issues or account support — we're here to help.

Fees & Changes

- Included domain/s must be new through us. If you're needing to transfer an existing domain, a \$50 transfer fee applies
- All Duda site transfers incur a \$350 fee — some custom elements may not migrate perfectly during the transfer
- Service changes beyond your current plan may require additional one-time fees
