

*Nick Olivier*

Chief Facilitative Educationist  
(Education & Forensic Consultant)

I am, at heart, a police scientist and an educator of investigative forensics, with over 32 years of experience providing consultative solutions in forensic and risk education, educational management, and leadership. Proficient as a facilitator, I have been registered as an assessor since November 2005 and as a moderator since March 2009 with the Safety and Security Sector Education and Training Authority (SASSETA). I have also been a Certified Fraud Examiner in good standing with the Association of Certified Fraud Examiners (ACFE) since July 2010.

I hold a Master of Arts in Educational Leadership and Management from UNICAF University, a Post Graduate Diploma in Digital Business from the Emeritus Institute of Management, a degree in Police Science and Business Management, and certificates in Business Management and Financial Management from the University of South Africa. In addition, I hold an Advanced Certificate in Fraud Examination, a National Certificate in Forensic Science and a National Certificate in Forensic Biology.

I am familiar with public speaking engagements, strategy, and think-tank workshop facilitation in South Africa, Namibia, Zimbabwe, and Rwanda. I presented various multi-day workshops on ethical and risk considerations related to fraud deterrence, detection and response, and other anti-fraud-related topics and risk management in line with ISO 31000:2018, IEC/IOS 31010:2019 and ISO 37001:2020.

Educational project management and content development have been one of the focus areas since 2008. I play a pivotal role in developing learning material in the continued progression towards excellence of qualifications and programmes for which the learning materials were reviewed and approved by the Safety and Security Sector Education and Training Authority (SASSETA) and the Quality Council for Trades and Occupations (QCTO).

I am a member of the African Association of Threat Assessment Professionals (AFATAP), the Association of Certified Fraud Examiners (ACFE), the International Association of Financial Crimes Investigators (IAFCI), and the South African Academy of Forensic Sciences (SAAFS).

The Australian Journal of Forensic Sciences (Volume 51, 2019, Pages S285-S288. ISSN: 0045-0618 (Print) 1834-562X (Online)) commended me in an article called "[SAAFS: the establishment of a representative body for forensic science in South Africa.](#)" I also published some articles on LinkedIn titled "[How effective is online education and to what extent can online courses replace traditional classroom teaching?](#)", "[Critical Examination of the Role of Leadership in Devising an Innovative Curriculum](#)", "[Part 1: The Status Of Forensic Tertiary Education In South Africa: Collaborative Competency Development](#)", "[Part 2: The Status Of Forensic Tertiary Education In South Africa: Collaborative Competency Development](#)", and "[Part 3: The Status Of Forensic Tertiary Education In South Africa: Collaborative Competency Development](#)".
