

COMMUNITY INTEGRATION POLICY

At **Mula Hotel**, we are committed to supporting and collaborating with the local community in which we operate.

We pledge to conduct all of our services in a way that helps preserve and promote the culture, heritage, and local economy of our destination. We believe that maintaining continuous communication with the local community contributes to their well-being and enhances their living environment.

Our aim is to support initiatives that strengthen the local economy and society, and to respect and preserve local culture, traditions, and ways of life.

To achieve these goals, we:

- Encourage our guests to discover the history, culture, traditions, and locally offered products and services of the destination in collaboration with the local community.
- Provide guidance to our guests on how to act responsibly towards the local population, flora, and fauna outside of the hotel.
- Prioritize local and regional products and services whenever possible, as outlined in our procurement policy.
- Prefer to hire staff from the local community during our recruitment process, providing employment opportunities to local residents.
- Actively participate in social responsibility projects, being aware of the importance of social responsibility and our leadership role in the community.
- Commit to continuously improving all our efforts related to community integration within our facility.
