The Prairie Apron

CORPORATE OVERVIEW & EMPLOYEE BENEFIT GUIDE

The Prairie Apron provides a premium, in-home meal preparation service designed as a high-impact corporate employee benefit. By sending professional chefs directly into employees' homes, we handle everything from grocery shopping and cooking to kitchen clean-up. This unique perk directly combats burnout, improves employee well-being, and serves as a powerful tool for talent retention and recruitment.

Why In-Home Cooking? The Employee Benefits

Modern professionals spend an average of 6 to 8 hours per week on meal planning, grocery shopping, cooking, and cleaning. The Prairie Apron returns this time to your workforce, driving tangible corporate value.

Reclaiming Employee Time

- **Hours Restored:** Frees up critical evening and weekend hours, allowing employees to disconnect, rest, or focus on professional development.
- **Reduced Mental Load:** Eliminates the daily stress of answering "what's for dinner?", reducing decision fatigue before the evening even begins.
- **Enhanced Focus:** Employees return to work recharged, knowing their household nutrition is completely managed.

Health, Wellness & Morale

- **Chef-Prepared Nutrition:** Whole-food meals tailored to individual dietary needs (Keto, Vegan, Gluten-Free, Allergies), boosting physical energy and immune health.
- **Work-Life Integration:** Demonstrates a profound corporate commitment to an employee's life outside the office.
- **Family Support:** Extends the corporate benefit to the employee's entire household, creating deep brand loyalty.

Corporate Sponsorship & Payment Models

We offer flexible funding structures to match your organization's budget, size, and benefits strategy.

SPONSORSHIP MODEL	HOW IT WORKS	BEST USED FOR
Fully Sponsored (100% Corporate Cover)	The corporation pays a fixed monthly retainer covering a set number of in-home chef sessions per employee.	Executive perks, high-performer rewards, or core benefits for tight-knit teams.
Co-Pay / **Subsidized Model**	The corporation covers a fixed percentage (e.g., 50%) or a flat dollar amount per session. The employee pays the remaining balance.	Scaling the benefit across a mid-to-large sized organization while managing corporate spend.
Stipend / **LSA** (Lifestyle Spending Account)	The company allocates a monthly lifestyle stipend (e.g., $200/month) that employees can optionally apply toward The Prairie Apron.	Flexible benefit packages where employees choose their own wellness perks.
Event-Based Sponsorship	The company sponsors one-off sessions as a milestone reward (e.g., hitting sales quotas, work anniversaries, or parental leave return).	Modern spot-bonuses and project completion milestones.

How It Works: A Seamless 4-Step Process

1. **Custom Menu Planning:** Employees choose their weekly meals from a seasonally rotating menu tailored to their dietary goals.
2. **Sourcing & Grocery Shopping:** Our chefs source fresh, high-quality, local ingredients right before their scheduled session.
3. **In-Home Culinary Prep:** The chef arrives at the employee's home, cooks a week's worth of meals, packages them with clear reheating instructions, and leaves the kitchen spotless.
4. **Direct Corporate Billing:** The company receives a consolidated monthly invoice based on the chosen sponsorship model, complete with utilization reporting.
