Our Commitment

- ✓ Transparent
- ✓ Professional
- ✓ Player Centred

'We don't promise professional contracts. We provide genuine opportunities.'

Official Club Assessment

A structured assessment process designed to give every player the opportunity to perform, develop and receive honest professional feedback.

Arrival in Spain

Your journey begins with your arrival in Spain, where you will be welcomed by our local delivery team and introduced to the programme. Before football begins, we ensure every player understands the schedule, expectations and standards expected throughout the assessment.

Welcome & Programme Briefing

Every player receives a programme briefing covering the assessment process, daily routines and expectations. This provides clarity and allows players to focus entirely on performing at their best.

Daily Training Sessions

Players participate in daily football sessions within a professional environment designed to assess technical ability, tactical understanding, decision making, physical qualities and overall attitude. Sessions are delivered in line with the programme and may vary depending on the club, coaching staff and individual player requirements.

Professional Club Assessment

Throughout the programme, players are observed and assessed by official coaching staff within the host club environment. The assessment considers far more than technical ability alone and takes into account attitude, professionalism, coachability, decision making and overall suitability.

Individual Feedback

At the conclusion of the programme, players receive honest feedback regarding their performance together with recommendations designed to support their continued development. Where appropriate, suitable future opportunities within our wider football network may also be discussed.

Recommendations & Next Steps

Every player's journey is different. Depending upon the assessment, players may be encouraged to continue their development, return for further assessment or be introduced to suitable opportunities within our trusted football network. All recommendations are based on individual ability, readiness and long-term development.
