

# Pay It FORWARD

## Our Sustainability commitment

At The Pavilions Bali, sustainability is more than a practice—it's a promise.

We are committed to preserving the natural beauty of Bali, empowering local communities, and offering our guests a conscious and meaningful stay.

## 99% PLASTIC FREE

This initiative aims to reduce ecological footprint and foster a culture of conscious consumption throughout our operations, inspiring our guests and team members to embrace sustainable living.

- ◆ **Refillable Beauty:** Elegant stoneware dispensers instead of single-use plastic toiletry containers.
- ◆ **Eco-Friendly Hydration:** Each villa features a mineral water dispenser with refillable glass bottles, providing drinking water without plastic waste.
- ◆ **Sustainable Shopping:** Our boutique uses recycled paper bags and packaging materials.
- ◆ **Reusable Storage:** All food is stored and delivered in durable, reusable containers.
- ◆ **Natural Wrapping:** Banana leaves and recycled paper are used in food preparation to eliminate disposable packaging.
- ◆ **Eco-conscious Dining:** We use bamboo straws and reusable food covers throughout our food & beverage outlets.
- ◆ **Breakfast To Go:** Takeaway breakfast is presented in handcrafted bamboo baskets, combining practicality with sustainability.
- ◆ **Zero Plastic Staff Areas:** Staff dining areas use only reusable crockery, glassware, and cutlery.

# Waste & Energy

## MANAGEMENT

These initiatives are designed to minimize landfill contribution, promote circular practices and reduce overall energy consumption.

- ◆ **Food Waste Upcycling:** Organic kitchen waste is transformed into feed and compost through [Magifarm](#)
- ◆ **Recycling:** Our local Waste Bank in Sanur processes all recyclable materials, including glass, metals, and plastic.
- ◆ **Green Waste:** garden refuse is processed into nutrient-rich planting media, distributed to support the local community.
- ◆ **Safe Disposal:** Batteries and light bulbs are collected and processed through dedicated recycling programs.
- ◆ **Energy Efficiency:** All villas are equipped with optimized A/C power-saving settings to reduce energy consumption without compromising comfort.
- ◆ **Energy Saving Campaign:** raising awareness and encouraging energy-conscious behaviour among team members.
- ◆ **Cooking Oil Disposal:** Collaborating with [Noovoleum](#) to recycle used cooking oil into sustainable, reusable products, with the outcome directed toward supporting the Zero Waste School program initiated by [Yayasan Green Book](#).

# Guest

## EXPERIENCE

We invite you to join our [Go Green](#) program—designed to tread lightly, support local communities and enjoy the best of conscious travel. You can also take home a curated selection of sustainable Pavilions amenities and souvenirs.
