

## Direct Cremation

A direct cremation is the term used in the funeral industry for the quickest and simplest cremation available. It's a cremation with no funeral service, or ceremony performed beforehand.

It's sometimes also known as a basic cremation, cremation without ceremony, or simple cremation. No attendance is allowed and you cannot request dates or times that the cremation will take place.

After death, the deceased would be brought to our Chapel of Rest where they would stay until the cremation date is arranged. A simple coffin will be used. After the cremation, the remains are returned to the funeral director within 7 days to be returned to the family according to their wishes.
