# BIRTHDAY PARTY Q&A

Will I have a party host for the entire duration of my event?

- Most definitely, your party host is with you from start to finish! Your party host is there to greet your guests and will lead your party with a variety of fun games and activities. Your host will set up your party room, serve your guests, and assist you in any way possible. We want to make your party the **ULTIMATE** party experience. Your host will help carry your gifts to the car and will also take care of all the clean up!

What decorations should I bring?

- You can bring any table decorations such as balloons, napkins, paper plates, cups, and table clothes.

What type of food is allowed at the birthday party?

- Cupcakes, juice boxes, and pizza work the best as treats during your birthday party!

How early should we arrive for the birthday party?

- We suggest arriving 20 minutes before your scheduled birthday party time. This will help you in collecting the waivers and allow time for any last minute instructions to the birthday party host.

What about invitations?

- We supply you with digital party invitations! Each invitation provides guests with key details!

What should guests wear to the party?

- Your guests should wear t-shirts and shorts or gymnastics leotards. Please remove jewelry and tie your hair back into a pony tail if possible.

How about waivers?

- Each child must have an event waiver signed during drop off. We print them out for everyone to sign at the facility.
