Painting  
Playdough  
Coloring  
Discovery  
Touch Table  
Light Table

**Class sizes of ten children** are tailored to be developmentally appropriate for every child by both of their teachers.

Our preschool **curriculum is on a two year cycle.**

We offer different monthly themes each year.

Music and Movement is also part of our curriculum.

We teach chronologically through the Bible every year.

We ask families to **provide a snack for ten children once or twice a month.** Snack calendars are made available for parents to sign up for the day and snack they prefer, otherwise, a snack will be assigned by their teachers.

Barnabas Preschoolers are assessed twice a year.

A parent/teacher conference is offered late winter.

**Kindergarten readiness is encouraged for all four year olds.**

Parents are encouraged to complete a free, confidential, online screening tool to check your child's developmental progress. The Ages & Stages Questionnaire (ASQ) can be found at: [asqoregon.com](http://asqoregon.com)  
Your child's teachers welcome any information you choose to share with them about their development.
