

TOPPING OFF CEREMONY

Thursday, October 8, 11:30AM - 1:30PM

Construction of the new Hobe Sound Club continues to reach major milestones and we're excited to celebrate the completion of the building's structural steel with a Topping Off Ceremony on October 8.

The milestone marks an important transition as work increasingly moves from the building's overall structure to the spaces inside where members will learn, create, train, and grow.

KEY CONSTRUCTION UPDATES

- Gymnasium joist and metal deck installation is complete, marking another major step toward completing the building exterior
- The final building slab has been poured in the Workforce Development area, allowing construction in this section to move forward.
- Roofing work is underway, with metal decking followed by installation of insulated roofing materials.
- Work progressed on the final underground exfiltration drainage field.
- Framing is in place for the generator and associated diesel fuel tank concrete slab.
- Mechanical, electrical, and plumbing work continues throughout the Club side of the facility.

CONSTRUCTION PROGRESS CONTINUES

Current and upcoming phases of construction include interior wall framing, continued progress in the Workforce Development section, HVAC preparation and installation, concrete work for the generator pad and outdoor classroom, and exterior work surrounding the main entrance canopy. Roofing and mechanical, electrical, and plumbing work will continue as the facility progresses toward completion.

STAFF HIGHLIGHT

Since joining the Hobe Sound Club as a Personal Enrichment Specialist, Gabby Cardoso has quickly become a valued member of the team. She has embraced her leadership role with enthusiasm and creativity while building strong relationships with members and supporting staff throughout daily Club operations.

Gabby consistently steps in where needed and brings thoughtful ideas to programming that keep members engaged, learning, and connected. Her positive attitude, strong work ethic, and commitment to creating meaningful experiences have already made an impact at the Club.

As the Hobe Sound Club prepares for its next chapter, Gabby's leadership and creativity will help strengthen the member experience.

CLUB ACTIVITIES HIGHLIGHT

Throughout the summer, Hobe Sound members participated in activities designed to encourage learning, creativity, and exploration. One highlight was Around the World Club Day, which introduced members to countries, cultures, and traditions from across the globe.

Through interactive activities, cultural experiences, and samples of traditional foods, members had a fun way to learn about the world beyond their own community. The experience encouraged curiosity, teamwork, and an appreciation for different cultures while bringing learning to life at the Club.

OF MARTIN COUNTY

Hobe Sound Club

Vol. 2

WORKFORCE DEVELOPMENT HIGHLIGHT

This summer, BGCMC Workforce Development boot camps gave participants the opportunity to explore career pathways through hands-on training in Manufacturing 4.0, Skilled Trades, and Drone Technology. Each experience introduced participants to the tools, technology, and practical skills connected to growing industries while providing a closer look at where those skills can lead.

These boot camps reflect the type of career exploration BGCMC continues to expand for young people. As the new Hobe Sound Club takes shape, its dedicated learning and training spaces will create even more opportunities to bring career exploration and skill-building experiences like these closer to youth and young adults in the Hobe Sound community.

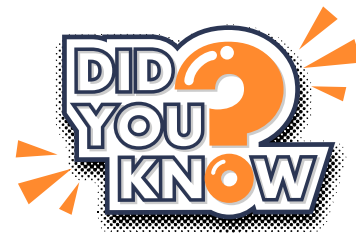

SUMMER NUTRITION HIGHLIGHT

Throughout the summer, BGCMC's culinary team prepared and distributed weekly meal boxes, helping ensure children had access to nutritious breakfasts and lunches while school was out. The effort reflects BGCMC's broader commitment to supporting healthy lifestyles while meeting the needs of local families.

The new Hobe Sound Club's culinary kitchen will build on this work with additional capacity for meal preparation and dedicated space for culinary programs such as Bake Team.

The new Hobe Sound Club will include a dedicated outdoor classroom, giving members a purpose-built space to take learning outside through exploration, collaboration, and hands-on activities.

COMMUNITY LEADER INSIGHT

"The opening of The Reyes Family Boys & Girls Club is an exciting investment in the future of Hobe Sound. By providing a safe, welcoming space where children and families can learn, grow, and connect, the Boys & Girls Clubs of Martin County is building great futures right here in our community."

J. Blake Capps, District 3 Commissioner, Martin County Board of County Commissioners
