

ISUZU D-MAX X-Terrain

**Built Tough.
Ready for Anything.**

3L Turbo-
Diesel Engine

3,500kg
Towing Ability

450Nm
Torque

Strength, redefined.

The Isuzu D-MAX X-Terrain isn't just a ute - it's a symbol of power, resilience, and capability. Built on Isuzu's legendary reputation for toughness, the D-MAX delivers the perfect blend of strength and dependability, making it equally at home on the worksite or the open road.

The X-Terrain exterior comes decked out with side steps, a sports blade and a greyed out body kit, because why not? And don't worry, it still comes with Isuzu's legendary 3-litre turbo diesel engine, and 3,500kg braked towing capacity, loved by Good Bastards across New Zealand.

With the D-MAX, every drive is more than a task - it's a demonstration of strength built to last.

Enhanced performance.

Since developing Japan's first air-cooled automotive diesel engine in 1936, Isuzu has continued to build a reputation for world-class diesel engines. Constant technological improvements, innovations and in-depth experience across the production of more than 28 million diesel engines means Isuzu is an established global leader in developing capable and efficient engines.

Built to impress.

With its bold front grille, striking LED lighting, and strong body lines, the D-MAX commands attention on every road. Its wide stance and purposeful design not only look tough but are built to perform, whether tackling demanding worksites or venturing off-road. From urban streets to the outback, the D-MAX combines strength with modern styling - a ute designed to turn heads while taking on anything.

Toughness meets comfort.

Inside the Isuzu D-MAX, practicality and comfort come together in perfect balance. The refined cabin is built with durable, high-quality materials designed to withstand everyday demands, while offering modern touches that make every drive more enjoyable. Smart technology is at your fingertips, with an intuitive infotainment system, seamless connectivity, and advanced driver assistance features to keep you confident behind the wheel. With spacious seating, clever storage, and thoughtful design throughout, the D-MAX proves that a ute built for hard work can also deliver comfort and convenience on every journey.

Front leather bucket seats with red stitching

Multi-function leather steering wheel

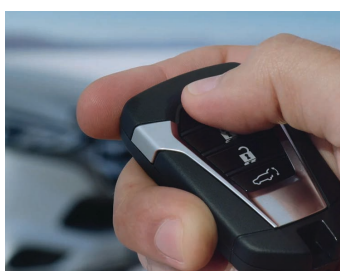

Power driver seat

Dual zone automatic air conditioning

Satellite Navigation, Apple Carplay & Android Auto capability

Smart proximity key with remote engine start

Heated front seats

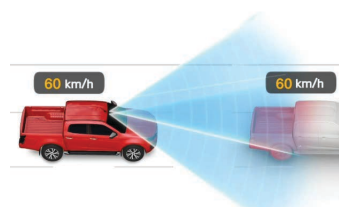

8 speaker surround sound system

Safety meets strength.

Standard across the range, Isuzu's Intelligent Driver Assistance System technology includes an extensive list of both active and passive safety systems. Employing state-of-the-art sensors and a stereo camera, IDAS constantly monitors your surrounding environment for danger. Should it detect a collision is imminent, the system will work to help the driver to defuse dangerous situations via alert systems and automated functions. Each D-MAX model includes eight airbags as standard and a stronger, more robust chassis, as well as a reinforced cabin safety cell for ultimate protection.

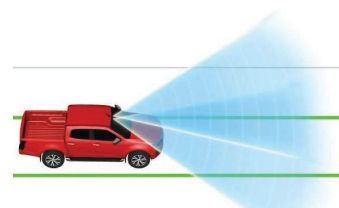

And to prove its credentials, the D-MAX has achieved a 5-star ANCAP safety rating. The D-MAX is there to look after you - no matter the situation.
