

ISUZU MU-X

**Built Tough.
Ready to Explore.**

**3L Turbo-
Diesel Engine**

**3,500kg
towing ability**

**7 Seat
SUV**

Adventure, refined.

The Isuzu MU-X isn't just an SUV – it's a statement of strength, versatility, and reliability. Built on decades of Isuzu's engineering excellence, the MU-X combines rugged durability with modern comfort, creating the perfect balance for both adventurous journeys and everyday driving. With bold styling, a commanding road presence, and advanced technology, it delivers confidence no matter where the road – or the track – takes you.

Whether navigating city streets, cruising the open highway, or tackling off-road terrain, the MU-X is designed to move seamlessly between work and play. Spacious interiors with 7 seats, cutting-edge safety features, and powerful performance make it a trusted companion for families, explorers, and professionals alike.

With the Isuzu MU-X, every drive becomes more than just a trip – it's an experience built to last.

Enhanced performance.

Since developing Japan's first air-cooled automotive diesel engine in 1936, Isuzu has continued to build a reputation for world-class diesel engines. Constant technological improvements, innovations and in-depth experience across the production of more than 28 million diesel engines means Isuzu is an established global leader in developing capable and efficient engines.

Ready for anything.

The MU-X makes a powerful first impression. With its commanding front grille, sleek LED lighting, and sculpted body lines, the MU-X projects confidence from every angle. Its bold stance is complemented by aerodynamic detailing that enhances efficiency without compromising strength. From city streets to rugged terrain, the MU-X blends toughness with modern sophistication – an SUV designed to stand out while standing strong.

Heated leather seats

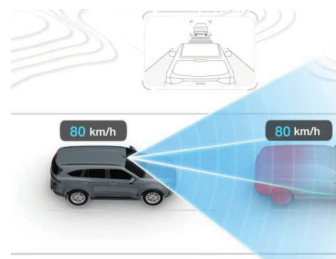

Power front seats

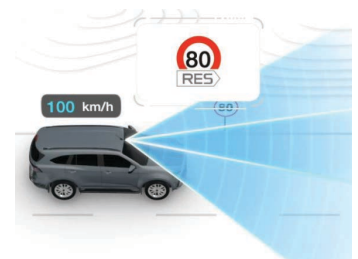

Safety meets strength.

Standard across the range, Isuzu's Intelligent Driver Assistance System technology includes an extensive list of both active and passive safety systems. Employing state-of-the-art sensors and a stereo camera, IDAS constantly monitors your surrounding environment for danger. Should it detect a collision is imminent, the system will work to help the driver to defuse dangerous situations via alert systems and automated functions. Each MU-X model includes eight airbags as standard and a stronger, more robust chassis, as well as a reinforced cabin safety cell for ultimate protection.

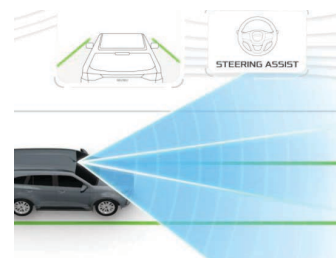

And to prove its credentials, the MU-X has achieved a 5-star ANCAP safety rating. The MU-X is there to look after you - no matter the situation.
