

## Variable Height FastFold Frame

### 4' x 8'

## Variable Height FastFold Frame

Smartstage FastFold Frame stage deck legs offer the freedom to build your stage up at any height, in any direction, and over any terrain with a finite leveling foot. They are simple and quick to use - requiring only one person to assemble a frame. FastFold Frames are available for standard 4x8 decks and provide a wide range of unique stage configurations. If you're looking for quick stage options, Smartstage FastFold Frames are ready to rock!
