

Dear Friends,

Being a member of the North Lakeland Discovery Center means being part of something special.

Our members are a community of people who believe the Northwoods is worth exploring, learning about, and caring for. Your membership helps make it possible for us to offer programs and experiences for people of all ages while keeping those opportunities affordable and accessible to everyone.

Membership support is an essential part of our annual income. It helps us keep program fees down, care for our animal ambassadors and exhibits, maintain our trails and facilities, and continue creating opportunities for people to connect with the natural world. Simply put, your membership helps make the Discovery Center possible.

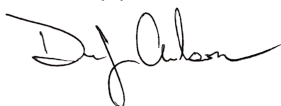

And membership is about more than the benefits you receive — although we hope you enjoy the discounts, priority registration, and other perks! It's about knowing you're helping sustain a place where a child can discover a new passion, a family can spend time together outdoors, and all of us can deepen our connection to this incredible place we call home.

As you renew your membership this year, we invite you to consider moving up to the next membership level. Your increased support can make an even greater difference today while helping ensure the Discovery Center remains a place your children and grandchildren can explore, learn, and create their own Northwoods memories for years to come.

We hope you'll join us or renew your membership this year. Your support truly matters, and every member makes our Discovery Center community stronger.

Thank you for being part of the Discovery Center and for helping us enrich lives and inspire an ethic of care for the Northwoods. I hope to see you at the Discovery Center soon!

With appreciation,

Don Anderson
