

HURLCON HYDRONIC  
HEATING

# **PRICE CATALOGUE v1.1.1**

FEBRUARY 2026

Australia's most trusted Hydronics supplier.

# HURLCON HEATING

## TERMS & CONDITIONS

Prices effective as of 23 February, 2026

All prices exclude GST.

Prices are recommended retail.

Prices do not include freight, packing or postage.

Prices are subject to change without notice.

Prices do not include installation.

All goods must be checked upon receipt, with damaged or missing items reported within 48hrs.

Goods damaged in transit should be photographed as soon as they are received and images emailed to [info@hurlcon.com.au](mailto:info@hurlcon.com.au)

Goods must be approved prior to being returned and may attract a 20% restocking fee.

HURLCON reserves the right to make modifications and change specifications without notice E & OE.

# VISSMANN GAS CONDENSING BOILERS

Hurlcon carries the Vitodens range of gas condensing boilers from industry leaders Viessman - crafted in Germany since 1917.

The Viessmann Vitodens product series combines the benefits of proven gas heating with the latest condensing technology. Its high energy efficiency means reduced long-term energy costs while remaining environmentally beneficial, making a Viessmann Vitodens Gas boiler perfect for any household.

# VISSMANN VITODENS 100-W WALL MOUNTED GAS CONDENSING BOILER

Compact and efficient wall-mounted gas condensing boiler that is economical to run with exceptional value.

All boilers have modulation functionality to work with NG & LPG.

**WARRANTY:**

10 Years Heat Exchanger

5 Years Components\*

2 Years Labour

\*Boiler Components have a standard 2 year warranty that can be extended to 5 years when connected to the internet and serviced annually by an approved Viessmann Australia technician.

Image shown is a cross section of a Vitodens Hydronic Boiler (Indoor unit).

BOILERS	PRODUCT CODE	OUTPUT (kW)	RRP
VITODENS B1HF-25KW HYDRONIC BOILER (UNIT ONLY)	WL-V7720290	25KW	\$3,090.00
VITODENS B1HF-32KW HYDRONIC BOILER (UNIT ONLY)	WL-V7720291	32KW	\$3,400.00
VITODENS B1KF-25KW COMBI BOILER (UNIT ONLY)	WL-V7720293	25KW	\$3,540.00
VITODENS B1KF-32KW COMBI BOILER (UNIT ONLY)	WL-V7720294	32KW	\$3,580.00
VITOTROL 100E (MODULATION CONTROL) THERMOSTAT	WL-V7968153	-	\$339.00

Be in full control with the Vitotrol 100-E Thermostat. The Vitotrol 100-E is a battery-powered remote control that controls your boiler via an encrypted 2.4 GHz low-power radio connection. It comes with an integrated room temperature sensor and illuminated display.

**Enjoy these benefits at home**

- + Preset 3 room temperature setpoints
- + Preset 1 hot water temperature setpoint
- + Time programmes for heating and hot water
- + Possibility of automatic software updates

**Easier installation and maintenance**

- + No cables needed for installation
- + Easy install as one control per heating circuit
- + Can connect several Vitotrol 100-E per installation

Thermostat Sold Separately.

# WISELIVING HYDRONIC HEAT PUMPS

The innovative design of their heat pumps reflects WISELIVING's dedication to sustainability. In addition to utilising energy-efficient technologies and systems, these units also feature next-generation refrigerants that are environmentally friendly.

This means that these hydronic heat pumps are capable of lowering a home's overall emissions and carbon footprint, while providing comfortable warmth for the entire family.

# WISELIVING R32 HYDRONIC HEAT PUMP AND BUFFER KIT

The R32 Hydronic Heat Pump is an energy-efficient unit thanks to its combination of DC Inverter and EVI technologies. Using the R32 refrigerant, it has significantly lower Global Warming Potential (GWP) compared to other types of refrigerants commonly used today.

These units are equipped with a stylish housing that's corrosion and UV-resistant. It's designed to withstand Australia's harsh weather conditions, which helps ensure the hydronic heat pump's long service life. Perfect for in floor hydronic heating systems!

**WARRANTY:**

5 years on Parts, 2 years on Labour.

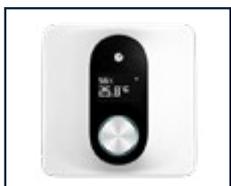

**\*Heat Pump + Buffer + Componentry Kit Inclusions:**

Heat Pump, Buffer Tank, Grundfos Secondary Pump, Pump unions, 8L Expansion Tank, Auto fill valve, Room Thermostat, 25mm Line Strainer, Auto air bleed valve, 3 bar Pressure Relief Valve.

Auto-Fill Valve

# WISELIVING HIGH TEMPERATURE HYDRONIC HEAT PUMP AND BUFFER KIT

Our high temp models deliver efficient energy consumption, and are capable of providing hot water at temperatures of up to 75 degrees Celsius; utilising the natural R290 refrigerant which has a global warming potential of 3 for a greener future.

These units are equipped with a stylish housing that's corrosion and UV-resistant. It's designed to withstand Australia's harsh weather conditions, which helps ensure the hydronic heat pump's long service life.

**WARRANTY:**

5 years on Parts, 2 years on Labour.

# WISELIVING ALL-IN-ONE **HOT WATER** HEAT PUMPS

WISELIVING offers the latest in domestic hot water heat pump technology boasting a natural refrigerant to lower your home's carbon footprint, along with a dedicated app and Wi-Fi connectivity for ease of use.

The WISELIVING All-In-One Hot Water Heat Pump features a compact design which eliminates the bulk and height issues of traditional integrated heat pumps, so you'll find upgrading to a high efficiency, hot water system has never been easier.

# WISELIVING ALL-IN-ONE DOMESTIC HOT WATER HEAT PUMP

**Features of the WISELIVING All-In-One Hot Water Heat Pumps:**

- Natural Refrigerant R290 (effectively zero global warming potential compared to synthetics).
- Operates at a quiet 43 decibels.
- 3 heating modes (Standard, Boost and Electric) means a very simple and easy to use system!
- Non-sacrificial impressed current anode provides protection in soft and hard water conditions.
- Installs in the same amount of space as an electric 200L or 270L, for quick and easy upgrading.

**WARRANTY:**

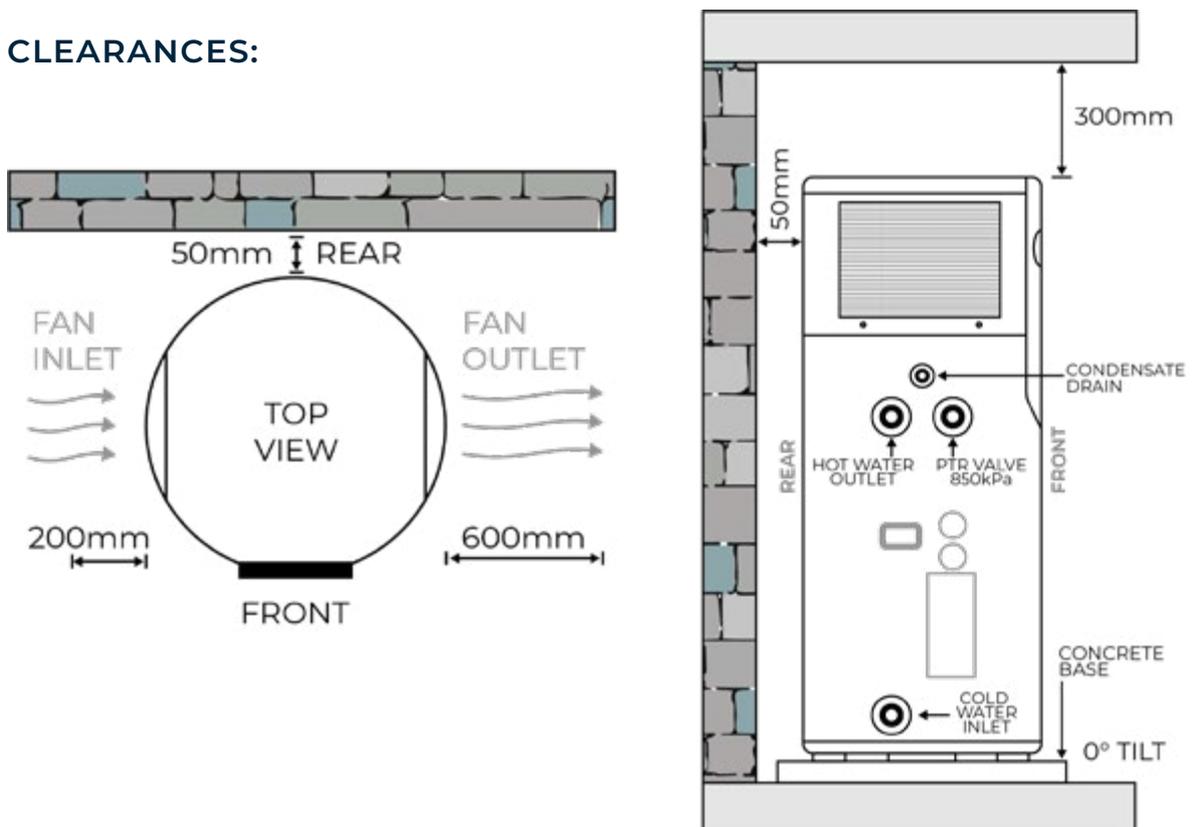

6 Years Parts. 2 Years Labour

**AVAILABLE SIZES:**

200 LITRES / 270 LITRES

# RADIATORS & HEATED TOWEL RAILS

Termoteknik's ThermaRad radiators are a stylish, efficient and durable steel panel produced in accordance with EN442 and ISO9001.

Stylish European designed and produced ThermaRad steel panel radiators come complete with removable side panels and top grilles. After installation the side panels and top grilles are able to be easily removed for cleaning and replacement if necessary. A large range of sizes are available.

# TERMOTEKNIK THERMARAD TECHNICAL SPECIFICATIONS

## Painting:

Finished in neutral white powder coat (RAL9016) environmentally friendly multistage painting process for increased product life and stylish finish.

- Degreasing and Fe-Phosphating.
- Water based primary paint.
- Epoxy-polyester powder coating.

## What's in the box:

All panels supplied complete with:

- Air bleed valve 1/2" BSP with O-ring seal.
- Plain plug 1/2" BSP with O-ring seal.
- Side covers and top grilles fitted
- Concealed wall brackets with plastic inserts.
- Screws and wall plugs for a brick wall.

## Spare Parts & Accessories:

All wall brackets, side covers, top grilles, and free standing feet are available to order. See page 43

## WARRANTY:

25 year warranty against manufacturing defects.

Warranty is void if radiators are installed in aggressive or humid environments such as swimming pool areas, saunas, bathrooms, showers or Greenhouses. For full terms and conditions visit [hurlconheating.com.au/technical-support](http://hurlconheating.com.au/technical-support)

## Outputs:

EN442 90/70/20  $\Delta T$  60°C

## Production accreditation:

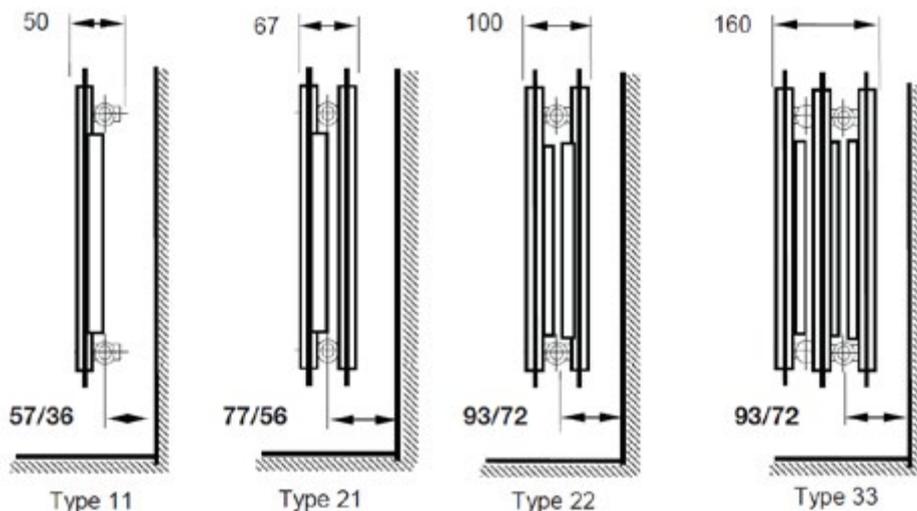

ISO 9000, BS EN ISO 9001:2008

## Quality certifications:

DIN, BSI, NF GOST-R, UkrSPERO, EMI, TSE, CE EN442

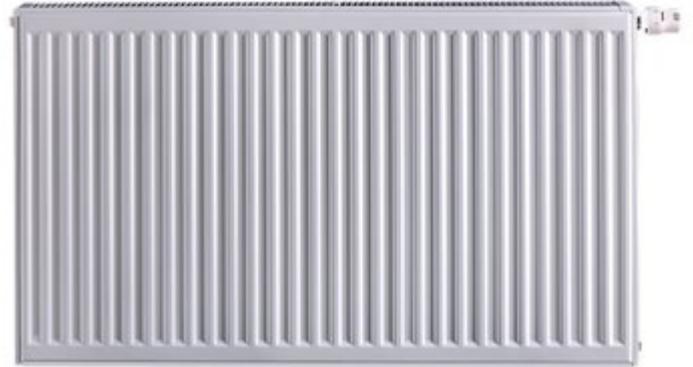

TECHNICAL SPECIFICATIONS:	
PANEL GAUGE	1.20MM COLD ROLLED STEEL
TEST PRESSURE	1300 KPA (13 BAR) MINIMUM
WORKING PRESSURE	1000 KPA (10 BAR) MAXIMUM
CONNECTIONS	1/2" BSP
PACKAGING	HEAVY DUTY CARDBOARD AND SHRINK WRAPPING

## Wall to centre pipe dimensions (mm):

## CLASSIC RADIATOR RANGE

- Environmentally friendly, multi-stage painting process that extends product life and provides an elegant appearance
- Robust packaging that provides long-term protection during transportation and storage
- Accessory bag consisting of a vent, blind plug, screw and dowel "L" type wall hanger that provides flexibility of installation.
- Convectors welded to water channels that provide high thermal efficiency
- Modern 33.3 mm pitch water channel design
- Factory fitted top and side covers for a compact appearance
- Elegant, efficient and durable panel radiators manufactured according to EN442 & BS EN ISO 9001
- Water-based primer Epoxy-Polyester powder coating
- European standard RAL 9016 paint colour

SOLD IN AUS SINCE 1996

# VERTICAL THERMADESIGN & THERMASTYLE RADIATORS - TYPE 21

When wall space is a problem, vertical radiators from Termo Teknik offer a space saving solution that's both elegant and practical. ThermaStyle's flat sectional rib finish gives a subtle designer look, while ThermaDesign's flat panel finish gives a sleek, minimal feel. All vertical radiators are supplied with a fixing kit, including vents and plugs.

### Options:

Pipe connections are bottom either side (std 1/2")  
Centre connection (3/4") centre measurement  
taken from outside of radiator to pipe centres.

### Warranty:

25 years against manufacturing defects.  
Conditions apply.

### Ordering:

✓ - Stock Item x - Supplied to order.  
Lead times may vary, please contact our office for  
further details.

### Painting:

Powder coat White RAL 9016

# CONVECTORS, TRENCHES & GRILLES

# HURLCON SOLAZAR WALL MOUNTED NATURAL CONVECTORS - 300MM HIGH

Hurlcon's Australian made and designed Solazar wall mounted natural convectors are low surface temperature and low water content, delivering safe, efficient, and comfortable warmth. Sleek and streamlined, valves and pipework are concealed within the casing. All Solazar convectors are 1/2" BSP connection.

**Ordering:**

✓ - Stock Item    ✗ - Supplied to order\*.

\*Wall mounted natural convectors are made to order. Lead times may vary, contact the office for further information.

**Warranty:**

10 year warranty against manufacturing defects.

For temperatures other than 60°C, use the table below for correct emissions. To calculate the Mean Effective Temperature Difference (M.E.D.) use the following equation: M.E.D. = Flow + Return water temp 2 -Room Temp.

Correction Table applies across all Hurlcon Convector Styles.

M.E.D.	30°C	40°C	50°C	55°C	60°C	65°C	70°C
FACTOR	0.38	0.5	0.77	0.9	1	1.11	1.22

Outputs based on 90/70/20 ΔT 60°C across all Hurlcon convector styles.

# HURLCON STANDARD & LOW PROFILE TRENCH HEATERS

Hurlcon’s Australian designed and manufactured standard & low profile trench heaters screen off the cold, heating every part of the room, without obstructing views. The ideal solution for floor to ceiling windows and large sliding doors. After the trench heater has been installed, only the grille remains visible. All trench convectors are 1/2” BSP connection. Complete the look with our large range of stylish designer roll up grilles by WISELIVING.

**Ordering:**

Standard & Low Profile Trench heaters are [made to order](#).

Lead times may vary, contact the office for further information.

**Warranty:**

10 year warranty against manufacturing defects.

**Insulation:**

All trench boxes finished with a 5mm black insulation on exterior surfaces.

**Grilles:**

Trench heaters not supplied with grilles. Refer to P51 for details.

Outputs based on 90/70/20 ΔT 60°C across all Hurlcon convector styles. Image pictured is a low profile trench heater. Copper tubing diameter for all Hurlcon heat exchangers (5/8” or 15.9mm).

# HURLCON NATURAL CONVECTION HEAT EXCHANGERS

For installation into a preformed duct, wall recess, niche, under benches or inside cabinetwork. Hurlcon's heat exchangers offer flexibility to ensure every space is the right temperature. All Hurlcon heat exchangers are 1/2" BSP connection. Our research and development team have improved the heat losses through our current heat exchangers with the introduction of a manifold head, the aluminium fins have also been re-designed to give more surface heating area, investing a large amount of capital into new press machinery, materials, and processes.

## Ordering:

Heat Exchangers are made to order. Lead times may vary, contact the office for further information.

## Warranty:

10 year warranty against manufacturing defects.

# WISELIVING ALUMINIUM ROLL UP DESIGNER FLOOR GRILLES

WISELIVING's range of designer floor grilles for trench heating systems are manufactured with rounded aluminium bars that are mounted on a rubberised underside strip, to ensure the grille is quiet and won't move under foot.

Grilles can be conveniently rolled up and washed in a dishwasher.

Available in roll lengths of up to 10 metres which can be joined together easily or cut to length on site.

**Warranty:**

5 year warranty against manufacturing defects.

## SBK MODULAR MANIFOLD SYSTEMS

SBK modular manifold systems designed and manufactured in Germany are comprised of individual 'blocks' assembled for the required number of heating circuits. Blocks are colour coded for flow and return piping, available as a plain option or with flow control valves. Constructed from glass reinforced plastic they are corrosion resistant with inbuilt insulating properties.

### Ordering:

✓ - Stock Item x - Supplied to order. Lead times may vary, please contact our office for further details.

### Warranty Guide:

5 year warranty against manufacturing defects.

\*Includes connection & bracket set, threaded rod, manifold flow block (red) with valve, manifold return block (blue) with flow meter valve, pipe connectors 16 x 2mm

Under Floor heating has many advantages including providing heat where it is most needed. The HeatPex System offers the options of Under Floor and Radiant Heating systems. And like its sister brands, GasPex and WaterPex, the system uses common fittings and tooling to make the job simpler for the professional installer.

# MAGNETIC DIRT SEPARATORS

Magnetic dirt separators represent the best solution in preventing system problems due to particle presence, especially rust and sand that are formed due to corrosion and scale during the normal operation of a hydronic system. The magnetic filter collects all the impurities present in the system, preventing them from circulating within it, thus avoiding wear and damage to the rest of the components making up the system, circulators and heat exchangers in particular.

✓ - Stock Item    ✗ - Supplied to order. Lead times may vary, please contact our office for further details.

# WATER TREATMENTS

Water in a hydronic central heating system needs to be chemically treated otherwise corrosion and limescale will soon affect a boiler's efficiency. Research has shown that a new system can be up to 6% less efficient within a matter of weeks if not correctly treated, impacting on CO2 emissions and the environment.

✓ - Stock Item    ✗ - Supplied to order. Lead times may vary, please contact our office for further details.
