A Note on Colour Accuracy.

The swatches in this guide are displayed using RGB colour values converted from their original CMYK specifications. CMYK (Cyan, Magenta, Yellow, Key/Black) is the colour model used in fabric dyeing and print production, while RGB (Red, Green, Blue) is how screens display colour. Because these two systems work differently, on-screen colours are close representations but may not be an exact match to the final fabric.

For precise colour matching, always refer to the CMYK values provided beneath each swatch or request a physical fabric sample from your account manager.
