

ENVIRONMENTAL POLICY

Waters Excavations Pty Ltd is a well-established company specialising in civil construction (including, road works, pipelines, earthworks and demolition), limestone quarry materials and the Waters Industrial Recycling (Recycling waste concrete, brick & asphalt and processing for reuse/resale).

Waters Excavations Pty Ltd is committed to protecting the local and global environment of the earth. To minimise environmental impacts concerning our activities, products, and services we shall:

- Maintain compliance with all applicable environmental, legal, and other obligations by operating under and maintaining accredited ISO 14001:2015 Environmental Management Systems. This will ensure that the company follows best practice in environmental standards and stays up to date with the latest legislation requirements.
- Comply with applicable legal and other requirements to which we subscribe, and which relate to environmental aspects.
- Ensure the environmental objectives are established for the IMS and are compatible with the context and strategic direction of the Company.
- Be committed to firmly embed protection of the environment in both the organisations and all employees' culture and endeavour to influence our external providers and customers in a similar strategic environmental manner.
- Prevent pollution, reduce waste, and minimise the consumption of resources.
- Consider the wider global impact of all our activities including those of our external providers, customers, and stakeholders.
- Educate, train, and motivate employees to carry out tasks in an environmentally responsible manner and ensure that a continuous professional development strategy remains core to our business goals.
- Encourage environmental protection among external providers.
- To investigate the feasibility of influence on our external providers, customers and third parties with consideration to the lifecycle impacts of their aspects and activities.
- Encourage and enhance biodiversity and ecology.
- Divert waste concrete, brick, asphalt, and clean fill from entering local landfill by maintaining the Waters Industrial Recycling where materials are recycled / processed for reuse.

Waters Excavations Pty Ltd is committed to the continual improvement of environmental performance. This policy will be reviewed annually by the Managing Director and will be communicated to all staff and external providers and be available to interested parties upon request.
