

## **Mr Matthew Harris**

Bio: Matt is a senior general surgery resident in the North West of England with a special interest in bariatric surgery, minimally invasive surgery and robotics. He is currently completing the final year of a PhD in cancer data science, funded by Cancer Research UK and has previously completed a Masters degree in Surgical Innovation at Imperial College London.

He holds several National surgical leadership positions including the current Chair of the UK robotic and digital surgery trainee committee, core group member of the RCS England Future of Surgery Group and resident representative to NHS England Robotics implementation group. Alongside his clinical and academic work, he is the Clinical Lead for a Inovus Medical, a MedTech company developing Augmented Reality laparoscopic simulation devices.
