## Stop Fraud and Protect Yourself

Someone you don't know calls, emails, or texts you offering free medical equipment or services. What should you do? **Hang up. Delete it. Don't open it.** Only you and your doctor should decide what care and services are right for you.

Scammers want your Medicare information so they can bill Medicare for services you don't need — like hospice (end-of-life care), home health care, or durable medical equipment (like a brace or cane).

Hospice scams are particularly harmful. If a scammer signs you up for hospice care without your knowledge, **you could lose access to your doctors and regular Medicare benefits.**

### Crush Fraud

**Remember: Never give out your Medicare Number and don't sign anything for free services — it's a scam.** If you think you may have experienced fraud, call **1-800-MEDICARE (1-800-633-4227)** or report it online at **[Medicare.gov/fraud](https://www.medicare.gov/fraud)**.

Sincerely

## Medicare GLP-1 Bridge Program

Beginning July 1, 2026, CMS will make certain GLP-1 medications available to eligible Medicare Part D beneficiaries for the treatment of obesity and weight loss.

**This is a temporary demonstration that will run through December 31, 2027.**

CMS will manage this program; it is separate from the beneficiary's Medicare Part D coverage.

### What this means for you.

#### Medicare GLP-1 Bridge

- Clients seeking GLP-1 medications for weight loss may be eligible through the Medicare GLP-1 Bridge if they meet the program's criteria related to age, BMI, prescribed usage indication for weight loss in combination with lifestyle modifications, and other qualifying conditions.
- **To determine eligibility, clients should work with their provider to submit the Medicare GLP-1 Bridge prior authorization request to CMS.**
- Pharmacies will collect the \$50 copay amount and send a claim to the Medicare GLP-1 Bridge processor. If the pharmacy attempts to bill the beneficiary's Part D plan, they will receive a rejection.
- The Medicare GLP-1 Bridge program does not change the beneficiary's Part D coverage.
- Clients using GLP-1 medications for Part D covered indications, such as diabetes, diabetes and cardiovascular, or sleep apnea, may continue to have coverage through their plan. Please see the plan's Formulary and Evidence of Coverage (EOC) for complete coverage details.
- Medicare GLP-1 Bridge program medication costs do not count toward Part D maximum out-of-pocket costs.

The Medicare GLP-1 Bridge is a CMS demonstration and is subject to change or termination by CMS at any time. Currently Foundayo, Wegovy and Zepbound are in the program.
