

BOB WHITE
QUALITY FEED

South East Ohio Beef Mineral

A high-quality mineral designed to meet the nutritional needs of beef cattle grazing in the region

Features & Benefits:

- High salt levels encourage consistent intake and help maintain fluid balance and nerve function
- High magnesium aids in the prevention and control of grass tetany in cattle in early spring or lush pasture
- Added trace minerals and vitamins to improve metabolism, support a healthy immune system, and overall productivity
- Tailored for cattle grazing and feeding conditions to help optimize performance year-round

Directions: See feed tag for feeding instructions. Also available with Clarifly®, or with higher magnesium levels.
