

ANNUAL REPORT

This past year Holmes County Highway Department completed several milestones. One of our goals was to keep the public informed and up-to-date on projects that our office is working on and the location of the County Highway snowplows. In December, we launched an application called "Snowplow Tracker". This program tracks snowplows through digital radios in real time and up to a 3 hour history. The location of each snowplow can be viewed by the public on the county's Web site, <http://www.co.holmes.oh.us>. In addition to the tracker we also created a Facebook page to notify travelers of road closings, current projects and grant funding. This was well received by the public.

The 1st covered timber bridge in Holmes County, "Stutzman's Crossing" was completed on County Road 145. The bridge was named after Jonas "Derweiss" Stutzman who approximately 200 years ago built the first home in Walnut Creek. Official opening was held in November and visitors came to see the very rustic look of the new bridge.

Our county was awarded several Federal and State grants totaling \$3,321,634.00 in 2009. The following are the projects that were completed with these monies: materials for various projects; 3 bridges - CR 19, CR 189 and a covered bridge on CR 145; paving project on CR 207 and Phase III, IV and V guardrail projects totaling 60,000 feet of guardrail.

In addition, I would like to thank the Highway Dept. Garage, office staff and contractors for all their hard work in completing these projects.

I respectfully submit this annual report required by Ohio Revised Code Ch. 5543
Christopher R. Young, P.E., P.S.
