

About NAWB

NAWB represents approximately 550 Workforce Development Boards and their 12,000+ business members that coordinate and leverage workforce strategies, to ensure that state and local workforce development and job training programs meet the needs of employers.

Through the National Partnership Grant awarded by the USDA and FNS, and in partnership with Seattle Jobs Initiative and Third Sector Capital Partners, NAWB will provide multi-faceted technical assistance for workforce development boards interested in becoming third-party SNAP E&T providers or intermediaries.

Cohort Activities

Workforce Development Boards participating in the cohort receive one-on-one coaching from industry experts around their SNAP E&T goals, and participate in monthly cohort webinars covering SNAP E&T basics, best practices, and other topics related to becoming SNAP E&T partners.

Benefits of Joining the Cohort

- Coaching & support with the process of becoming a SNAP E&T third-party partner
- Access to tools and resources covering core components and best practices of SNAP E&T
- Tools and resources for engaging and serving SNAP participants
- Peer-to-peer networking and collaboration with other WDBs

Next Steps
