

*Interested in launching a registered apprenticeship in supply chain automation?*

### Financial incentives for sponsors are available!

The **Supply Chain Automation Workforce Hub (Hub)** is a one-stop solution for recruiting and training **supply chain automation specialists** – powered by employers, workforce organizations, and education institutions. Supply chain automation is the use of digital technologies to improve efficiencies, connect applications and streamline processes within supply chain operations including **mechatronics, logistics, transportation, and warehousing**.

We help employers develop **customized training** programs to shore up and diversify their **supply chain automation** talent pipelines through **Registered Apprenticeship Programs (RAPs)**; industry-driven training models that enable employers to train workers to meet their unique needs.

The HUB offers financial support through an **Incentive Fund**.

The **Incentive Fund** helps sponsors offset costs of launching RAPs and providing training to apprentices!

### Incentive Fund Facts

- ▶ **Financial incentive** of up to \$1,000 per apprentice available to RAP sponsors
- ▶ A total of **\$400,000** in incentive funds available for 2022
- ▶ Incentive fund will **prioritize new RAP sponsors** and those with highest reach to enroll apprentices
- ▶ Eligible sponsors will receive **direct distribution** of funds

### How the Hub Can Help!

*The Hub's technical assistance team provides many types of support to RAP sponsors.*

- ▶ Regular communication and peer learning opportunities
- ▶ Ongoing support to management teams
- ▶ Assistance with incentive fund data tracking
- ▶ Technical assistance to help sponsors develop sustainability plans
- ▶ Connections with community organizations that can provide necessary resources to sustain programs
- ▶ Assistance accessing state and federal funds

### Use Incentive Funds For:

- ▶ Registration of RAPs with federal or state apprenticeship agency
- ▶ Costs related to design and start-up of RAPs
- ▶ Classroom education or online training for apprentices
- ▶ Outstanding costs related to on-the-job training (excluding wages)
- ▶ Train-the-trainer costs or activities
- ▶ Training equipment for apprentices
- ▶ Curricula development
- ▶ Tools and activities that assist in apprentice recruitment, retention, completion and/or placement
