RE: Fifth Street Road Update

Beginning next Wednesday, June 3, 2026, paving operations are tentatively planned to begin on the section of 5<sup>th</sup> Street Road that is currently closed. The base layer has been graded to elevation, surveying and the setting of pavement elevation hubs to guide the paving machines will take place today and tomorrow. It is imperative that no one drives on this surface as it may cause damage to the subgrade material or disturb elevation hubs or string lines. Please obey all traffic control signs and stay out of the construction area. If anyone decides to not follow traffic control signs they could receive traffic citations and be held financially responsible for damage or delays to the project.

If there are any questions or concerns, please contact the Street Department at 217-732-4655.
