**FRATELLI
BARBIERI**

Who we are Chi siamo

Fondata a Genova nel 1947, **FRATELLI BARBIERI** Srl è leader nelle forniture di prodotti, materiali ed accessori per la cura e la riparazione delle calzature, con oltre 10.000 articoli venduti su tutto il territorio nazionale e all'estero grazie ad una rete di validi agenti e distributori: oggi esporta in oltre 45 paesi.

CRESCITA

Nel 1990 comincia a distribuire in Italia i sottopiedi e plantari Pedag, prodotti che si affermano per la loro altissima qualità.

Nel 1991 il gruppo Barbieri rileva Euroten Srl, ex "Plasticol", azienda milanese specializzata nella produzione di accessori in plastica per calzature, quali tendiscarpe, tendistivali e calzanti. Oggi la produzione viene svolta a Vittorio Veneto nel nuovo capannone Svig.

Nel 1998 l'attività viene spostata nella nuova sede di Genova, rinnovata ed ampliata nel 2010, che si sviluppa su oltre 2.200 mq tra magazzino e uffici.

Nel 2000 viene depositato il marchio Movi, con il quale sono state create una linea di prodotti sanitari per il benessere dei piedi, una linea di prodotti e lucidi per la cura della calzatura, una linea di lacci per scarpe, una linea di sottopiedi e plantari e una linea di pelletteria.

Nel 2024 viene fatto un aggiornamento del marchio Movi, che diventa Blu/Argento. Di conseguenza comincia il *restyling* di tutte le confezioni Movi, che, grazie alla nuova grafica e ai nuovi colori, acquistano in sobrietà ed eleganza.

ESPANSIONE

Nel 2006 FBG Srl (Fratelli Barbieri Group) acquisisce totalmente SVIG Srl, il cui controllo era già stato rilevato nel 2004. SVIG è una delle principali fabbriche italiane di gomma per calzature, con un'ampia gamma di articoli per la riparazione e l'ortopedia.

Nel 2007 viene costruita per SVIG la nuova e moderna sede produttiva in Vittorio Veneto (TV), con una superficie coperta di 3.000 mq.

Nel 2013 SVIG cresce e lo spazio non è più sufficiente: è allo studio la costruzione di una nuovo capannone su un terreno contiguo.

Nel 2015 viene inaugurato il nuovo capannone di 2.000 mq adiacente a quello esistente.

SVILUPPO

Il progetto del Gruppo Barbieri è quello di accrescere la propria posizione di leadership in Italia ed all'estero, con continui investimenti, cercando sempre di migliorare la qualità dei propri prodotti, e con la ricerca, lo studio e l'introduzione costante di nuovi articoli, forti dell'esperienza acquisita in oltre mezzo secolo di attività nel settore.

Siamo persuasi che l'innovazione generi nuove opportunità di lavoro e di crescita anche per i nostri clienti, creando quindi un circolo virtuoso a beneficio di tutti: azienda, clienti, collaboratori.

Registered in Genova in 1947, FRATELLI BARBIERI Srl is leader in supplying products, materials and accessories for shoe care and shoe repair, with more than 10.000 items sold both nationally and internationally thanks to a well-built network of agents and distributors: today it exports in more than 45 countries.

GROWTH

In 1990 it begins distributing in Italy Pedag insoles and foot supports, that soon gain market shares thanks to their high-level quality.

In 1991 Barbieri Group takes over Euroten Srl, formerly "Plasticol", a company based in Milan specialized in manufacturing plastic accessories for shoes, such as shoe trees, boot shapers and shoe horns. Today the production is performed by Svig in the new building.

In 1998 Fratelli Barbieri moves to its new headquarters, refurbished and extended in 2010, that covers 2.200 sqm including both the office and the warehouse.

In 2000 the brand "Movi" was born: under the brand "Movi" was created a line of sanitary products for foot-care, a line of shoe-care products, a line of shoe laces, a line of insoles and foot supports and a line of leather goods.

In 2024, the Movi brand was updated to Blue/Silver. Consequently, the restyling of all Movi packaging begins, which, thanks to the new graphics and new colors, acquire sobriety and elegance.

EXPANSION

In 2006 FBG Srl (Fratelli Barbieri Group) totally acquires SVIG Srl, whose control was already taken in 2004. SVIG is one of the most important rubber-for-shoes factories in Italy, with a wide range of shoe repair articles and orthopedic products. In 2007 the production is moved to SVIG's new and modern factory in Vittorio Veneto (TV), featuring a covered surface of 3.000 sqm. In 2013 SVIG grows up and needs more space: it is being planned to build a new factory on an adjoining plot. In 2015 it takes place the inauguration of the new building, 2.000 sqm, close to the existing one.

DEVELOPMENT

Barbieri Group aims to make its leadership position bigger and bigger, in Italy and abroad, and tries to achieve this goal by investments and research, by study and continuous creation of new articles, with the support of the experience that comes from more than half a century of activity, and always attempting to increase the products' quality.

We strongly believe that innovation generates new growth and work opportunities for our customers as well, thus creating a virtuous circle for the benefit of all: our companies, our customers, and those who work with us.

Super COLOR

Tintura coprente per pelli naturali e sintetiche, non scamosciate. Adatta anche per tessuti. Tinge in modo permanente ogni colore, anche bianco su nero. Copre graffi e segni su calzature e altri oggetti in pelle. Non screpola.

USO: pulire bene la pelle con alcol o con il Movi Preparer, agitare la confezione per miscelare il prodotto, usando anche il pennello per mescolare il fondo, applicare con la spugnetta, una volta asciutta applicare una seconda mano. Lasciare asciugare 24 ore.

Covering dye for natural and synthetic leather. Not for suede. Suitable for fabrics too. It dyes each color in a permanent way, even white on black. It covers scuffs and scratches on footwear and other leather objects. It does not crack.

USE: clean properly the leather by alcohol or by Movi Preparer, shake the bottle to mix the product, also using the brush to mix the bottom, apply it using the sponge, once it has dried apply a second coat. Let it dry for 24 hours.

Movigel

Protezioni del piede in Gel Polimero, combinato con olio minerale. Il Gel Polimero è atossico e anallergico e può stare a contatto con la pelle. Dona un sollievo immediato nei punti di attrito delle scarpe, alleviando la pressione e la frizione delle sporgenze ossee. E' indeformabile ed elastico. Rilascia impercettibilmente olio minerale che ammorbidisce le callosità.

Foot protections made of Polymer Gel combined with a mineral oil. Polymer Gel is atoxic and anallergic, and can be used in contact with the skin. It gives immediate relief where shoes rub, relieving pressure and friction on bony protuberances. It is elastic and returns to its original shape even after repeated pressures. The almost imperceptible oil softens the callosity.

Le solette progettate per una Vita Attiva

The insoles designed for an Active Life

- * **Elevato Potere Ammortizzante** per tallone e metatarso, in modo da ridurre le sollecitazioni su tendini, ossa, e giunture.
High cushioning power for heel and metatarsus, so as to reduce stress on tendons, bones, and joints
- * **Effetto Stabilizzante**, per tenere il piede fermo e in posizione corretta, durante il movimento e in caso di spostamenti laterali improvvisi.
Stabilizing effect, to keep the foot still and in the correct position, during movement and in case of sudden lateral shifts.
- * **Supporto dell'Arco plantare**, per distribuire il peso del corpo su una superficie maggiore, non solo su tallone e meta tarso, e per contrastare un'eventuale eccessiva pronazione.
Support of the plantar arch, to distribute the weight of the body on a larger surface, not only on the heel and metatarsus, and to counteract any excessive pronation.
- * **Morbidezza e comfort**, per chi sta a lungo in piedi.
Softness and comfort, for those who stand for a long time.

MULTISPORT

Soletta anatomica appositamente studiata per lo sport. Il **supporto semi-rigido**, leggero ed elastico, sostiene l'arco plantare e avvolge il tallone. I **cuscinetti** sotto il tallone e il metatarso sono in speciale materiale anti-shock. Lo **strato in PU** offre un morbido appoggio imbottito per il piede. Il **rivestimento** in tessuto tecnico è resistente all'usura, e assorbe efficacemente il sudore.

Anatomical insole specially designed for sports. The semi-rigid, light and elastic support sustains the arch of the foot and wraps the heel. The pads under the heel and metatarsus are made of a special anti-shock material. The PU layer offers a soft padded support for the foot. The coating in technical fabric is wear-resistant and effectively absorbs sweat.

Sizes: XS/35-38 S/39-41 M/42-43 L/44-45 XL/46-48

cod. MOPRO-001

DYNAMIC

Soletta anatomica appositamente studiata per l'attività sportiva e per l'uso quotidiano. Il **supporto** leggero ed elastico sostiene l'arco plantare e avvolge il tallone. I **cuscinetti** sotto il tallone e il metatarso sono in morbido gel ammortizzante. L'**arco plantare** imbottito mantiene il piede in posizione corretta. Lo **strato in PU** offre un morbido cuscino d'appoggio per il piede. Il **rivestimento** in tessuto tecnico è resistente all'usura, e assorbe efficacemente il sudore.

Sizes: XS/35-38 S/39-42 M/43-45 L/46-48

cod. MOPRO-002

ANTISHOCK

Soletta ammortizzante con effetto "Memory" appositamente studiata per l'attività sportiva e per l'uso quotidiano. **Lo spesso strato** in materiale anti-shock assorbe gli urti. **Il rivestimento** in tessuto tecnico è resistente all'usura, e assorbe efficacemente il sudore. **La perforazione** diffusa favorisce la circolazione dell'aria all'interno delle scarpe.

*Shock-absorbing insole, with "Memory" effect, specifically designed for sports and everyday use. The **thick layer** of anti-shock material absorbs shocks.*

*The technical fabric **coating** is wear resistant, and effectively absorbs sweat. Widespread **perforation** provides air circulation inside the shoes.*

Sizes **S/34-37 M/38-41 L/42-44 XL/45/47**

cod. MOPRO-003

ULTRASOFT

Soletta anatomica ultra soffice appositamente studiata per l'uso quotidiano e per l'attività sportiva. **Il supporto** ultra soffice si adatta alla forma del piede. **I cuscinetti** sotto il tallone e il metatarso sono in gel ammortizzante. **Lo strato in sofficia PU** con effetto "memory" dona comfort ai piedi.

Il rivestimento in morbido velluto assorbe efficacemente il sudore.

*Ultra soft anatomical insole specifically designed for everyday use and for sports activities. The ultra soft **support** adapts to the shape of the foot. The **pads** under the heel and the metatarsus are in shock-absorbing gel. The soft **PU layer** with "memory" effect provides feet comfort. The soft velvet **lining** effectively absorbs sweat.*

ENDURANCE Soletta anatomica appositamente studiata per le attività outdoor, come passeggiate, trekking, trail, e per l'uso intensivo in anfibi, scarponi, stivali e scarpe antinfortunistiche:

il rivestimento in microfibra tiene il piede fermo all'interno della scarpa, impedendogli di scivolare in avanti, e assorbe efficacemente il sudore.

Lo strato di schiuma ad alta tenacità (2 mm) è leggero, traspirante, ammortizzante, confortevole, resistente, elastico, prende la forma del piede, e mantiene inalterate queste sue caratteristiche per lungo tempo.

Il supporto semi-rigido, leggero ed elastico, sostiene l'arco plantare.

I cuscinetti sotto il tallone e il metatarso sono in speciale materiale anti-shock che assorbe gli urti e dissipa l'energia che si genera dall'impatto col terreno, aiutando così a prevenire talloniti e tendiniti, a proteggere le ginocchia e le caviglie, e a ridurre le sollecitazioni sulla colonna. **La base in PU** offre un morbido appoggio imbottito per il piede e avvolge il tallone, stabilizzando il piede durante il movimento. Si adatta a tutte le calzature. Binumero: ritagliare eventualmente seguendo la linea presente nella parte inferiore. Lavabile a mano.

Anatomical insole specially designed for outdoor activities, such as walking, trekking, trail, and for intensive use in combat boots, boots, and safety shoes: The microfiber lining keeps the foot still inside the shoe, preventing it from slipping forward, and effectively absorbs sweat. The high-tenacity foam layer (2 mm) is light, breathable, shock-absorbing, comfortable, resistant, elastic, takes the shape of the foot, and maintains these characteristics unchanged for a long time. The semi-rigid support, light and elastic supports the arch of the foot. The pads under the heel and metatarsus are made of a special anti-shock material that absorbs shocks and dissipates the energy generated by the impact with the ground, thus helping to prevent heel pain and tendonitis, protect the knees and ankles, and reduce stress on the spine. The PU base offers a soft padded support for the foot and wraps around the heel, stabilizing the foot during movement.

Fits all footwear. Two-sizes: cut if necessary following the line on the bottom. Hand washable.

Sizes: **XXS/35-36 XS/37-38 S/39-40 M/41-42 L/43-44 XL/45/46 XXL/47/48**

Accessori

Una gamma compatta e di facile vendita per risolvere i problemi più diffusi dei piedi. La pelle a concia vegetale assorbe il sudore dei piedi, il soffice lattice al carbone attivo distrugge gli odori e attutisce il contatto col terreno.

A compact, easy to sell, range to solve the most common feet problems.

The vegetable tanned leather absorbs moisture, a soft carbon latex foam filter stops foot odour.

Un modo completamente nuovo di camminare

Stare in piedi a lungo o camminare su duri pavimenti, asfalto, cemento, essere in sovrappeso, portare i tacchi alti, sono fattori che causano problemi ai piedi in circa l'80 % della popolazione e possono condurre all'appiattimento dell'arco plantare e alla caduta del metatarso.

Le solette anatomiche **pedag** forniscono un supporto corretto per l'arco longitudinale e per quello metatarsale, aiutando ad alleviare questi problemi.

Alleviano inoltre la pressione sui talloni, facendo in modo che il peso corporeo non gravi solo su di essi, ma si distribuisca sulla pianta del piede.

Le solette anatomiche **pedag** sono particolarmente sottili e leggere, in modo da adattarsi alla maggior parte delle calzature.

pedag: aiuta a risolvere i problemi dei piedi

A completely new way of walking

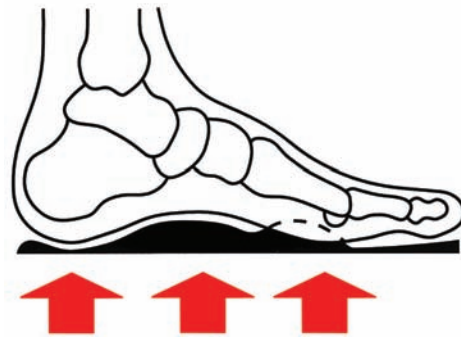

Hard concrete floors, long hours spent standing and walking, high heels and being overweight lead to foot problems and deformation in about 80% of the population and encourage the formation of splayed feet.

Footbeds by pedag provide anatomical support for the longitudinal and latitudinal arch.

This helps to relieve problems and prevents the arch from dropping any further.

Footbeds by pedag are especially thin and light and so will fit inside almost every shoe.

pedag helps to solve feet problems

pedag è orgogliosa di aver ottenuto dalla **American Podiatric Medical Association APMA** il Sigillo di Accettazione per le solette contrassegnate con questo simbolo.

pedag is proud to have earned the **American Podiatric medical Association APMA** Seal of Acceptance for the insoles marked with this symbol.

Esempio di etichetta sui prodotti
Example of product labelling

Un progetto nato dieci anni fa: introdurre materiali riciclati e sostenibili, migliorando contemporaneamente la qualità. Oggi siamo in grado di certificarlo! SVIG È CERTIFICATA REMADE IN ITALY
La certificazione REMADE IN ITALY è la certificazione ambientale sul contenuto di riciclato e di sottoprodotti in un materiale o prodotto.

*A project born ten years ago: introducing recycled and sustainable materials while improving quality. Today we are able to certify it!
SVIG is REMADE IN ITALY certified, an Italian official certification.
REMADE IN ITALY certification is the environmental certification on the recycled and subproduct content in a material or product.*
