The role of the District's Board is to govern the community's public schools by making the major decisions for the District as a whole. The Board collectively makes these decisions and individual Board members do not have the power to speak or act for the Board. The Board as a whole, by working with the Superintendent to make decisions that will best serve the District's students, will govern the community's schools. Accordingly, complaints or concerns made to Board members will be referred to the appropriate District point of contact for resolution.

Kindergarten Pre-Registration

Early enrollment for the next year's kindergarten class usually takes place in February. To be eligible for kindergarten, a child must be five years of age by August 1. An official state birth certificate is required at the time of enrollment as well as a complete record of immunizations.

Change of Information

When there is a change in the information listed on your child's enrollment form, please send this information to the school office. Report any change of address, place of employment, telephone number, doctor, or dentist. If the telephone number is unlisted we still need it for emergency situations.

Welcome Letter

Welcome to the 2025-2026 school year! The information and procedures outlined in this handbook are designed to ensure that our school runs smoothly and allows for every student to be successful. This information has been carefully prepared so that students and families have a clear understanding of our school and how we operate on a day to day basis. We encourage you to review this information and contact us with any questions or concerns.

Attendance and Absence Procedures S-115-S

Expectations for Attendance

Attendance is essential for learning. By law, all children must attend school from the age of 7 until the age of 17. Parents/guardians are accountable for the attendance of their child. The District will inform parents/guardians of their student's absence and support families when attendance becomes a concern. It is the responsibility of the student to make up work due to an absence. Students who wish to participate in school-sponsored activities must attend school at least 3.5 hours on the day in which the activity occurs,

unless the principal has pre-approved the absence based upon special circumstances. The administration makes the final determination regarding whether an absence is excused or unexcused.

Procedures for Reporting an Absence

Parents must report a student's absence by 9:00 a.m. on the day of the absence by calling 573-243-9513. The school will contact parents via an automated call at 10:00 a.m. who do not report a student's absence by the designated time. When a student is released early from school to a parent or guardian, it constitutes an absence. In general, prior notification is required when a student is dismissed early and the student must be checked out through the office.

Verified Absences

Verified absences is when the parent has provided an explanation as to why the student was absent from school. After the 7th absence, the absence will be considered unverified unless the parent provides medical documentation explaining the absence.

Excused Absences

Parents or students must provide proper notification and documentation to the school showing the absence was unavoidable for an absence to be excused. All absences other than sickness should be pre-arranged and approved by the principal and/or his/her designee.

The administration may request documentation to determine whether an absence is excused. Excused absences are allowed for:

- Illness of the student with a doctor's note
- Medical appointments that cannot be scheduled outside the school day
- Serious illness or death of a family member (obituary is required for death of a family member)
- Religious observances
- School-sponsored activities (e.g., field trips, athletics, competitions, etc.)
- Court appearances or other legal situations beyond the control of the family
- Emergency situations as approved by the principal
- Visits from a parent or guardian on active military duty who is on leave from, will be immediately deployed, or immediately returned with notification and approval of the principal
- Suspensions
- An absence which has been requested and approved in advance by the principal due to exceptional circumstances. In these situations, make-up work should be requested in advance of the absence and any tests, projects, or in-class assignments will be made up at the direction of the teacher.

Unexcused Absences

Absence for reasons other than the categories of excusable reasons, or that does not have the proper documentation for an excused absence as determined by the principal, will be considered unexcused. Excessive, unexcused absences will result in written

notice from the principal to the parents/guardians. The principal may request a parent/guardian conference to discuss attendance concerns and a collaborative plan may be developed to remove barriers to attendance. When attendance remains problematic, the school may contact the appropriate agencies and/or authorities for assistance.

If the absence is unexcused disciplinary actions may be taken.

Notification to Parents

A total of ten (10) absences or 70 hours per year will be allowed for each student for each student. **All absences excused or unexcused will count toward the ten (10) absences.** After seven (7) absences/49 hours medical verification will be required before further absences will be excused.

Attendance records will be kept by the hour and anytime a student is absent an hour of school that time is counted toward the student's attendance.

Attendance Procedures per school year (August-May):

Step 1: At three (3) days or 21 hours, an automated letter will be sent to the parent/guardian.

Step 2: At five (5) days or 35 hours, an automated letter/ phone call will be sent to the parent/guardian.

Step 3: At seven (7) days or 49 hours, a letter will be sent to the parent/guardian as well as a phone call to discuss the absences. Also, a referral may be made to the school-based social worker/student services specialist who will make contact with the parent/guardian. Any additional absences past the seven (7) days or 49 hours may result in graduated consequences. Doctor's excuses become mandatory for absences.

Step 4: At ten (10) days or 70 hours, discipline may be assigned for absences without medical documentation. Conference held with student & letter sent to parent/guardian. Any additional absences past the ten (10) days or 70 hours may result in graduated consequences.

Absences beyond ten (10) days or 70 hours, a referral may be made to the school-based social worker or appropriate authorities (including Juvenile Court, Division of Children Services, Prosecuting Attorney or law enforcement). Students absent beyond this point may also be in danger of repeating all classes.

Drop-Out

Students under the age of 18 may not drop out of school without parental consent. Students who drop out and then wish to re-enroll will receive unexcused absences for all of the days missed and will not be allowed to complete any make-up work.

Once enrolled, the student will be considered a district student until the District is directed to withdraw the student or until multiple unsuccessful attempts have been made to contact the parents/guardians or student to confirm continued enrollment after several absences.

Late Arrival/Tardiness

A late arrival or tardy occurs when a student arrives after the expected class period has begun, as determined by the District. The District will count tardiness as an absence. Students arriving late to school may meet with a school administrator prior to attending class.

Truancy

Truancy is when the student is absent from school without permission of the parents/guardians or school official. Truancy includes, but is not limited to, skipped classes, falsely informing the school about the reason(s) for the absence, or absences that have not been pre-arranged and pre-approved as excused. The District may assign disciplinary measures for truancy. Families are entitled to appeal assigned consequences to the Superintendent or designee.

Leaving School Grounds

Students are not allowed to leave campus without permission from school administration. This approval will first come from the parent or guardian through a note, a parent visit, or a phone call to the office. This verification must be made to the office before the student leaves campus. After office approval, students must sign-out in the office. If a student is signing out due to sickness, they need to do so through the school nurse to be excused.

Make-Up Work

All make-up work for absences should be completed within the number of days equal to the number of days absent. (i.e. three (3) days' absence should allow three (3) days for the student to make-up the work). If it is an extended absence, the administration will work with the student to get the work turned in a timely manner.

Dress Code S-180-S

The purpose of a dress code is to contribute to a safe, healthy environment that protects students and maintains a focus on learning. The dress code included in this handbook provides guidance to students and parents as to what constitutes appropriate attire for school and school activities. District administrators have the discretion to determine whether a garment or manner of dress not specifically described below is appropriate attire for school and school activities and/or causes a disruption to the educational environment. Administrators have the authority to take action to address dress code matters as they arise. The following District guidelines should be observed:

Dress Code Expectations and Prohibitions

Shirts and shoes must be worn. Clothing should be properly fitted (not overly restrictive or loose). Coverage of the body is expected. Therefore, the following garments are not permitted:

1. See-through garments;
2. Tops that are backless, strapless, low-cut, bare-midriff, have overly-large arm openings; or spaghetti straps;

3. Clothing that does not cover undergarments when a student is sitting or standing;
4. Undergarments worn as outer wear;
5. Clothing with profane, obscene, or otherwise inappropriate language;
6. Clothing with words, symbols or images that promote illegal, sexual, or violent behavior;
7. Clothing with advertisements or promotion of alcohol, tobacco, or drugs;
8. Language or symbols that promote gangs;
9. Hats and hoods (hooded sweatshirts worn up);
10. Do-rags;
11. Handkerchiefs;
12. Bonnets and Shower Caps;
13. Sunglasses;
14. Face paint;
15. Overly-dramatic make-up;
16. Cosplay accessories;
17. Other wear that restricts the line of sight of a student's face and/or facial recognition may not be worn (although exceptions will be made by the principal for head coverings that have religious significance, are worn for medical reasons, or are for a specific, school-sponsored event);
18. Blankets carried or worn as coats or wraps while in the building;
19. Heavy or loose chains, or straps that create a safety risk.

Additional Dress Code Information

Courses and/or class activities that require observance of specific safety requirements may require adjustments of a student's clothing, accessories, or hair style for the duration of the class (e.g., hair pulled back and/or hair nets for culinary classes or other safety wear, etc.). Other dress code requirements may be articulated for students participating in certain extracurricular activities.

Violations of the District dress code will be addressed with remedial actions and/or consequences.

Allergy Prevention and Response S-145-S

The District is required to ensure students with allergies are safe at school through planned prevention and response to a student's allergic reaction. For purposes of District policy and related procedures, an allergic reaction occurs when the immune system overreacts to a typically harmless substance and may be mild to life-threatening. Allergy prevention and response protocols apply to all school locations, including nonacademic, school-sponsored activities and transportation provided by the District. The Board authorizes the Superintendent or designee to develop and implement procedures to protect the health and well-being of students with significant allergies.

Building-Wide and Classroom Approaches

Any food brought in for class parties must be pre-packaged snacks.

Parents/guardians should provide, at the time of enrollment, information on any allergies the student may have. The school nurse may request written permission from the parents/guardians to communicate with a student's health care provider as needed. Staff members are trained annually on risk reduction strategies, symptom recognition, and response procedures. The school nurse has an emergency kit available and accessible in all school buildings containing prefilled auto syringes of epinephrine, Narcan, and asthma-related medications as allowed by District rules. If you do not want these medications administered to your student in an emergency, please notify the school nurse or principal in writing.

The District will provide age-appropriate education for students, consistent with state learning standards, including potential causes of allergic reactions, information on avoiding allergens, symptoms of allergic reactions, and simple steps a student can take to keep classmates safe.

All processed foods, including food sold in vending machines, are labeled with a complete list of ingredients on each individual package. Ingredient lists will be created for all food provided through the District's nutrition program, including

before- and after-school programs, which are available upon request. This also applies to items sold as part of concessions, fundraisers, and classroom activities.

Individual Approaches

The District will evaluate and determine whether a student's allergies rise to the level of a disability that requires accommodations through the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504). For those students who have allergies that do not rise to the level of disability, a designated team may develop an Individual Health Plan (IHP) and/or Emergency Action Plan (EAP). Staff who have a need to know about a student's allergies and plan will be informed and trained, and all staff members will follow any IEP, 504 Plan, IHP, and/or EAP.

A student's health information and individualized plan will be kept confidential and not shared with those who do not have a need to know unless authorized by the parent/guardian or as allowed by the Family Educational Rights and Privacy Act (FERPA). The District will communicate and collaborate at least annually with parents/guardians regarding the student's allergies, medications, restrictions/precautions, emergency contacts and any other relevant information to keep the student safe.

Health Services S-215-S

Health services are provided under the direction of a school nurse. The school nurse for your student's building may provide services in other buildings as well. Although the nurse may be not physically present at all times in a specific building, the nurse is always on call and there are trained employees in the building to provide first aid, dispense medication, and support the needs presented in the health office.

Illnesses/Injuries

Students who are feeling ill at school should first come to the Nurse's Office. If they are not found to have an illness which requires being sent home, they always have the option to request that their parents be notified. We are happy to call to inform parents of the student's visit and allow the parent and student to talk in order to make a decision about whether the student will return to class. If the absence is unexcused by a Nurse, a Principal may be in touch with the parent. Students who contact parents before coming to the nurse often end up with parents spending extra time waiting at our building for their student to be released.

In case of illness or injury during school, students must obtain a pass from their teacher to admit them to the nurse's office. To decrease the spread of potential communicable diseases, students exhibiting symptoms of impending illness may be sent home at the discretion of the school nurse. Factors considered before sending students home include a temperature of 100.1 degrees or higher, vomiting, or other symptoms that affect their ability to be productive at school. **Students should not return to school until they**

are symptom free (fever, vomiting, diarrhea, or unusual or unexplained rash) for 24 hours without medication.

In cases of serious injury or illness, the school nurse will be notified immediately. The Emergency Medical Service (911) may also be called. The nurse, designated school personnel, and/or emergency medical personnel will care for the student and the parents will be contacted as soon as possible. **PARENTS ARE RESPONSIBLE FOR NOTIFYING THE SCHOOL OF A PLACE WHERE THEY CAN BE LOCATED IN THE EVENT OF AN EMERGENCY.**

Health Screenings

The Jackson R-2 School District will conduct screening exams in the areas of speech/language, hearing, vision, dental, and scoliosis for the following grades:

- Hearing – 1st, 3rd, & 5th
- Vision – Kindergarten, 1st, 3rd, & 6th
- Scoliosis – 6th & 8th for girls and 9th for boys
- Speech/Language – Kindergarten, 1st, 2nd
- Dental – PreK, K, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th & 10th

If a concern is detected in any area screened, the student's parent/guardian will be notified.

Head Lice Protocol

Head lice infestations are a common problem for children in childcare settings and schools. Anyone can get head lice. There are two other kinds of lice that infest people, but they do not live on the head. Parents should check their child(ren) for head lice regularly. If they find lice or eggs, use the information provided below.

CAUSE

Pediculus humanus capitis, a louse.

Head lice are very small (less than 1/8" long, about this size [--]), brownish-colored insects that live on human heads and lay their eggs (nits) close to the scalp. The eggs are tiny (about the size of the eye of a small needle) and gray or white in color. Adult lice move fast and do not like light.

SYMPTOMS

Itching of the head and neck. Look for: 1) crawling lice in the hair, usually few in number; 2) eggs (nits) glued to the hair, often found behind the ears and at the back of the neck; and 3) scratch marks on the head or back of the neck at the hairline.

SPREAD

Lice are spread by head-to-head contact and by sharing personal items such as combs (especially on picture day), sports head gear, brushes, barrettes, hats, scarves, jackets,

blankets, sheets, pillowcases, stuffed animals, play activity clothes, and hats. Head lice may be spread during sleepovers.

Lice do not jump or fly; they crawl and can fall off the head. Head lice do not live longer than 48 hours off the head. They only lay their eggs while on the head. Nits which are more than 1/2" from the scalp are dead or empty and will not hatch. The eggs do not hatch if they fall off the head. Lice does not spread to or from pets.

INCUBATION

It takes 7 to 10 days from when the eggs are laid until they hatch.

CONTAGIOUS PERIOD

Until treated with a lice treatment product.

PROCEDURES

- If head lice are discovered on a student, the student will be sent to the school nurse and the parents or emergency contact will be called. The child does not need to be sent home immediately if the lice are detected; however they should not return to school until effective treatment is given.
- When head lice/nits are discovered on a student, all Jackson R-2 school-age siblings of the affected student will also be checked for head lice.
- If there are more than two children showing signs/symptoms of head lice in a classroom, the school nurse will determine the need for and efficacy of screening the entire classroom. Screening at will is not recommended by the Department of Health as it is time-consuming and ineffective in the discovery and elimination of head lice. The nurse may, however, send a letter to notify the other children's parents that head lice has been found in their child's classroom, so they may watch for signs of infestation as well.
- The school nurse will be available to screen for head lice, as well as give the parent information concerning the procedure to eliminate head lice.
- After treatment is complete and prior to returning to the classroom, the student must come to the nurse's office for an examination by the school nurse.
- If there is no evidence of head lice, the student will be permitted to return to the classroom. If nits remain, it is up to the discretion of the school nurse whether the student will be permitted to return to school.
- After being readmitted to school, the student will randomly be examined by the school nurse to check for re-infestation.

TREATMENT

- Call a healthcare provider or pharmacist for advice. Recommended treatment includes using either an over-the-counter (OTC) or prescription medicated (lice

killing) product. Use products that contain permethrin or a pyrethrin-based shampoo. Refer to the Centers for Disease Control and Prevention for the most current head lice treatment guidelines.

- Follow the product directions carefully (especially the amount of product to use, length of time on the hair, and whether to use on dry or damp hair). Directions will vary, depending on the product used.
- With certain products a second treatment is recommended 7 to 10 days later to kill any lice that may have hatched after the first treatment.
- It may take 24 hours for products to kill lice.
- Lice treatment products are not 100% effective in killing lice, especially nits. Removing the nits (nitpicking) is an essential part of the treatment for controlling the spread of head lice. The nits are glued onto the hair shaft as they are laid and require effort to remove. To remove the nits, use a metal nit comb, cat flea comb, or your fingernails to slide eggs off the hair shafts. Continue checking the head and combing hair daily for 2 weeks. If all nits within ½" of the scalp are not removed, some may hatch and the child will be infested again. Remember: it takes at least 2 weeks to get rid of lice.
- Check all household members for head lice. Treat only household members with head lice, and treat all at the same time.
- Many alternatives to OTC or prescription head lice control products have been suggested. CDC does not have clear scientific evidence to determine if suffocation of head lice with mayonnaise, olive oil, margarine, butter, or similar substances is an effective form of treatment.

PREVENTION/CONTROL

- DO NOT share combs, brushes, other hair grooming items and other hair accessories (barrettes, etc.), towels, bedding, clothing, hats, and headgear, such as personal headphones and sports helmets.
- Hang coats, jackets, and caps in individual lockers or on assigned coat hooks. If this is not possible, put the clothing in separate plastic bags. Bedding, when not in use for naptime, can be stored in individual plastic bags or storage boxes.
- Parents should check their child's head frequently throughout the year. If one person in a household, childcare, school, etc., has head lice, others should be checked too. Sleepovers are a common setting in which head lice are spread. When a child returns from a sleepover, check the child's head and launder any bedding that they brought home.
- Clean all combs, brushes, other hair grooming items and accessories (barrettes, etc.) by doing one of the following: - soaking in the lice treatment product for 10 minutes. - cleaning with hot soapy water. - boiling for 5 minutes.
- Vacuum carpets, upholstered furniture, mattresses, and seats in the car(s) thoroughly. Insecticide sprays are NOT recommended because this will expose household members to unnecessary pesticides and most viable lice are found on the head, not in the environment.
- Wash clothing worn in the last 3 days (e.g., jackets, hats, scarves, pajamas), bedding, and towels in hot (130 °F or higher) water and dry in a hot dryer for at

least 20 minutes before using again. Clothing or backpacks that cannot be washed or dried, linens, and stuffed toys can be dry cleaned or sealed in plastic bags for 2 weeks.

HOW TO REMOVE NITS

- Work in a well lit room or under a bright lamp (using a magnifying glass may help you see the nits).
- Divide the hair into 4 parts and divide each part into 1-inch sections.
- Starting at the scalp, use a metal nit comb, cat flea comb, or your fingernails to comb each hair section individually.
- Use the comb or your fingernail to slide eggs off the hair shaft or use scissors to cut hair shafts that have nits glued to them.
- Remove all nits each time you comb the hair.
- REMEMBER: it can take at least 2 weeks to get rid of lice.

Health Office

If you have any questions, please contact your school nurse.

Administration of Medication S-135-S

All medication is kept in the health office and no medication will be dispensed without written parental permission, including over-the-counter medication. Many medications can be given at home before or after school. When this is not possible, medication should be brought directly to the health office and must be accompanied by the following information. The first dose of a new medication will not be administered at school. Medication should be delivered to the school by a parent/guardian or other designated adult or by specific arrangement that has been made between parent/guardian and school nurse. A one-month supply of a student's medication can be stored at school.

Non-Prescription Medication – A written note from the parent/guardian with the student's name, reason for the medication, the time the medication is to be given, the dosage prescribed, and the number of days the medication is to be administered at school. These medications include, but are not limited to, allergy medication, decongestants, cough syrup, ibuprofen (Advil), acetaminophen (Tylenol), cough drops, or others.

Prescription Medication – Prescription medication must be sent to school in the original prescription container. The prescription label will serve as the written permission from the physician. If the doctor has given samples of medication, then a written note from the physician is necessary and should include the name of the student, the medication, and the dosage prescribed. The nurse may need to clarify prescription orders with the provider.

When a student has a health condition which needs accommodation or may necessitate emergency care, it is important that the school nurse be informed. Examples of a health condition that would need to be shared with the school nurse include severe allergies, asthma, diabetes, hearing loss, seizure disorder, etc. This would include situations when a physician recommends a student assume responsibility for self-medication. The nurse may request a release of information from the student's health care provider and the information may be shared with necessary District staff members on a need-to-know basis. Please contact the school nurse.

Communicable Diseases F-245-S

Parents/guardians must notify the District if their student has a communicable disease. Parents/guardians will be required to provide written approval from the student's

treating physician in order for their student to attend school. The District reserves the right to prevent student attendance until clarification or implementation of precautionary measures are in place. Parents/guardians are required to notify the District if they are enrolling or have a student attending school who is HIV positive.

Medical information of students is highly confidential, and the District will take necessary steps to protect the medical information of students and ensure that such information is released only to those with a need-to-know and/or individuals and entities who are required by law to be notified of certain health and medical information.

Students with a communicable disease who exhibit behaviors that increase the chances of their condition being spread to other individuals, may be subject to discipline and/or remedial action in accordance with the discipline code, and state and federal law.

Immunizations and Vaccinations

It is unlawful for any student to attend school unless the student has been immunized according to Missouri School Immunization Law or unless a signed statement of medical or religious exemption is on file at the school, which is described in all enrollment information. Parents/guardians should bring immunization records at the time of enrollment and obtain additional immunizations as required by state law.

Dear Parent/Employee:

On October 22, 1986, President Reagan signed into law the Asbestos Hazard Emergency Response Act (AHERA, Public Law 99-519). The law required EPA to develop regulations, which provide a comprehensive framework for addressing asbestos problems in public and private elementary and secondary schools. On October 30, 1987, EPA published the Asbestos-Containing Materials in Schools Rule (40 CFR Part 763 Subpart E). This New Rule requires all public and private elementary and secondary schools to inspect for friable and non-friable asbestos, develop asbestos management plans that address asbestos hazards in school buildings, and implement response actions in a timely fashion. This rule became effective December 14, 1987.

Jackson R-2 has conducted a complete inspection of its facilities for asbestos containing building materials on August 11, 1988, utilizing the services of Larron Laboratory. Trutest Environmental Solutions, LLC conducted a re-inspection October 2023. The results of this inspection have been included in a management plan. This management plan is available in the administrative offices of the LEA (and in the offices of each school) during normal business hours, without cost or restriction, for inspection by representatives of the EPA and the State, the public, including teachers, other school personnel and their representatives, and parents. The LEA may charge a reasonable cost to make copies of management plans.

You, as a parent or employee, are encouraged to examine the management plan that affects your child(ren) or you. The contents of the management plan and the recommendations made in it were presented and discussed at the September 27, 1988 Board of Education meeting at 8:00 P.M. If you were unable to attend this meeting please contact the administration office at 573-243-9501 to obtain transcripts and/or recordings of the presentation.

The purpose of the Federal and State regulations is to protect the health and well being of all persons entering the buildings of this LEA for any reason. This LEA takes very seriously the recommendations made in the management plan, which has been sent to the Missouri Department of Health for approval. The person in this LEA trained to oversee asbestos activities and ensure compliance is Dr. Keenan Kinder. As required in the rule, Dr. Kinder is the single contact for the public to obtain information about asbestos related activities in the LEA. You may reach Dr. Kinder at 573-243-9531. Thank you for your cooperation and understanding.

Sincerely,

Dr. Keenan Kinder, Superintendent of Schools

Student Insurance S-140-S

The District recommends student accident insurance for the protection of a student and parents/guardians. It is the responsibility of the parents/guardians to arrange insurance coverage as the District does not assume financial responsibility for student injuries.

Students participating in interscholastic athletics are required to have insurance coverage. This may be in the form of either family coverage or the coverage offered through the District. Missouri State High School Activities Association (MSHSAA), requires that a student be covered through insurance before being allowed to practice or

compete for a school team. The student will not be allowed to participate in interscholastic practices or competitions until proof of insurance is provided.

The District also provides information about MO HealthNet for Kids (MHK), Missouri's Medicaid program, to qualifying families who enroll students in the District. Parents who complete an application for free and reduced-priced meals (FRL), and who indicate on the application form a child does not have insurance, will be notified by the District that the MHK program is available. Forms for MHK may be accessed at:

Student Records S-125-S

Access to and Release of Student Information

All parents/guardians may inspect and review their student's education records, seek amendments, consent to disclosures except to the extent the law authorizes disclosure without consent, and file complaints regarding the records as allowed by law. Requests to inspect or review education records may be directed to the District's Custodian of Records. Requests to amend education records may be directed to the District's Custodian of Records to obtain the proper form. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

The parents'/guardians' rights relating to the education records transfer to the student once the student becomes an eligible student; however, parents/guardians maintain some rights to inspect student records even after a student turns 18. The District allows access to records to either parent, regardless of divorce, custody or visitation rights, unless the District is provided with legal documents that the parent's rights to inspect records have been modified.

Directory Information

Directory information is information about a student that generally is not considered harmful or an invasion of privacy if disclosed without the consent of a parent or eligible student. The District will designate the types of information included in directory information and may release this information without obtaining consent from a parent or eligible student unless a parent or eligible student notifies the District in writing. Parents and eligible students will be notified annually of the information the District has designated as directory information and the process for notifying the District if they do not want the information released. Even if parents or eligible students notify the District in writing that they do not want directory information disclosed, the District may still disclose the information if required or allowed by law. For example, the District may require students to disclose their names, District email addresses in classes in which they are enrolled, or students may be required to wear or display a student identification card that exhibits information designated as directory information. If you do not want

the District to disclose any or all of the types of information designated below as directory information from your child's education records without your prior written consent (with exception of disclosures required by law), you must notify the District in writing by the first day of school or within 10 days of enrollment of each school year.

The District designates the following items as directory information:

General Directory Information: The following personally identifiable information about a student may be disclosed by the District without first obtaining written consent from a parent or eligible student: Student's name; date and place of birth; parents' names; grade level; enrollment status (e.g., full-time or part-time); participation in District-sponsored or District-recognized activities and sports; weight and height of members of athletic teams; athletic performance data; dates of attendance; degrees, honors and awards received; artwork or course work displayed by the District; schools or school Districts previously attended; and photographs, videotapes, digital images and recorded sound unless such records would be considered harmful or an invasion of privacy.

Limited Directory Information: In addition to general directory information, a student's address, telephone number and email address; and the parents' addresses, telephone numbers and email addresses may be disclosed to: school officials with a legitimate educational interest; parent groups or booster clubs that are recognized by the Board and are created solely to work with the District, its staff, students and parents and to raise funds for District activities; parents of other students enrolled in the same school as the student whose information is released; students enrolled in the same school as the student whose information is released; governmental entities including, but not limited to, law enforcement, the juvenile office and the Children's Division (CD) of the Department of Social Services.

School Officials with a Legitimate Educational Interest

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests.

A school official includes a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a Board Member. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks.

A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Release of Records to Other Agencies or Institutions

The District forwards education records to officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements under the law.

Military and Higher Education Access

The District will disclose the names, addresses and telephone numbers of secondary school students to military recruiters or institutions of higher education as required by law. However, if a parent or a secondary school student who is at least 18 submits a written request, the District will not release the information without first obtaining written consent from the parent of the student/eligible student.

Release

Parents or guardians may designate additional adult(s) to have access to their student's records by requesting a Family Educational Rights and Privacy Act (FERPA) release form.

Notice

Parents/Guardians and/or eligible students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education

Personnel Records E-190-S

The District is required to inform you that, according to the Every Student Succeeds Act of 2015 (Public Law 114-95), upon your request, the District is required to provide you in a timely manner, the following information:

- Whether your student's teacher is teaching under emergency or other provisional statute through which State qualification or licensing criteria have been waived.
- Whether your student's teacher is teaching in the field of discipline of the certification of the teacher.
- Whether your student is provided services by paraprofessionals and if so, their qualifications.

In addition to the information that parents may request, a building receiving Title I.A funds must provide to each individual parent:

- Timely notice that your student has been assigned, or have taught for 4 or more consecutive weeks by, a teacher who has not met applicable State certification or licensure requirements at the grade level and subject area in which the teacher has been assigned.

Parent and Family Involvement and Engagement (Title I, Part A) I-135-S

The District encourages effective involvement by parents, guardians, and families to support the education of their children. In consultation with the State Board, educators, local associations, parent organizations and individual parents/guardians whose children are enrolled in the District, the District will:

1. Promote regular, two-way communication between home and school.
2. Promote and support responsible parenting.
3. Recognize that parents and families play an integral role in assisting their children to learn.
4. Promote a safe and open atmosphere for parents and families to visit the school that their student(s) attend and actively solicit parental/family support and assistance for school programs.
5. Include parents as full partners in decisions affecting their children and families.
6. Avail community resources to strengthen school programs, family practices, and the achievement of students.

The District is committed to the provision of a free and appropriate education for all students enrolled in the District. Therefore, the District complies with all provisions, regulations, and administrative rules applicable to state and/or federal requirements in order to serve students who are homeless, migrants, English learners, at-risk, or in foster care.

Free language interpreting and translation is available for parents/guardians and students who require it. If you require an interpreter, please inform your student's teacher or school, and the District will arrange for an interpreter to assist at no cost to you. If we do not have an interpreter for your language, we will work to find someone who can help.

Information on District programs such as Gifted Education, AP classes, Special Education, extracurricular activities, and others can be found on the District website. The website features the ability to translate information into 10 languages.

Visitor Procedures C-155-S

For student purposes, all visitors MUST use the main entrance, report to the office, and sign in and out upon arrival and departure. No one will be allowed to enter the hallways or classrooms without permission from the office and without a visitor's pass. If you need to pick up your child before the end of the school day, come to the office and your child will be called to the office.

Since classroom observations and visits can be disruptive, the District does not permit parents/guardians or other family members to visit classrooms during instructional time for the purpose of observing students unless the principal has approved the visit in advance.

Child Custody

In most cases, when parents are divorced, both the mother and the father continue to have equal rights where their children are concerned. If there is a court order that limits or terminates the rights of one of the parents, the office must have a copy of this court order. If no such court order is provided to the office, both parents will continue to have equal rights to pick up children at school and all other contact situations.

Student Discipline S-170-S

Student Code of Conduct

The District believes students deserve the right to participate and learn in a safe environment which allows teachers to focus on instruction that accelerates achievement. To ensure that school is a quality atmosphere for all students at all times, the code of conduct and discipline policies outline consequences for misconduct that occurs at school, during a school activity whether on- or off-campus, on District transportation, or misconduct that involves the use of District technology. All District personnel are responsible to supervise and hold students accountable for violations of discipline rules.

Failure to obey standards of conduct may result in, yet is not limited to, verbal warning, community service, confiscation of property, principal/student conference, parent contact, loss of credit, grade reduction, course failure, removal from extracurricular activities, revocation of privileges including transportation, parking and technology privileges, detention, in- or out-of-school suspension, expulsion, and report to law enforcement. For offenses involving academic integrity, the student may also be subject to a loss of credit for work, a grade reduction, and/or course failure. The Board authorizes the immediate removal of a student who poses a threat to self or others as determined by the principal, Superintendent, or the Board.

Any student who is suspended for any serious violation of the District's Student Discipline policy shall not be allowed while suspended to be within 1,000 feet of any school property or any activity of the District, regardless of where the activity takes place, unless:

1. Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the Superintendent or the Superintendent's designee has authorized the student to be on school property;
2. Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the Superintendent or the Superintendent's designee has authorized the student to be on school property;
3. Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the District where such student attended school; or
4. Such student resides within one thousand feet of any public school in the District where such student attended school in which case such student

may be on the property of his or her residence without direct adult supervision.

If a student engages in an act of violence, a school administrator will report the information to teachers and other District employees who are responsible for the student's education or otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. Additionally, school administrators will report to the appropriate law enforcement agencies any crimes as required by law.

Corporal punishment is strictly prohibited as a method of discipline. Reasonable force may be used, when necessary, for the protection of a student or others and property. The District limits the use of seclusion or restraint to situations or conditions in which there is imminent danger of physical harm to self or others.

Students with disabilities will be disciplined in compliance with state and federal laws per the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Plan, and any regulations and state and local compliance plans, which includes due process rights as afforded to all students. Additionally, a student's Individual Education Plan (IEP), including any portion that is related to past or potentially future violent behavior, will be provided to appropriate staff members with a need to know.

Information regarding a student's misconduct and discipline is confidential and only shared with those who have a need to know. Teachers and other authorized District personnel shall not be civilly liable when acting in conformity with District policies, including the discipline policy, or when reporting acts of school violence to a supervisor or other person as mandated by law.

The District discipline policy and procedures will be provided to every student at the beginning of each year, be published on the District website, and made available in the office of the Superintendent during normal business hours.

This code applies to all misbehavior committed by a student on District property, at any school-sponsored activity or event whether on- or off-campus, and District transportation. Additionally, the District may use its authority to address behavior that occurs off-campus if it interferes with the operation of the school or endangers the safety of students or staff.

Standards of Conduct and Consequences

No document can identify every possible offense that could potentially result in disciplinary action. This code identifies most offenses constituting a failure to obey the standards of conduct set by the Board. However, when circumstances warrant, the principal, Superintendent, and/or Board may impose consequences for misconduct not specifically outlined in this document.

School-Wide Positive Behavior Intervention Support: What is SW-PBIS?

SW-PBIS stands for school-wide positive behavior intervention support. It is a broad range of systemic and individualized strategies for achieving important social and learning outcomes while preventing problem behavior. Simply put, it's a general approach to preventing problem behavior and at the same time rewarding positive behavior through school-wide incentives.

While acronyms may vary from building to building, Jackson R-2 Elementary Schools will teach a basic code of conduct, which includes being a respectful learner, a responsible learner and a safe learner. This pledge will be reflected in each matrix and will be displayed in every classroom. The matrix will list and define the expected behaviors in several settings throughout each building and campus including, but not limited to, the cafeteria, on the playground and in the classroom. Every student will be introduced to the matrix at the beginning of the school year with each expectation taught in the classroom and reinforced throughout the year.

To promote and encourage positive behaviors there will be several incentives in place that are awarded to students. Each elementary building will design their own awards and work to assure that all students are aware.

Students are encouraged to treat each other with respect, act responsibly and think about the safety of themselves and others in all situations. As a school community, we are able to achieve these things through SW-PBIS.

If you have any questions concerning your child's behavior, please contact the teacher. Should you need further clarification, contact the principal.

Tips for Resolving Conflicts and Issues

Someone is picking on you:

Being picked on can be a very frustrating experience. If this happens, tell them to stop. If it continues, inform a teacher, the counselor, or the principal/assistant principal. Let them try to help you find a solution.

Someone is trying to start a fight with you:

Consider the source of information. What have you heard with your own ears from the person with which you are having the conflict? Many fights can be avoided by letting the counselor, teacher, or principal/assistant principal assist you in arranging a peaceful

conference between you and the other student. Fighting is not the solution to the problem.

Someone offers you or tries to sell you drugs or alcohol:

Do not touch or handle drugs! Students caught with real or fake illegal substances or paraphernalia will result in some form of school discipline. This can include being suspended out of school and being reported to the police for legal action. Students caught selling, giving away, or buying drugs or alcohol at school are at risk of being expelled from the school district. If someone tries to give you an illegal substance, turn and walk away. Report this to the principal/assistant principal, teacher, or parent. If your friends are dealing in drugs, get a new set of friends.

You see a weapon at school:

Someone may get hurt or killed if you do not report it. It is important that you assist in maintaining a safe school. **Report it to an adult immediately!**

Your belongings are missing:

Before you accuse others of taking your things, try to be certain that you have not accidentally misplaced them. Once you have ruled out this possibility, find a teacher or another adult and report the missing items. In either case, it is best not to bring valuable items to school.

Someone has hurt your feelings:

People can be cruel and some people make a habit of it. There is no sense in carrying a heavy burden with you. The counselor, teachers, and principals want you to feel comfortable at the school. Our doors are always open to students who need help.

Bullying, Hazing, and Cyberbullying S-185-S

The District strictly prohibits bullying, including hazing, and cyberbullying on school grounds, at any school function, or on District transportation.

Definitions

Bullying – Intimidation, unwanted aggressive behavior or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting such acts.

Cyberbullying – Bullying as defined above through the transmission of a communication including, but not limited to a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District has jurisdiction to prohibit cyberbullying that originates on a school campus, or at a District activity if the communication was made using District technological

resources, if there is sufficient nexus to the educational environment, or if the electronic communication was made on the school's campus or at a District activity using the student's own person technological resource.

Anti-bullying Coordinator – The Superintendent will ensure an individual at each school is designated to serve as the anti-bullying coordinator. All anti-bullying coordinators will be teacher-level or above and a list of coordinators will be kept on file at the District administration office and updated annually. Additionally, a District anti-bullying coordinator will be designated. The building anti-bullying coordinator is the building administrator or designee and can be reached at the building office.

School Day – A day on the District calendar when students are required to attend school.

Reporting Bullying or Cyberbullying

District employees are required to report any instance of bullying of which the employee has firsthand knowledge. Any employee, substitute, or volunteer who witnesses an incident of bullying must report the incident to the building anti-bullying coordinator within two (2) school days of witnessing the incident. If the anti-bullying coordinator is unavailable or is the subject of the report, the employee should contact the District's Compliance Officer. In addition, all District employees, substitutes, or volunteers must direct all persons seeking to report an incident of bullying to the building anti-bullying coordinator.

Any individual making a verbal report of bullying will be asked to submit a written complaint to the anti-bullying coordinator. If the person refuses or is unable to submit a written complaint, the anti-bullying coordinator will summarize the verbal complaint in writing.

When an anti-bullying coordinator is informed about a possible bullying or cyberbullying incident, verbal, written, or otherwise, the District will conduct a prompt, impartial, and thorough investigation to determine whether misconduct, including unlawful conduct, occurred. The District will implement interim measures as necessary. When it is determined that bullying or cyberbullying occurred, the District will take appropriate action for violations of District expectations and rules.

Investigation

Within two (2) school days of receipt of a report of bullying or cyberbullying, the anti-bullying coordinator or designee will initiate an investigation of the incident. The school principal may appoint other school staff to assist with the investigation. The investigation will be completed within ten (10) school days from the date of the written report unless good cause exists to extend the investigation. A copy of the written report of the investigation and results will be sent to the District anti-bullying coordinator and

included in the files of the victim and the alleged or actual perpetrator of bullying or cyberbullying. All reports are confidential in accordance with law and District rules.

Retaliation

The District prohibits reprisal or retaliation against any person who reports an act of bullying or cyberbullying, testifies, or participates in any manner with an investigation proceeding, or hearing. The District will take appropriate remedial action for any student, teacher, administrator, or other school personnel who retaliates.

Consequences of Bullying, Cyberbullying, or Retaliation

When the District receives a report of bullying, cyberbullying, or retaliation, interim measures to protect the victim(s) will be taken. If an investigation determines that bullying, cyberbullying, or retaliation occurred, the District will act to end the bullying, cyberbullying or retaliation.

Students who are determined to have participated in bullying, cyberbullying, or retaliation will be disciplined in accordance with the District discipline policy. Consequences may include, but are not limited to, loss of privileges, detention, in- or out-of-school suspension, expulsion, and referral to law enforcement. Any determination of consequences will consider factors such as the age of the student(s), developmental level of the student(s), degree of harm, severity of behavior, disciplinary history, and other educationally relevant factors.

District employees and substitutes who violate this policy will be disciplined, up to and including termination. Volunteers, visitors, patrons, or others who violate this policy may be prohibited from District property or activities, or other remedial action.

Public Notice

The District will:

1. Provide information and appropriate training to District staff who have significant contact with students regarding the policy.
2. Provide education and information to students regarding bullying, including information regarding the District policy prohibiting bullying, the harmful effects of bullying, and applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, cyberbullying, and/or retaliation against any person who reports an act of bullying.
3. Instruct school counselors, school and licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for overcoming bullying's negative effects. Techniques will include, but are not limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself/herself assertively and effectively; helping the student develop

- social skills; and/or encouraging the student to develop an internal locus of control.
4. Implement programs and other initiatives to address and respond to bullying in a manner that does not stigmatize the victim and makes resources or referrals available to victims of bullying.

Complaints alleging unlawful discrimination, harassment, or retaliation in violation of District policy will be referred for investigation to the District Compliance Officer.

Report Form

This form is posted on the District's website.

Complaints or Concerns C-120-S

Effective communication helps avoid and resolve many complaints, concerns, misunderstandings and disagreements. Individuals who have a complaint or concern should discuss their concerns with the school personnel involved in the issue at hand in an effort to resolve problems. This step will usually involve communicating directly with the person or persons with whom the complainant has a concern. This step may be skipped when the complainant in good faith believes that speaking directly to the person would subject the complainant to discrimination, harassment or retaliation.

This step may also be skipped if the complainant in good faith believes that any law or a District policy or written rule has been violated. The District has adopted specific procedures for investigation and resolution for complaints or concerns as required by specific and varying laws that are applicable to the District. The District's Compliance Officer should be contacted with any complaints or concerns that any law or District written rule has been violated, including but not limited to, laws relating to: civil rights, including discrimination, harassment, and retaliation; special education matters including the IEP and 504 processes and services; federal programs and related services; bullying; and The Family Educational Rights and Privacy Act, including student records and confidentiality.

When communicating directly with the school personnel involved in the issue does not resolve matters satisfactorily, or if it is appropriate to skip the first step as described above, a complainant should consult with the District's Compliance Officer who will direct the complainant to the appropriate process for resolution of the complaint. The District designates the following individual to act as the District's Compliance Officer:

Name: Associate Superintendent of Elementary and Student Services
Phone #: 573-243-9501
Email Address: jmaxwell@jr2mail.org

In the event the District's Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Name: Associate Superintendent of Secondary and Human Resources
Phone #: 573-243-9501
Email Address: jpope@jr2mail.org

All complaints of violation of any law or a District policy or written rule will be promptly investigated by the District, and appropriate action will be taken. Complainants are strongly encouraged to provide their concerns in writing.

Section 504 I-125-S

The District is required to undertake measures to identify and locate every qualified disabled person residing in the District who is not receiving a public education; and take appropriate steps to notify disabled persons and their parent or guardians of the District's duty.

The District will provide free appropriate public education (FAPE) to each qualified disabled person in the District's jurisdiction regardless of the nature or severity of the person's disability. For purposes of Section 504 of the Rehabilitation Act of 1973, the provision of an appropriate education is the provision of regular or special and related aids and services that are designed to meet individual educational needs of disabled persons as adequately as the needs of nondisabled persons are met and are based on adherence to procedures that satisfy the requirements of the Section 504 federal regulations.

The District has developed a 504 Procedures Manual for the implementation of federal regulations for Section 504 of the Rehabilitation Act, Subpart D. This Procedures Manual may be reviewed Monday – Friday, 8:00 am – 4:30 pm in the office of Meredith Adkisson, 573-243-9531, madkisson@jr2mail.org. Alternative times are available by request.

This notice will be provided in native languages as appropriate.

Special Education I-125-S

The District is required to locate, evaluate, and identify children with disabilities who are under the jurisdiction of the District, regardless of the severity of the disability, including children attending private schools, children who live outside the District but are attending a private school within the District, highly mobile children, such as migrant and homeless children, children who are wards of the state, and children who are suspected of having a disability and in need of special education even though they are advancing from grade to grade. The District assures that it will provide a free, appropriate public education (FAPE) to all eligible children with disabilities between the ages of 3 and 21 under its jurisdiction. Disabilities include autism, deaf/blindness, emotional disorders, hearing impairment and deafness, intellectual disability, multiple disabilities, orthopedic impairment, other health impairments, specific learning disabilities, speech or language impairment, traumatic brain injury, visual impairment/blindness and young child with a developmental delay.

The District assures that it will provide information and referral services necessary to assist the State of Missouri in the implementation of early intervention services for infants and toddlers eligible for the Missouri First Steps program.

The District assures that personally identifiable information collected, used, or maintained by the District for the purposes of identification, evaluation, placement or provision of FAPE of children with disabilities may be inspected and/or reviewed by their parents/guardians. Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the District to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

The District has developed a Local Compliance Plan for the implementation of State Regulations for the Individuals with Disabilities Education Act (IDEA). This plan contains the agency's policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency's assurances that services are provided in compliance with the General Education Provision Act (GEPA).

This plan may be reviewed Monday – Friday, 8:00 am – 4:30 pm in the office of Meredith Adkisson, 573-243-9531, madkisson@jr2mail.org. Alternative times are available by request.

This notice will be provided in native languages as appropriate.

Virtual/Online Courses I-160-S

The District offers online classes for students for acceleration, credit recovery, and options for students who need flexible schedules. The courses are taught by Missouri teachers, are aligned with the Missouri State Learning Standards, and follow the same semester calendar as face-to-face classes. The requirements for the enrollment and

approval process are outlined in District Policy. Students whose educational interests are best served through on-line options may take up to six credits per semester.

For more information regarding online courses, consult the secondary course catalog and/or speak with your school counselor. Additional information about resources and processes may be accessed on the District's website at https://www.jacksonr2schools.com/district_information/m_o_c_a_p_information and District Policy.

Only authorized Jackson R-2 personnel will perform these duties.

Acceptable Use

All use of District devices and Internet usage must support educational purposes consistent with the District mission. Network accounts must be accessed only by the authorized user of the assigned account without an expectation of privacy from the District. The filtering/blocking device will attempt to protect against access to visual depictions that are obscene or harmful to minors or are child pornography, as required by law. Filters/blocking devices are not foolproof, and the District cannot guarantee that users will never be able to access offensive materials using District equipment. Evading or disabling, or attempting to evade or disable, a filtering/blocking device installed by the District is prohibited.

Building Information

District Sponsored Extra-Curricular Activities and Clubs I-210-S

Extracurricular activities sponsored by the District are part of the educational experience and opportunities for students. Clubs, sports, and other groups seek a diverse range of students and provide fair access under the law. Students are encouraged to identify activities matched to their interests and ability levels and participate in those activities. Participation in extracurricular activities is voluntary and a privilege. Therefore, students must meet certain academic standards, demonstrate acceptable citizenship and behavior, and maintain appropriate attendance in order to be eligible to participate. Unless special arrangements have been made with the principal, a student is required to attend school on the day of an activity in order to participate. All extracurricular activities are supervised by District employees and the expected code of conduct for students remains the same as during the standard school day. Additional guidelines for specific groups, including activities sanctioned by the Missouri State High School Activities Association (MSHSAA), may be outlined at the beginning of the year and/or season. Competitive, interscholastic activities may have evaluation procedures that eliminate some students from participation. When students are not selected for participation, communication will occur in a personal and respectful way.

School Cancellations and/or Early Dismissal

School will be closed when weather conditions are such that buses are unable to run safely. A broadcast will be made utilizing the automated phone system to notify students and parents/guardians. Announcements will also be made on social media, KFVS12, and K103 FM. Please do not call the administration or radio/TV stations for this information.

At times, school may dismiss early during the day. In the event such a closing should occur, a broadcast will be made and media notified. Information should be given to your child as to what s/he should do if this situation arises. Please keep a watch on the weather, especially in the winter months. If the school needs to send your student to another destination or phone someone to pick her/him, please have this information on

file in the office. Time is short in emergency situations and every effort will be made to keep students safe.

Arrival and Dismissal Procedures S-165-S

Parties/Celebrations

School parties are for the enjoyment of our students. Parents are asked not to bring younger siblings to classroom parties. In an effort to preserve the learning environment, invitations to birthday parties and other activities outside school are not to be handed out at school.

Fundraising

No outside group or individual fundraising will be allowed on campus. Candy sales will be limited to school-sponsored groups with the permission of the Principal. Candy should not be sold during normal school hours.

Students are encouraged to write their names on their personal property in case an item is misplaced.

Supply Lists

Supply lists can be found on the website at

Student Transfers S-120-S

The District will enroll students in the school associated with the attendance area in which the student resides. If a student's residence changes to a different attendance area within the District, the student must transfer to the associated school. The Superintendent or designee may consider exceptions to this policy under the following conditions:

1. The District will not generally grant requests for transfers but the District will make limited exceptions based upon educational needs of the student. Resident parents/guardians may request a transfer to another school within the District by completing the transfer request form available on the website. All transfer requests will consider a school's space and class sizes. The District may rescind a transfer for any reason, including but not limited to, disciplinary issues and absenteeism. Any student who transfers to a school outside the student's attendance area based upon residence will be subject to all eligibility rules of the Missouri State High School Activities Association (MSHSAA). The final decision regarding a student transfer rests with the District administration. The District will not provide transportation outside the student's attendance area unless required by law. The Board authorizes the Superintendent to establish student transfer procedures.
2. The Superintendent or designee may transfer students between schools if a transfer is necessary for the student's safety, health, or welfare, or to address overcrowding in a school. The decision of the Superintendent regarding a student transfer will be final.

3. Students who are homeless or in foster care may attend their school of origin if it is in the student's best interest. The District may assign District students with disabilities (served under the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504)) to a school outside the student's attendance area as determined by the IEP or 504 team. In special circumstances, and at the mutual discretion of the participating school Districts, Districts may contract for necessary services for students with disabilities.
4. The District will consider students placed into programs by the Missouri Department of Mental Health (DMH), the Department of Social Services (DSS), or by a court order a resident of the District in which the program is housed. The District will allow a student to attend another school within the District if that student is enrolled in a persistently dangerous school or becomes a victim of a violent criminal offense on school property as mandated by state regulations.
