MISSION C-110-S

The mission of the Clinton School District #124 is: Transforming Potential into Performance.

The mission of the Clinton Technical School is: To prepare all students for productive living.

VISION

It is the vision of Clinton Technical School that one of the fundamental rights of each individual is equal access to educational opportunity. Each person who receives the benefits of our educational services will have the opportunity to develop intellectually, socially, and technically.

Technical education provides the opportunity to develop skills and work habits needed to enter and progress in useful and productive employment.

Because a comprehensive education is necessary in today's world, technical education, which has both cultural and utilitarian values, should supplement and build on the foundation the core program has provided. Technical education is not intended to replace the core or academic curriculum; Neither is it intended to limit training to manual dexterity for the world of work.

SCHOOL BOARD G-100-S

The role of the [District's Board](#) is to govern the community's public schools by making the major decisions for the District as a whole. The Board collectively makes these decisions and individual Board members do not have the power to speak or act for the Board. The Board as a whole, by working with the Superintendent to make decisions that will best serve the District's students, will govern the community's schools. Accordingly, complaints or concerns made to Board members will be referred to the appropriate District point of contact for resolution. **DISTRICT POLICY INFORMATION**

SELECTION OF STUDENTS

Potential and returning students must submit an application for Technical School courses during enrollment the previous spring. The high school counselor will review applications with the Technical School Career Services Coordinator or Director. Two slots per program will be retained for each sending school. Overloaded classes will be reduced based on the following criteria: two slots per sending school, career interest/assessment results, attendance, and grades.

Students who are 18 at the time of enrollment, must complete a background check. CTS will pay for the background check and ensure the students have the corresponding paperwork.

Parents/Guardians will be required to attend Open House or schedule a meeting with the instructor, no later than 3 weeks after the first day of school.

DISTRICT CALENDAR

ATTENDANCE AND ABSENCE PROCEDURE

CTS attendance will be verified with the sending school and will be marked accordingly. When students have been absent, they should report to the school office upon return to school and check in with the attendance secretary.

ELIGIBILITY TO RETURN POLICY

These are the guidelines that will be considered every semester to determine if a student is eligible to return. The decision is not taken lightly. CTS staff and sending school staff will make a determination based on evaluating the student as a whole.

	Absences	Grades	Discipline in classroom	Outcome
All Clear	0-2	C	1 or less documented	Student can return
Probation	3-4	C- to D+	2 documented	If only one of these areas is a concern, student can return after conference with teacher and director

No Return	5+	D to F	3 or more documented	Return at the discretion of the teacher and director
-----------	----	--------	----------------------	--

MAKE-UP WORK

Students who are absent for any reason will be required to make-up work missed in each class. This work should take approximately the same time as the time missed from class. Missing grades will be reflected as a 0 until assigned work is turned in for credit. It is the student's responsibility to obtain all make-up work from his/her teachers immediately upon return to school. See syllabi for individual program expectations.

DRESS CODE S-180-S

The purpose of a dress code is to contribute to a safe, healthy environment that protects students and maintains a focus on learning. The dress code included in this handbook provides guidance to students and parents as to what constitutes appropriate attire for school and school activities. District administrators have the discretion to determine whether a garment or manner of dress not specifically described below is appropriate attire for school and school activities and/or causes a disruption to the educational environment. Administrators have the authority to take action to address dress code matters as they arise. The following District guidelines should be observed:

Dress Code Expectations and Prohibitions

Shirts and shoes must be worn. Clothing should be properly fitted (not overly restrictive or loose). Coverage of the body is expected. Therefore, the following garments are not permitted:

1. House shoes or slippers;
2. See-through garments;
3. Tops that are backless, strapless, low-cut, bare-midriff, have overly-large arm openings; or spaghetti straps;
4. Clothing that does not cover undergarments when a student is sitting or standing;
5. Undergarments worn as outerwear;
6. Clothing that does not reach to the mid-thigh;
7. Holes in pants that are above mid-thigh: unless patched;
8. Clothing with profane, obscene, or otherwise inappropriate language;
9. Clothing with words, symbols or images that promote illegal, sexual, or violent behavior;
10. Clothing with advertisements or promotion of alcohol, tobacco, or drugs;
11. Language or symbols that promote gangs;
12. Hats and hoods (hooded sweatshirts worn up);
13. Do-rags;
14. Handkerchiefs;
15. Sunglasses;

16. Face paint;
17. Overly-dramatic make-up;
18. Other wear that restricts the line of sight of a student's face and/or facial recognition may not be worn (although exceptions will be made by the principal for head coverings that have religious significance, are worn for medical reasons, or are for a specific, school-sponsored event);
19. Blankets carried or worn as coats or wraps while in the building;
20. Heavy or loose chains, or straps that create a safety risk.

Additional Dress Code Information

Courses and/or class activities that require observance of specific safety requirements may require adjustments of a student's clothing, accessories, or hair style for the duration of the class (e.g., hair pulled back and/or hair nets for culinary classes or other safety wear, etc.). Other dress code requirements may be articulated for students participating in certain extracurricular activities.

Violations of the District dress code will be addressed with remedial actions and/or consequences. Students who dress inappropriately will be asked to change. Building administrators have the final decision as to the appropriateness of all clothing and attire.

ALLERGY PREVENTION AND RESPONSE S-145-S

The District is required to ensure students with allergies are safe at school through planned prevention and response to a student's allergic reaction. For purposes of District policy and related procedures, an allergic reaction occurs when the immune system overreacts to a typically harmless substance and may be mild to life-threatening. Allergy prevention and response protocols apply to all school locations, including non-academic, school-sponsored activities and transportation provided by the District. The Board authorizes the Superintendent or designee to develop and implement procedures to protect the health and well-being of students with significant allergies.

Parents/guardians should provide, at the time of enrollment, information on any allergies the student may have. The school nurse may request written permission from the parents/guardians to communicate with a student's health care provider as needed. Staff members are trained annually on risk reduction strategies, symptom recognition, and response procedures. The school nurse has an emergency kit available and accessible in all school buildings containing prefilled auto syringes of epinephrine and asthma-related medications as allowed by District rules. If you do not want these medications administered to your student in an emergency, please notify the school nurse or principal in writing.

The District will provide age-appropriate education for students, consistent with state learning standards, including potential causes of allergic reactions, information on avoiding allergens, symptoms of allergic reactions, and simple steps a student can take to keep classmates safe.

All processed foods, including food sold in vending machines, are labeled with a complete list of ingredients on each individual package. Ingredient lists will be created for all food provided through the District's nutrition program, including before- and after-school programs, which are available upon request. This also applies to items sold as part of concessions, fundraisers, and classroom activities.

Individual Approaches

The District will evaluate and determine whether a student's allergy rises to the level of a disability that requires accommodations through the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504). For those students who have allergies that do not rise to the level of disability, a designated team may develop an Individual Health Plan (IHP) and/or Emergency Action Plan (EAP). Staff who have a need to know about a student's allergies and plan will be informed and trained, and all staff members will follow any IEP, 504 Plan, IHP, and/or EAP.

A student's health information and individualized plan will be kept confidential and not shared with those who do not have a need to know unless authorized by the parent/guardian or as allowed by the Family Educational Rights and Privacy Act (FERPA). The District will communicate and collaborate at least annually with parents/guardians regarding the student's allergies, medications, restrictions/precautions, emergency contacts and any other relevant information to keep the student safe.

HEALTH SERVICES S-215-S

Health services are provided under the direction of a school nurse. The school nurse for your student's building may provide services in other buildings as well. Although the nurse may not be physically present at all times in a specific building, the nurse is always on call and there are trained employees in the building to provide first aid, dispense medication, and support the needs presented in the health office.

ADMINISTRATION OF MEDICATION S-135-S

All medication is kept in the health office and no medication will be dispensed without written parental permission, including over-the-counter medication. Many medications can be given at home before or after school. When this is not possible, medication should be brought directly to the health office by the parent and must be accompanied by the following information:

Non-Prescription Medication – Non-Prescription medication must be sent to school in the original unopened container. A written note from the parent/guardian with the student's name, reason for the medication, the time the medication is to be given, the dosage prescribed, and the number of days the medication is to be administered at school. These medications include, but are

not limited to, allergy medication, decongestants, cough syrup, ibuprofen (Advil), acetaminophen (Tylenol), cough drops, or other.

Prescription Medication – Prescription medication must be sent to school in the original prescription container. The prescription label will serve as the written permission from the physician. If the doctor has given samples of medication, then a written note from the physician is necessary and should include the name of the student, the medication, and the dosage prescribed. The nurse may need to clarify prescription orders with the provider. The nurse will not administer the first dose of a new prescription.

When a student has a health condition which needs accommodation or may necessitate emergency care, it is important that the school nurse be informed. Examples of a health condition that would need to be shared with the school nurse include severe allergies, asthma, diabetes, hearing loss, seizure disorder, etc. This would include situations when a physician recommends a student assume responsibility for self-medication. The nurse may request a release of information from the student's health care provider and the information may be shared with necessary District staff members on a need to know basis. Please contact the office.

COMMUNICABLE DISEASES F-245-S

Parents/guardians must notify the District if their student has a communicable disease. Parents/guardians may be required to provide written approval from the student's treating physician in order for their student to attend school. The District reserves the right to prevent student attendance until clarification or implementation of precautionary measures are in place. Parents/guardians are required to notify the District if they are enrolling or have a student attending school who is HIV positive.

Medical information of students is highly confidential, and the District will take necessary steps to protect the medical information of students and ensure that such information is released only to those with a need-to-know and/or individuals and entities who are required by law to be notified of certain health and medical information.

Students with a communicable disease who exhibit behaviors that increase the chances of their condition being spread to other individuals, may be subject to discipline in accordance with the discipline code, and state and federal law.

Immunizations and Vaccinations

It is unlawful for any student to attend school unless the student has been immunized according to Missouri School Immunization Law or unless a signed statement of medical or religious exemption is on file at the school, which is described in all enrollment information. Parents/guardians should bring immunization records at the time of enrollment and obtain additional immunizations as required by state law.

STUDENT INSURANCE S-140-S

The District recommends student accident insurance for the protection of a student and parents/guardians. It is the responsibility of the parents/guardians to arrange insurance coverage as the District does not assume financial responsibility for student injuries.

Students participating in interscholastic athletics are required to have insurance coverage. This may be in the form of either family coverage or the coverage offered through the District. Missouri State High School Activities Association (MSHSAA), requires that a student be covered through insurance before being allowed to practice or compete for a school team. The student will not be allowed to participate in interscholastic practices or competitions until proof of insurance is provided.

The District also provides information about MO HealthNet for Kids (MHK), Missouri's Medicaid program, to qualifying families who enroll students in the District. Parents who complete an application for free and reduced-priced meals (FRL), and who indicate on the application form a child does not have insurance, will be notified by the District that the MHK program is available. Forms for MHK may be accessed [here](#).

STUDENT RECORDS S-125-S

Access to and Release of Student Information

All parents/guardians may inspect and review their student's education records, seek amendments, consent to disclosures and file complaints regarding the records as allowed by law. The parents'/guardians' rights relating to the education records transfer to the student once the student becomes an eligible student; however, parents/guardians maintain some rights to inspect student records even after a student turns 18. The District allows access to records to either parent, regardless of divorce, custody or visitation rights, unless the District is provided with legal documents that the parent's rights to inspect records have been modified.

Directory Information

Directory information is information about a student that generally is not considered harmful or an invasion of privacy if disclosed without the consent of a parent or eligible student. The District will designate the types of information included in directory information and may release this information without obtaining consent from a parent or eligible student unless a parent or eligible student notifies the District in writing. Parents and eligible students will be notified annually of the information the District has designated as directory information and the process for notifying the District if they do not want the information released. Even if parents or eligible students notify the District in writing that they do not want directory information disclosed, the District may still disclose the information if required or allowed by law. For example, the District may require students to disclose their names, District email addresses in classes in which they are enrolled, or students may be required to wear or display a student identification card that exhibits information designated as directory information. The District designates the following items as directory information:

General Directory Information: The following personally identifiable information about a student may be disclosed by the District without first obtaining written consent from a parent or eligible student: Student's name; date and place of birth; parents' names; grade level; enrollment status (e.g., full-time or part-time); student identification number; user identification used by the student for the purposes of accessing or communicating in electronic systems as long as that information alone cannot be used to access protected educational records; participation in District-sponsored or District-recognized activities and sports; weight and height of members of athletic teams; dates of attendance; degrees, honors and awards received; artwork or course work displayed by the District; schools or school Districts previously attended; and photographs, videotapes, digital images and recorded sound unless such records would be considered harmful or an invasion of privacy.

Limited Directory Information: In addition to general directory information, a student's address, telephone number and email address; and the parents' addresses, telephone numbers and email addresses may be disclosed to: school officials with a legitimate educational interest; parent groups or booster clubs that are recognized by the Board and are created solely to work with the District, its staff, students and parents and to raise funds for District activities; parents of other students enrolled in the same school as the student whose information is released; students enrolled in the same school as the student whose information is released; governmental entities including, but not limited to, law enforcement, the juvenile office and the Children's Division (CD) of the Department of Social Services.

Military and Higher Education Access

The District will disclose the names, addresses and telephone numbers of secondary school students to military recruiters or institutions of higher education as required by law. However, if a parent or a secondary school student who is at least 18 submits a written request, the District will not release the information without first obtaining written consent from the parent of the student/eligible student.

Release

Parents or guardians may designate additional adult(s) to have access to their student's records by requesting a Family Educational Rights and Privacy Act (FERPA) release form. This form is provided with the enrollment paperwork.

Notice

Parents/Guardians and/or eligible students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

VISITOR PROCEDURE C-155-S

For safety purposes, all visitors **MUST** use the main entrance, report to the office with a picture ID, and sign in and out upon arrival and departure. No one will be allowed to enter the hallways or classrooms without permission from the office and without a visitor's pass. If you need to pick up your child before the end of the school day, come to the office and your child will be called out of class.

TRANSPORTATION SERVICES F-260-S

School buses are operated for one purpose, transporting students to and from school. The driver is in charge of the students and the bus. Students must obey the driver. Complaints about a bus problem should be referred to First Student at (660) 885-2644 and/or school administration.

TRIPS

When traveling on school-sponsored trips, students will ride the bus. The only exception to this policy is that students may ride home with their parent(s), provided parent(s) make the request in person, and the sponsor and Director grant permission. The Director has final authority in this decision. Students who violate this policy will be suspended from the chapter/team for the remainder of the year.

All other trip/travel arrangements must be approved by the Director.

STUDENT DISCIPLINE S-170-S

Student Code of Conduct

The District believes students deserve the right to participate and learn in a safe environment which allows teachers to focus on instruction that accelerates achievement. To ensure that school is a quality atmosphere for all students at all times, the code of conduct and discipline policies outline consequences for misconduct that occurs at school, during a school activity whether on- or off-campus, on District transportation, or misconduct that involves the use of District technology. All District personnel are responsible to supervise and hold students accountable for violations of discipline rules.

Failure to obey standards of conduct may result in, yet is not limited to, verbal warning, community service, confiscation of property, principal/student conference, parent contact, loss of credit, grade reduction, course failure, removal from extracurricular activities, revocation of privileges including transportation, parking and technology privileges, detention, in- or out-of-school suspension, expulsion, and report to law enforcement. For offenses involving academic integrity, the student may also be subject to a loss of credit for work, a grade reduction, and/or course failure. The Board authorizes the immediate removal of a student who poses a threat to self or others as determined by the principal, Superintendent, or the Board.

Any student who is suspended for any serious violation of the District's Student Discipline policy shall not be allowed while suspended to be within 1,000 feet of any school property or any activity of the District, regardless of where the activity takes place, unless:

1. Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the Superintendent or the Superintendent's designee has authorized the student to be on school property;
2. Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the Superintendent or the Superintendent's designee has authorized the student to be on school property;
3. Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the District where such student attended school; or
4. Such student resides within one thousand feet of any public school in the District where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

If a student engages in an act of violence, a school administrator will report the information to teachers and other District employees who are responsible for the student's education or otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. Additionally, school administrators will report to the appropriate law enforcement agencies any crimes as required by law.

Corporal punishment is strictly prohibited as a method of discipline. Reasonable force may be used, when necessary, for the protection of a student or others and property. The District limits the use of seclusion or restraint to situations or conditions in which there is imminent danger of physical harm to self or others.

Students with disabilities will be disciplined in compliance with state and federal laws per the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Plan, and any regulations and state and local compliance plans, which includes due process rights as afforded to all students. Additionally, a student's Individual Education Plan (IEP), including any portion that is related to past or potentially future violent behavior, will be provided to appropriate staff members with a need to know.

Information regarding a student's misconduct and discipline is confidential and only shared with those who have a need to know. Teachers and other authorized District personnel shall not be civilly liable when acting in conformity with District policies, including the discipline policy, or when reporting acts of school violence to a supervisor or other person as mandated by law.

The District discipline policy and procedures will be provided to every student at the beginning of each year, be published on the District website, and made available in the office of the Superintendent during normal business hours.

This code applies to all misbehavior committed by a student on District property, at any school-sponsored activity or event whether on- or off-campus, and District transportation. Additionally, the District may use its authority to address behavior that occurs off-campus if it interferes with the operation of the school or endangers the safety of students or staff.

Standards of Conduct and Consequences

No document can identify every possible offense that could potentially result in disciplinary action. This code identifies most offenses constituting a failure to obey the standards of conduct set by the Board. However, when circumstances warrant, the principal, Superintendent, and/or Board may impose consequences for misconduct not specifically outlined in this document.

Definitions

Bullying – Intimidation, unwanted aggressive behavior or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting such acts.

Cyberbullying – Bullying as defined above through the transmission of a communication including, but not limited to a telephone, wireless telephone, or other wireless communication device, computer, or pager. Anti-bullying Coordinator – The Superintendent will ensure an individual at each school is designated to serve as the anti-bullying coordinator. All anti-bullying coordinators will be teacher-level or above and a list of coordinators will be kept on file at the District administration office and updated annually. Additionally, a District anti-bullying coordinator will be designated.

School Day – A day on the District calendar when students are required to attend school.

Reporting Bullying or Cyberbullying

District employees are required to report any instance of bullying of which the employee has firsthand knowledge. Any employee, substitute, or volunteer who witnesses an incident of bullying must report the incident to the building anti-bullying coordinator within two (2) school days of witnessing the incident. If the anti-bullying coordinator is unavailable or is the subject of the report, the employee should contact the District's Compliance Officer. In addition, all District employees, substitutes, or volunteers must direct all persons seeking to report an incident of bullying to the building anti-bullying coordinator.

Any individual making a verbal report of bullying will be asked to submit a written complaint to the anti-bullying coordinator. If the person refuses or is unable to submit a written complaint, the anti-bullying coordinator will summarize the verbal complaint in writing.

When an anti-bullying coordinator is informed about a possible bullying or cyberbullying incident, verbal, written, or otherwise, the District will conduct a prompt, impartial, and thorough investigation to determine whether misconduct, including unlawful conduct, occurred. The District will implement interim measures as necessary. When it is determined that bullying or cyberbullying occurred, the District will take appropriate action for violations of District expectations and rules.

Investigation

Within two (2) school days of receipt of a report of bullying or cyberbullying, the anti-bullying coordinator or designee will initiate an investigation of the incident. The school principal may appoint other school staff to assist with the investigation. The investigation will be completed within ten (10) school days from the date of the written report unless good cause exists to extend the investigation. A copy of the written report of the investigation and results will be sent to the District anti-bullying coordinator and included in the files of the victim and the alleged or actual perpetrator of bullying or cyberbullying. All reports are confidential in accordance with law and District rules.

The District prohibits reprisal or retaliation against any person who reports an act of bullying or cyberbullying, testifies, or participates in any manner with an investigation proceeding, or hearing. The District will take appropriate remedial action for any student, teacher, administrator, or other school personnel who retaliates.

Consequences of Bullying, Cyberbullying, or Retaliation

When the District receives a report of bullying, cyberbullying, or retaliation, interim measures to protect the victim(s) will be taken. If an investigation determines that bullying, cyberbullying, or retaliation occurred, the District will act to end the bullying, cyberbullying or retaliation.

COMPLAINTS OR CONCERNS C-120-S

Effective communication helps avoid and resolve many complaints, concerns, misunderstandings and disagreements. Individuals who have a complaint or concern should discuss their concerns with the school personnel involved in the issue at hand in an effort to resolve problems. This step will usually involve communicating directly with the person or persons with whom the complainant has a concern. This step may be

skipped when the complainant in good faith believes that speaking directly to the person would subject the complainant to discrimination, harassment or retaliation.

This step may also be skipped if the complainant in good faith believes that any law or a District policy or written rule has been violated. The District has adopted specific procedures for investigation and resolution for complaints or concerns as required by specific and varying laws that are applicable to the District. The District's Compliance Officer should be contacted with any complaints or concerns that any law or District written rule has been violated, including but not limited to, laws relating to: civil rights, including discrimination, harassment, and retaliation; special education matters including the IEP and 504 processes and services; federal programs and related services; bullying; and The Family Educational Rights and Privacy Act, including student records and confidentiality.

When communicating directly with the school personnel involved in the issue does not resolve matters satisfactorily, or if it is appropriate to skip the first step as described above, a complainant should consult with the District's Compliance Officer who will direct the complainant to the appropriate process for resolution of the complaint. The District designates the following individual to act as the District's Compliance Officer:

Name: Assistant Superintendent, Christian Meier
Phone #: 660-885-2237
Email Address: cmeier@clintoncardinals.org

In the event the District's Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Name: Superintendent, Daniel Brungardt
Phone #: 660-885-2237
Email Address: dbrungardt@clintoncardinals.org

All complaints of violation of any law or a District policy or written rule will be promptly investigated by the District, and appropriate action will be taken. Complainants are strongly encouraged to provide their concerns in writing.

User Agreements

Parents and, when age-appropriate, students are required to review and sign User Agreements in order to access District technology. (See User Agreement form in this handbook.)

Safety and Cybersecurity

The District monitors the online activities of students and operates a technology protection measure (“filtering/blocking device”) on the network and/or all computers with Internet access, as required by law. The filtering/blocking device will attempt to protect against access to visual depictions that are obscene or harmful to minors or are child pornography, as required by law. Filters/blocking devices are not foolproof, and the District cannot guarantee that users will never be able to access offensive materials using District equipment. Evading or disabling, or attempting to evade or disable, a filtering/blocking device installed by the District is prohibited.

GRADES

The grading system is as follows:

A, A-
B+, B, B-
C+, C, C-
D+, D, D-

First and second semester grades are not averaged; they are a benchmark of the performance level of the student at that time. Students who fail two consecutive semesters risk dismissal from school.

DELIVERIES

Students are prohibited from receiving food deliveries at CTS.

- Speeding or careless driving on school property is not permitted
- Sitting in cars during the school day is not permitted
- Students must park in designated areas only and obey all parking lot rules
- Students who have permission to drive CANNOT have passengers without the express written permission from their home school principal and parent/guardian.

Exceptions to this policy must be approved by the Director’s office.

SECTION 504 I-125-S

The District is required to undertake measures to identify and locate every qualified disabled person residing in the District who is not receiving a public education; and take appropriate steps to notify disabled persons and their parents or guardians of the District's duty.

The District will provide free appropriate public education (FAPE) to each qualified disabled person in the District's jurisdiction regardless of the nature or severity of the person's disability. For purposes of Section 504 of the Rehabilitation Act of 1973, the provision of an appropriate education is the provision of regular or special and related aids and services that are designed to meet individual educational needs of disabled persons as adequately as the needs of nondisabled persons are met and are based on adherence to procedures that satisfy the requirements of the Section 504 federal regulations.

The District has developed a 504 Procedures Manual for the implementation of federal regulations for Section 504 of the Rehabilitation Act, Subpart D. This Procedures Manual may be reviewed Monday – Friday 8:00 am – 3:00 pm in the office of the 504 Coordinator, 660-885-2237 ext. 2004, mbatusic@clintoncardinals.org. Alternative times are available by request.

The District assures that it will provide a free, appropriate public education (FAPE) to all eligible children with disabilities between the ages of 3 and 21 under its jurisdiction. Disabilities include autism, deaf/blindness, emotional disorders, hearing impairment and deafness, intellectual disability, multiple disabilities, orthopedic impairment, other health impairments, specific learning disabilities, speech or language impairment, traumatic brain injury, visual impairment/blindness and young child with a developmental delay.

The District assures that it will provide information and referral services necessary to assist the State of Missouri in the implementation of early intervention services for infants and toddlers eligible for the Missouri First Steps program.

The District assures that personally identifiable information collected, used, or maintained by the District for the purposes of identification, evaluation, placement or provision of FAPE of children with disabilities may be inspected and/or reviewed by their parents/guardians. Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates

the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the District to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

The District has developed a Local Compliance Plan for the implementation of State Regulations for the Individuals with Disabilities Education Act (IDEA). This plan contains the agency's policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency's assurances that services are provided in compliance with the General Education Provision Act (GEPA).
