Questions regarding the interpretation of any District rule will be directed to the Superintendent or designee.

The Superintendent and administrative staff will assist the Board in timely review and revision of the District Policies. The Board Secretary will ensure that District policies and amendments thereto are transmitted to teachers in the District.

Adoption Date(s): August 12, 2021

District Mission and Planning**C-110-P**

The mission of the Climax Springs R-IV School District is: to inspire and empower all students to reach their individual potential by providing learning experiences that challenge and engage learners within a safe, supportive environment designed to prepare students to think and excel in life. The Board has a long-range plan for the governance of the District that is guided by the District's mission, priorities, goals, and objectives. The strategic plan will be developed and amended under the direction of the Board and with input from key District stakeholders.

Adoption Date(s): August 12, 2021

Community Engagement and Communications

C-115-P

The District will develop systems and processes using a variety of communication channels to effectively communicate with the public and key stakeholder groups. District communications will come primarily from the District's spokesperson. If employees or Board members do provide communications during their contact with parents or patrons, such individuals will follow all confidentiality and other restrictions imposed by law or District rules, and ensure all communications are accurate.

Superintendent as Spokesperson

The Superintendent of schools will serve as official spokesperson for the District unless otherwise directed by the Board. All employees and Board members will direct requests for statements about District business from the public or members of the media to the Superintendent or designee. Board members should direct requests for statements about District business to the Superintendent or designee. If a Board member chooses to make a statement about District business, the Board member will emphasize that he or she may only speak as an individual Board member, not on behalf of the Board or the District.

Communications Plan

The Superintendent or designee will develop a District communications plan that, at a minimum, establishes:

1. District channels of communications.
2. Methods of sharing information with the public.
3. Methods of sharing information with internal District stakeholders.
4. A plan for District communications during emergencies.
5. Information to be provided to parents/guardians and members of the public as required by law.

Community Engagement

District patrons should be encouraged to provide ideas, concerns and comments about District programs. The Superintendent will create opportunities for engaging patrons including through written submissions, participation on committees and stakeholder focus groups, and survey responses.

Adoption Date(s): August 12, 2021

Concerns or Complaints

C-120-P

Effective communication helps avoid and resolve many complaints, concerns, misunderstandings, and disagreements. Individuals who have a complaint or concern should discuss their concerns with the school personnel involved in the issue at hand in an effort to resolve problems. This step will usually involve communicating directly with the person or persons with whom the complainant has a concern. This step may be skipped when the complainant in good faith believes that speaking directly to the person would subject the complainant to discrimination, harassment, or retaliation.

This step may also be skipped if the complainant in good faith believes that any law or a District policy or written rule has been violated. The District has adopted specific procedures for investigation and resolution for complaints or concerns as required by specific and varying laws that are applicable to the District. The District's Compliance Officer should be contacted with any complaints or concerns that any law or District written rule has been violated, including but not limited to, laws relating to: civil rights, including discrimination, harassment, and retaliation; special education matters including the IEP and 504 processes and services; federal programs and related services; bullying; and The Family Educational Rights and Privacy Act, including student records and confidentiality.

When communicating directly with the school personnel involved in the issue does not resolve matters satisfactorily, or if it is appropriate to skip the first step as described above, a complainant should consult with the District's Compliance Officer who will direct the complainant to the appropriate process for resolution of the complaint. The District designates the following individual to act as the District's Compliance Officer:

Name: High School Administrator
Phone #: 573-347-2351
Email Address: tfrisbee@cspringsr4.org

In the event the District's Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Name: Elementary Administrator
Phone #: 573-347-2351
Email Address: kspear@cspringsr4.org

All complaints of violation of any law or a District policy or written rule will be promptly investigated by the District, and appropriate action will be taken. Complainants are strongly encouraged to provide their concerns in writing.

Public Notice

The Superintendent or designee will publicize this policy and will disseminate information about this policy to employees, parents/guardians, and students, as well as to newly enrolled students and newly hired employees.

Adoption Date(s): August 12, 2021; Updated September 8, 2022; Updated September 14, 2023;

The District receives funds under the federal Elementary and Secondary Education Act (ESEA) and is required to follow federal law regarding the ESEA governed programs. Any concerns or complaints that the District may have violated these laws should be reported to the District's Compliance Officer for immediate investigation so that the District may successfully address the issue. The District's Compliance Officer will be responsible for investigating and addressing all specific allegations of violations of federal statutes and regulations governing Title I, Parts A, B, C, D; Title II; Title III; Title IV, Part A; or Title V of the ESEA.

Adoption Date(s): August 12, 2021

Name:	High School Administrator
Phone #:	573-347-2351

All employees, students, and visitors who have witnessed, heard about, or received a report about any incident or behavior that could constitute sexual harassment under this policy must immediately report such incident or behavior to the District's Title IX Coordinator for investigation. Board Meetings Generally**C-135-P**

A quorum of at least four Board members must be present, either physically or electronically, at all meetings of the Board. Meetings may be held in person or by means of communication equipment including, but not limited to, conference calls, video conferences, Internet chats or Internet message boards. Board meetings are open to the public unless closed as allowed by law. Open meetings will be held at a time that is reasonably convenient to the public and a place of sufficient size to accommodate the anticipated attendees. The District will make reasonable efforts to make the meeting accessible to individuals with disabilities.

The District may set guidelines for such audio, video and other electronic recordings of open meetings to minimize disruption to the meeting. No recording of a closed meeting is permitted without Board action authorizing the recording.

Adoption Date(s): August 12, 2021

Public Comment to the Board

C-140-P

Written submissions may be directed to the Board, through the Superintendent, for consideration at a Board meeting. Copies of all correspondence directed to the Board will be made available to all Board members.

In addition to written submissions, a specific time may be set aside at regular Board meetings for public comments regarding items from the posted agenda. Individuals who want to make public comments regarding an agenda item must provide a written request to the Superintendent no less than five business days prior to the day of the Board meeting. To provide notice to the public of matters to be discussed by the Board, only comments reasonably related to the posted agenda item will be permitted. The Board President will apply reasonable restrictions on individuals addressing the Board including but not limited to restrictions on the number of items to be considered, the number of spokespersons and the amount of time each spokesperson may have to address the Board. If the meeting agenda is full, the Board President may reschedule an item for the next regular meeting. The Board President will set a time limit for the public comment portion of the meeting. No individual will be permitted to speak more than once during this part of the meeting. Each member of the public to speak will be given the same amount of time to address the Board.

If a member of the public wishes to have an item placed on the agenda of a regular Board meeting, he or she may make a written request to the Superintendent after going through the appropriate process for a complaint or concern pursuant to District rules. *See District Policy [C-120-P](#) regarding Complaints or Concerns.*

The written request must be received at least five (5) business days prior to the Board meeting and must describe the items to be discussed with reasonable particularity. The item may then be placed on the agenda as deemed appropriate by the Superintendent and the Board President. No discussion of an issue will be allowed that has not gone through the appropriate process as a complaint or concern pursuant to District rules. The item will be placed on the agenda if it directly relates to the governance or operation of the District. The District may refuse to place an item on the agenda; (1) if the Board has heard an identical or substantially similar issue in the previous 3 calendar months or (2) if the resident previously violated District rules regarding conduct at meetings or on school property and upon a specific finding by the Superintendent or Board that the refusal or delay in hearing the resident's agenda item is necessary to protect the Board's ability to conduct business at its meetings and is unrelated to any viewpoint expressed by that resident or the proposed agenda item. If an individual's request to place an item on the agenda is denied, the District shall provide a short explanation in writing within five (5) business days of the denial. The District may delay hearing an agenda item if more than 3 resident-initiated agenda items are scheduled for the same meeting. If the agenda item is delayed or denied, the resident may communicate to the Board as outlined in the first paragraph of this section about the agenda item.

Prohibition of Tobacco and Imitation Tobacco Products**C-150-P**

To promote health of all individuals, the District prohibits all employees, students and patrons from smoking or using tobacco products, electronic cigarettes or imitation tobacco or cigarette products in all District facilities, on District transportation, on all District grounds at all times and at any District-sponsored event or activity while off campus.

Adoption Date(s): August 12, 2021

Visitors to District Property and Events

C-155-P

All visitors to District property or events must demonstrate appropriate behavior as good role models for the District's students. Visitors during school hours, including Board members, must sign in at the building office prior to proceeding elsewhere in the building. The principal of each school building will ensure signs are posted to direct visitors to designated doors nearest the building office.

Disruptive Conduct

Visitors who engage in disruptive conduct or exceed the scope of their permission to be on District property may be considered trespassers and subject to arrest and prosecution. If a visitor engages in disruptive conduct, the Superintendent or designee may limit or revoke the visitor's permission to visit school property or parts of school property. The Superintendent or designee may inform the visitor that he or she is not welcome back on District property or at District events indefinitely or for a specific period of time. During any period of prohibition, the visitor will not be allowed on District property, except that no person may be denied the ability to attend open, public meetings of the Board and its committees or advisory committees except upon a specific finding by the Superintendent or Board of Education that denial of admission to such meetings is necessary to protect the Board's ability to conduct business at its meetings and is unrelated to any viewpoint expressed by that person. The Superintendent may make exceptions for parents, guardians or custodians of students enrolled in the District if the person's presence is necessary to transport the student or may benefit the student educationally, or in situations where the parent, guardian or custodian will be supervised at all times.

Appeals

Any visitor restricted for "disruptive" conduct under C-155-P, or a representative of the visitor, may submit a written appeal of the restriction to the Board of Education's Secretary via electronic mail or first-class mail. The appeal must be received by the Board of Education's Secretary within thirty (30) calendar days after the restricted visitor's receipt of the restriction letter. Therein, the visitor shall state all reasons why they believe the restriction should be revised or overturned. Within fourteen (14) days following receipt of the visitor's appeal letter, the District's administration shall provide a written response to the Board of Education's Secretary, with a copy provided to the visitor, stating all reasons why the restriction should be affirmed.

Within seven (7) days after receipt of the District administration's written response, the visitor or their representative may, but is not required to, submit to the Board of Education's Secretary a written rebuttal via electronic mail or first-class mail. If the visitor makes new factual assertions that were not raised in the original written appeal, the District's administration may, within seven (7) days following receipt of the written rebuttal, submit to the Board of Education's Secretary a written reply to address only those new factual assertions, with a copy provided to the visitor. Otherwise, the

District's administration shall not provide any information to the Board of Education regarding the appeal outside of the contents of the administration's written submission until the Board of Education has issued a decision regarding the appeal.

Upon receipt of any written rebuttal, the Board of Education shall consider the visitor's appeal at the next regularly scheduled meeting of the Board of Education that is scheduled to take place at least five (5) business days after receipt of such rebuttal.

A visitor who is restricted from attending open, public meetings of the Board and its committees or advisory committees may, in lieu of submitting a written rebuttal, submit to the Board of Education's Secretary a request to provide an oral rebuttal at a Board of Education meeting. Upon receipt of any request to provide an oral rebuttal by a visitor who is restricted from attending open, public meetings of the Board and its committees or advisory committees, the visitor or a representative designated by the visitor shall be provided with the opportunity to address the Board at the next meeting of the Board of Education that is scheduled to take place at least five (5) business days after receipt of such request, and the Board of Education shall consider the visitor's appeal at that same meeting. If the District administration determines there is reason to believe that the visitor's presence at a Board of Education meeting will create an immediate danger to the physical safety of individuals present at the Board of Education meeting, the visitor may be required to address the Board of Education virtually rather than in person.

The visitor or their representative may address the Board of Education for a period of time not to exceed five (5) minutes. If, during their presentation, the visitor makes new factual assertions that were not raised in the original written appeal, the District's administration may address only those new factual assertions for a period of time not to exceed five (5) minutes, and the visitor may listen to such address. Otherwise, the District's administration shall not provide any information to the Board of Education regarding the appeal outside of the contents of the administration's written submission until the Board of Education has issued a decision regarding the appeal.

If the visitor does not submit a written rebuttal or request to provide an oral rebuttal within seven (7) days of receiving the District administration's written response, the Board shall consider the appeal at the next meeting of the Board of Education that is scheduled to take place at least five (5) business days after the expiration of the time to submit such written rebuttal or request an oral rebuttal.

The Board of Education shall consider the visitor's written appeal, the District's response, and the visitor's written or oral rebuttal, if any, and the District's reply to any new factual assertions in the visitor's rebuttal in deciding whether to affirm, overturn, or revise the restriction. The Board of Education will provide notice of its decision to the appealing visitor and Superintendent within three (3) business days of the Board meeting. The Board of Education's decision shall be final.

Possession of Weapons, Alcohol, and Illegal Substances

Possession of weapons, including concealed weapons, is strictly prohibited on District property, on District transportation or at any District function or activity sponsored by

Possession or use of alcohol or any illegal substances is strictly prohibited on District property, on District transportation or at any District function or activity sponsored by the District.

Sex Offenders

Individuals listed on the Missouri Highway Patrol's sex offender registry may not be present in any school building, or on District property, in any District vehicle utilized to transport students, or be present at District activities without the written permission of the Superintendent. For those extraordinary circumstances when permission is granted, it will be granted in writing for a specific event. In such cases, the Superintendent will notify the principal of the building in which the sex offender will be present and arrange for the sex offender to be supervised at all times and the sex offender will not be permitted to be alone with a child.

Community Use of District Facilities

C-160-P

As a service to the community, the District may allow community groups and individuals to use District facilities for educational, recreational, social, civic, philanthropic and other similar purposes when the facilities are not being used by the District or District-sponsored groups. The Superintendent or designee may approve or deny facility use requests in accordance with law. Unless otherwise required by law, the District will maintain District facilities as nonpublic forums and reserves the right to exclude individuals or groups from its facilities or cancel or modify any permission granted.

Use of District facilities will not be granted if the use conflicts or interferes with a District-sponsored activity, and all uses granted are contingent upon the District's needs. Any community group or individual may apply to use District facilities but applicants who intend to use District facilities for purposes that directly benefit District students will be given priority. Staff use of District property and facilities for personal purposes, or reasons other than performing the staff member's duties with the District, will be subject to the application process and rules applicable to other applicants.

The District may also charge for additional costs associated with the use as deemed appropriate by the Superintendent. The Superintendent or designee may waive the fees for individuals and groups created to support the District and non-profits.

Board Member Elections

G-235-P

The voters of the District will annually elect two directors for terms of three years each on the municipal election day in April. An additional director will be elected triennially.

Candidate Filing

Before the seventeenth Tuesday preceding the election, the Board shall publish in at least one newspaper of general circulation in the District the opening filing date, the offices to be filled, the place for filing, the closing date for filing and a statement that candidates filing on the first day of filing will be listed on the ballot in random order.

Qualified applicants for the Board may file a declaration of candidacy during business hours in the Superintendent's office commencing at 8:00 a.m. on the seventeenth Tuesday prior to the election and ending at 5:00 p.m. on the fourteenth Tuesday prior to the election. The candidate shall declare his or her intent to become a candidate in person and in writing to the Secretary of the Board or designee. The District will designate a location where candidates will form a line to file the necessary paperwork in order to determine the order of such filings for ballot placement.

The names of qualified candidates shall be placed on the ballot in order of filing, except that for candidates who file a declaration of candidacy prior to 5:00 p.m. on the first day of filing, the District shall determine by random drawing the order in which such candidates' names shall appear on the ballot. Each candidate filing on the first day shall draw a number at random at the time of filing. The Secretary of the Board shall record the number drawn with the candidate's declaration of candidacy. The names of candidates filing on the first day of filing shall be listed in ascending order of the numbers so drawn and ahead of the names of candidates filing on a later date.

The notice of election and certification of candidates must be submitted to the election authority by the tenth Tuesday prior to the election in the manner provided by law. After the tenth Tuesday prior to the election, the candidate list may only be modified pursuant to court order, in accordance with law.

Prior to the District's certification of candidates to the election authority, a candidate may withdraw from the election by presenting to the District a notarized written statement of his or her intention to withdraw. After the deadline for certification of candidates to the election authority, a candidate may only withdraw pursuant to court order, in accordance with law.

The District will provide each candidate a copy of the Notice of Candidate's Obligation to File a Financial Interest Statement and a plain language summary of the applicable laws provided by the Missouri Ethics Commission as required by law. Candidates must comply with laws concerning eligibility, campaign financing and campaign disclosures.

Filing by Certified Mail

In accordance with law, candidates may file by certified mail if they are unable to file the declaration of candidacy and other necessary paperwork in person due to a physical disability or because they are members of the U.S. Armed Forces on active duty. Upon request, the District will provide potential candidates the necessary paperwork prior to the opening date of candidate filing and during the filing period.

The candidate must personally sign the declaration of candidacy and other documents necessary for filing that require a signature and the signatures must be notarized. In addition, the declaration of candidacy of a person with a physical disability who is filing by certified mail must be accompanied by a notarized statement from a licensed physician verifying the disability. A candidate on active-duty military service who is filing by certified mail must include a notarized statement from the candidate's commanding officer verifying the candidate's active duty status.

A candidate's completed declaration of candidacy and other necessary documents must be received by the District during the official candidate filing period in order for the candidate to appear on the ballot. If these documents are received by the District before 8:00 a.m. on the first day of filing or after 5:00 p.m. on the last day of filing, the District will not accept them and will return them to the candidate.

While the declaration of candidacy and other necessary documents must be sent to the District by certified mail in accordance with law, the candidate may designate a personal representative to draw a number on the first day of filing or stand in line on behalf of the candidate for ballot placement purposes by submitting a completed and notarized form provided by the District. As long as the candidate's declaration of candidacy and other necessary documents are received by the District after the beginning of filing and before the close of filing on the last day of filing, the candidate's ballot placement as determined by the personal representative's participation will stand.

If the candidate does not designate a personal representative for ballot placement purposes and the District receives the candidate's declaration of candidacy and other necessary documents the first day of filing, the candidate will be listed on the ballot after all other candidates who drew a random number on the first day of filing. If the District receives the necessary documents on any other day of filing, the District will list the candidate on the ballot in the order the declaration of candidacy and other necessary documents are physically received by the District. If two or more candidates file by certified mail on the same day and the filings are received at the same time, the District will list the candidate with the earlier postmark date first. If two or more postmark dates are identical, the candidates will be listed in the order the mail is processed.

If the required paperwork is received after candidate filing has closed for the day or on a day the District's offices are closed, the candidate will be considered to have filed first on the next day filings are received.

Write-In Candidates

If candidates have filed for a position, a person interested in becoming a write-in candidate must file a declaration of intent to be a write-in candidate with the proper election authority prior to 5:00 p.m. on the second Friday immediately preceding the election day in order for the votes to be counted. If no candidates have filed for the position, filing a declaration of intent to be a write-in candidate is not necessary but is recommended.

No Election Held

No election will be held if, after the last date of candidate filing, the number of candidates who have filed is equal to the number of positions to be filled by the election. However, if the number of candidates filing exceeds the number of positions, the election will be held even if a sufficient number of candidates withdraw so that the number of candidates remaining after the filing deadline is equal to the number of positions to be filled. Also, if the number of candidates who have filed is equal to the number of positions to be filled by the election and the District has an issue on the ballot (a bond or tax levy issue), an election will be held and the ballot will include the issue and the names of all candidates.

Resident Student

Prior to admission, students must generally provide proof that they reside in the District. A student is a "resident" of the District if they (1) physically reside in the District; and (2) are domiciled in the District – meaning the student's parent/guardian physically resides in the District. Numerous exceptions to the residency requirement exist under the law. Students are exempt from the residency requirement by law if the student is:

- Homeless,
- Placed in a residential care facility within the District,
- A participant in an inter-District, court-ordered desegregation program,
- Assigned to the District by the commissioner of education due to an unusual or unreasonable transportation hardship (resident District pays tuition),
- Disabled and residing in the District for reasons other than accessing the District's educational program,

- An orphan, has only one parent living, or their parents do not contribute to their support if the students are between the ages of six and 20 years old and unable to pay tuition,
- For all school years ending on or before June 30, 2023, a child of parents/guardians who pay school taxes on property in the school District but do not live in the District (may attend on a tuition basis and school taxes paid to the District by the parents/guardians will be deducted from the tuition charge),
- For all school years ending on or before June 30, 2023, a child of parents/guardians who own real estate of which 80 acres or more are used for agricultural purposes and upon which their residence is situated (may attend school in any District in which a part of the real estate is contiguous to that upon which their residence is situated, lies, provided that 35 percent of the real estate is located in the District of choice),
- For all school years beginning on or after July 1, 2023, any current owner of residential or agricultural real property or a named beneficiary of a trust that owns residential or agricultural real property and pays school tax in a district or districts other than the district where such current owner/beneficiary resides may send up to four of their children to a school in any district in which such school tax is paid with exceptions and in accordance with law;
- Placed by the Missouri Department of Mental Health, the Missouri Department of Social Services or by court order in facilities or programs located within the District,
- Reside in a District that has been declared unaccredited by the Missouri State Board of Education and that is located in the same or adjoining county as the District (resident District must pay tuition),
- Placed in the care of another person living in the District because one or both parents/guardians are stationed or deployed out of state or deployed within Missouri by the military or on active duty military service,
- Placed in foster care outside the District, previously attended the District, and are placed in an adjacent District, or
- District policy may provide that the children of District teachers and/or employees are permitted to attend without payment of tuition.

Non-Resident Students

A non-resident student is one who does not meet the requirements to be a resident of the District, as defined by the law and the District's policies. The Board, in its discretion and unless otherwise required by law, may admit non-resident students not entitled to free instruction and prescribe the tuition fee to be paid by them. The District will set the rate of tuition based upon the per-pupil cost for the previous school year, including operation, maintenance, and debt service. In some circumstances, the District may also charge transportation costs.

Residency Waivers

Students who live in the District but who do not meet the residency requirements because their parents/guardians do not physically reside within the District, and who

want to attend a District school, may request a waiver of proof of residency. Parents must submit requests for a residency waiver to the Superintendent or designee for review.

The review process should first establish if the student physically resides in the District and if the student resides in the District for reasons other than attending the District's school. The District must then determine if hardship or good cause exists for the request. The District will grant the residency waiver based upon the applicable factors but will not grant a waiver based on a student's athletic ability.

If the Superintendent/designee determines that a student is not entitled to a waiver, the Superintendent/designee will present the residency waiver to the Board for the Board's review and consideration. The Board will conduct this hearing to consider the request as soon as possible, but no later than 45 days after receipt of the request. While a waiver request is pending Board review and determination, the District will conditionally enroll the student unless there is reason to suspect that admission of the student will create an immediate danger to the safety of other students or employees. If there is reason to suspect admission of the student will create an immediate danger to the safety of other students or employees, then the Superintendent or designee must conduct a hearing within five (5) working days of the request for a waiver to determine if the student will be permitted to register and attend school. If the Board does not hold a hearing within 45 days, the request is automatically granted, and the student will be allowed to enroll and attend school.

Student Absences and Excuses**S-115-P**

Missouri law requires students to attend school. To succeed in school, students must regularly attend all classes. The District will report attendance for every period, every day. The District will record all student absences on the student's permanent record. The District will excuse students with recorded absences for District-sponsored activities, such as but not limited to the Missouri State High School Activities Association (MSHSAA). As required by law, absences for participation at the Missouri State Fair competitions for the Future Farmers of America Organization (FFA), Family, Career, and Community Leaders of America (FCCLA) and 4-H programs will be counted as school attendance when the student's parents/guardians observe the reporting procedures.

Student Transfers

S-120-P

The District will enroll students in the school associated with the attendance area in which the student resides. If a student's residence changes to a different attendance area within the District, the student must transfer to the associated school. The Superintendent or designee may consider exceptions to this policy under the following conditions:

Superintendent Authority

The Superintendent or designee may transfer students between schools if a transfer is necessary for the student's safety, health, or welfare, or to address overcrowding in a school. The decision of the Superintendent regarding a student transfer will be final.

Students who are Homeless, in Foster Care, or Disabled

Students who are homeless or in foster care may attend their school of origin if it is in the student's best interest. The District may assign District students with disabilities (served under the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504)) to a school outside the student's attendance area as determined by the IEP or 504 team. In special circumstances, and at the mutual discretion of the participating school Districts, Districts may contract for necessary services for students with disabilities.

Transfers Allowed by Law

The District will consider students placed into programs by the Missouri Department of Mental Health (DMH), the Department of Social Services (DSS), or by a court order a resident of the school District in which the program is housed. The District will allow a student to attend another school within the District if that student is enrolled in a persistently dangerous school or becomes a victim of a violent criminal offense on school property as mandated by state regulations.

Student Records**S-125-P**

Education records are maintained on every student enrolled in the District. Education records refer to materials maintained by the District that contain personally identifiable information about a student. Education records may include, but are not limited to, date and place of birth, parental/guardian names and addresses, emergency contact information, enrollment and attendance records, academic records, special education records, discipline information, and health records. The confidentiality of a student's records, excluding general directory information as defined by the District, are protected by law, and only parents/guardians, eligible students (a student who is 18 years of age or attends a postsecondary institution to whom all rights formerly given to parents transfer to the student), and school officials who have a legitimate educational interest are provided access to records, unless specifically allowed by law. The District establishes procedures and complies with the requirements of the Family Educational Rights and Privacy Act (FERPA), the Safe Schools Act, and the Missouri Sunshine Law.

The District will annually notify parent/guardians and eligible students of their rights under FERPA. Parents/Guardians or eligible students may inspect and review their educational records, request amendments, provide consent for release of information, and file a complaint. Records will be made available for inspection within the timeframe as defined by law. In accordance with law, the District will share information without parental consent or notification with law enforcement, Children's Division of the Department of Social Services, military recruiters, or a post-secondary institution.

Parental requests for access to a student's educational records may be made by contacting Amanda Tessman, Administrative Assistant to the Superintendent.

Administration of Medication

S-135-P

Some students require medication to attend and benefit from school. Whenever possible, medication should be administered at home. The District is not legally required to dispense medication to students unless specifically addressed in an Individual Education Plan (IEP) or Section 504 Plan (504).

The Board authorizes the development of procedures in accordance with law that allow trained, qualified employees to administer medication and/or medical treatment to facilitate students' attendance and participation in school. District employees who administer first aid, medication, or cardiopulmonary resuscitation (CPR) according to District policy, procedures, and standard medical practices will be immune from civil liability. Parents/Guardians who request that over the counter or prescription medications be dispensed to their child during the school day must contact the school nurse or designee and provide any requested, relevant information and authorization before medication will be administered.

Under specific conditions and as required by law, a student may be authorized for the possession and self-administration of medication to treat a chronic health condition at school, during a school-sponsored activity, and in transit to or from school. Parents/Guardians who request their student to self-administer medication must contact the school nurse or designee to ensure the proper information is received and processes are completed prior to permission to do so.

A student may not possess or administer marijuana or marijuana-infused products for medicinal purposes on District property or at District events. These products are prohibited under federal law.

The administration of CBD oil may only be for the treatment of epilepsy. Parents and/or guardians with a valid hemp extract registration card may possess CBD oil on District property in order to administer it to their student who is less than 18 years of age for the treatment of epilepsy.

Students 18 years of age or older who possess a valid hemp extract registration card may possess CBD oil on District property for the treatment of epilepsy. The student must take the CBD oil to the health office where it will be stored with other medications. The nursing staff or other trained personnel will administer the CBD oil to the student.

Student Allergy Prevention and Response

S-145-P

The District will ensure students with allergies are safe at school through planned prevention and response to a student's allergic reaction. For purposes of this policy, an allergic reaction occurs when the immune system overreacts to a typically harmless substance and such overreaction may be mild to life-threatening. This policy applies to all District locations, including nonacademic District-sponsored activities and transportation provided by the District. The Board authorizes the Superintendent or designee to develop and implement procedures to protect the health and well-being of students with significant allergies. The District will coordinate with the school health advisory council, local health authorities, and other appropriate entities to ensure efficient promulgation of accurate information and to ensure that existing school safety and environmental policies do not conflict.

Building-Wide and Classroom Approaches

The District will ask the person enrolling a student to provide information on any allergies the student may have. The school nurse may request written permission from the parent to communicate with the health care provider as needed. The District will annually train staff members on risk reduction strategies, symptom recognition, and response procedures. The District will also ensure the school nurse has an emergency kit available and accessible in all school buildings containing prefilled auto syringes of epinephrine and asthma-related medications as allowed by District rules. The District will provide age-appropriate education for all students, consistent with state learning standards, including potential causes of allergic reactions, information on avoiding allergens, symptoms of allergic reactions, and simple steps a student can take to keep classmates safe.

All processed foods, including food sold in vending machines, will be labeled with a complete list of ingredients on each individual package. Ingredient lists will be created for all food provided through the District's nutrition program, including before-and after-school programs, which are available upon request. This requirement will apply to items sold as part of concessions, fundraisers, and classroom activities. Cleaning protocols to remove allergens and avoid contamination of classroom surfaces and cafeteria tables, particularly at tables where students with food allergies will be eating, will be established. District employees are only allowed to use cleaning materials provided or approved by the District. All staff members must avoid using air fresheners, oils, candles, or other items that add fragrance to District facilities.

Individual Approaches

The District will evaluate and determine whether a student's allergies rise to the level of a disability that require accommodations through the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504). For those students who have allergies that do not rise to the level of disability, a designated team may develop an Individual Health Plan (IHP) and/or Emergency Action Plan (EAP). Staff who have a need to know

about a student's allergies and plan will be informed and trained, and all staff members will follow any IEP, 504 Plan, IHP, and/or EAP.

A student's health information and individualized plan will be kept confidential and shared with only those employees who have a need to know unless otherwise authorized by the parent/guardian or as allowed by the Family Educational Rights and Privacy Act (FERPA). The District will communicate and collaborate at least annually with parents/guardians regarding the student's allergies, medications, restrictions/precautions, emergency contacts and any other relevant information to keep the student safe.

The Board requires full implementation of the Missouri Comprehensive School Counseling Program. The District will follow and effectuate its standards. The counseling program aligns with the District's Comprehensive School Improvement Plan (CSIP) and student performance data. The counseling program will be implemented through certified school counselors.

The foundation for Individual Student Planning is established during the elementary school years through School Counseling Curriculum lesson activities such as career awareness. The District will establish an ISP process for students at every grade level.

Each student no later than 8th grade will develop with help from the school's counselors a personal plan of study or Individual Career & Academic Plan (ICAP), which will be reviewed regularly, as needed by school personnel and the student's parent/guardian and updated based on the needs of the student. The requirements of this policy and the District's counseling program will be waived for any student with a disability if recommended by the student's IEP committee.

1. Provide information and appropriate training to District staff who have significant contact with students regarding the policy.
2. Provide education and information to students regarding bullying, including information regarding the District's policy prohibiting bullying, the harmful effects of bullying, and applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability, and policy enforcement for those found to have engaged in bullying, cyberbullying, and/or retaliation against any person who reports an act of bullying.
3. Instruct school counselors, school and licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for overcoming bullying's negative effects. Student Alcohol and Drug Testing

S-196-P

The use of illegal drugs by students is a major problem facing the nation, and the District. The administration has noted and documented, both formally and informally, an increase in the use of drugs by students, including those students participating in extracurricular and co-curricular activities, student extracurricular organizations, and those students who have been issued parking passes and driving privileges.

Students who represent the District in extracurricular and co-curricular activities, performances, and student organizations are leaders in the school environment. Participation in these extracurricular and co-curricular Participation in these extracurricular activities/performances/organizations is a privilege, not a right, and it is essential that these student leaders uphold the highest possible standards of conduct as role models for the rest of the student body and as representatives of their school and community. It is paramount that students participating in these activities are able to do so safely and in a manner that will not endanger themselves or others.

It is also important to ensure that students with driving and parking privileges do not pose a safety risk to themselves or others in the school community.

A properly administered suspicionless, random, drug testing program for all students who represent the District in extracurricular and co-curricular activities, performances, organizations, and those students with driving and parking privileges will promote these goals and objectives.

To this end, it is the District's policy to have a suspicionless, random, drug testing program as part of an overall physical conditioning and educational program. The goal of the program is not to levy discipline, but rather to aid in the discovery and prevention of possible drug-related problems. The specific procedures associated with the program, the applicability of the program, and the requirements of the program will be approved annually by the Board and included in the Student/Parent Handbook.

A child who is not identified as eligible for special education services prior to reaching kindergarten age will be identified using disability categories excluding that of YCDD.in accordance with the Missouri State Plan.

When a student is evaluated for special education and the parents/guardians disagree with the results, they have a right to an independent evaluation by a qualified examiner not employed by the District. Administrative procedures will be established that define the required examiner qualifications, and permissible locations and costs. Parents requesting an independent evaluation should contact the Director of Special Education.

For students with disabilities who receive services as defined in an Individual Education Program (IEP), the IEP team must consider the need for Extended School Year (ESY) services as a provision of FAPE. The determination regarding the need for ESY will be based upon data regarding the student's need for services beyond the school year, including but not limited to, the nature and severity of the disability, learning crucial to the students IEP goals and objectives, the child's progress, behavioral and physical needs, documented or projected regression/recoupment, and other factors as identified by the state. If there is insufficient data at the time of the IEP meeting to determine whether ESY is appropriate, the IEP team will specify a time frame and the additional data collection methods necessary to make a decision at a future IEP meeting. If ESY is necessary for the provision of FAPE, the IEP team will identify the length, nature, and type of ESY services for the student.

Students may be evaluated, identified, and accommodated for disabilities by Section 504 of the Rehabilitation Act of 1973 and the American with Disabilities Act to ensure any student is provided FAPE, access to and participation in programs and activities.

The District has developed a 504 Procedures Manual for the implementation of federal regulations for Section 504 of the Rehabilitation Act, Subpart D.

The District anticipates the need for nonvisual accessibility and has procedures in place to reduce or eliminate common barriers experienced by blind or visually impaired students, parents, educators, administrators, and other staff in accordance with law.

Students eligible for services under the Individuals with Disabilities Education Act (IDEA) who will have completed four years of high school at the end of a school year may participate in the graduation ceremony and all related activities of the student's graduating class if:

1. The student's Individualized Education Program (IEP) prescribes special education, transition planning, transition services or related services beyond the student's four years of high school, and
2. The student's IEP team determines the student is making progress toward the completion of the IEP and that participation in the graduation ceremony is appropriate.

The student and the student's parent/guardian will be provided written notice of this policy at the annual IEP meeting prior to or during the student's fourth year of high school.

For information on recording IEP or 504 meetings, please refer to [C-165-P](#), Use of Recording Devices or Drones. For information regarding an initial referral, procedural safeguards, evaluation, or services, parents/guardians should contact the building principal. To obtain information regarding an independent evaluation, mediation, child complaints or appeal processes, please contact the Special Education Director.

Programs for Gifted Students**I-130-P**

To the extent possible, the District will provide monetary support for instruction for students identified as gifted in a manner that attains the standards for a state-approved program. However, for the 2024-2025 and all subsequent school years, if 3% or more of students enrolled are identified as gifted and their development requires programs or services beyond the level of those ordinarily provided, the District will establish a state-approved gifted program.

The District will develop procedures for the identification and selection of students for participation in any program for gifted students. Such procedures will be approved by the Board.

Parents and guardians of students may request a review of the District's decision determining their student did not qualify to receive services through the District's gifted education program by contacting the Coordinator of Gifted Education.

The Coordinator of Gifted Education will provide to the parents/guardians any results of any testing, assessment or evaluation of the student that led to the District's decision as well as information regarding the multi-criteria assessment methods for identification and placement.

The Coordinator of Gifted Education will arrange a conference with the parents/guardians to review this information.

The Coordinator of Gifted Education may share aggregate information with parents/guardians, such as how many students were considered for the program and how many were accepted. Specific information about other identifiable students will not be shared.

If, during this review process, the Coordinator of Gifted Education identifies any error in the identification and selection process that may have resulted in an incorrect eligibility and placement determination, the Coordinator of Gifted Education will arrange to have the student re-evaluated for eligibility and placement. Otherwise, the initial eligibility and placement decision will stand.

Program for Students who are Homeless, Migrant, English Learners, At-Risk or in Foster Care

I-140-P

The District is committed to the provision of a free and appropriate education for all students enrolled in the District. Therefore, the District complies with all provisions, regulations, and administrative rules applicable to state and/or federal requirements in order to serve students who are homeless, migrants, English Learners, at-risk, or in foster care.

The District liaison for students who are homeless, migrant, English learners or in foster care is:

Name:	Dr. Karla Spear
Phone #:	573-347-2351
Email Address:	kspear@cspringsr4.org

Homeless Students

The District will ensure that each child of a homeless individual and each homeless youth has equal access to the same free, appropriate public education, including a public preschool education, as provided to other children and youths. The District will not stigmatize or segregate students based on their status as homeless. The District will, through its homeless liaison, identify and assess the educational needs of homeless children and youths including removal of barriers to homeless students' education. The District will provide transportation, at the request of the parent or guardian (or in the case of an unaccompanied youth, the District's liaison), to and from the school of origin.

Homeless students are those lacking a fixed, regular, and adequate nighttime residence. This includes:

- Children and youths sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
- Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and
- Migratory children who qualify as homeless because the children are living in circumstances described above.

Immediately upon identifying a student as homeless, the District will ensure the student is receiving homeless services, comparable to the services offered to other students of the District.

Dispute Resolution Process–Homeless Students

If a dispute arises over eligibility, or school selection or enrollment in a school, the student will be immediately enrolled in the school in which enrollment is sought, pending final resolution of the dispute, including all available appeals. Enrollment is limited to the school of origin or the local attendance area school where the student is actually living. These students will be provided services comparable to services offered to other students in the school selected including transportation services at the request of the parent, guardian, or the liaison for unaccompanied youth.

When a parent/guardian or unaccompanied homeless youth notifies the District's homeless liaison in writing of their complaint, the homeless liaison serves as the intermediary between the parent/guardian or unaccompanied homeless youth and the school where the child is seeking enrollment. The parent/guardian or unaccompanied homeless youth shall receive a copy of or access to the District's policies addressing the education of homeless children and youths from the District. The District's homeless liaison will provide a written resolution of the dispute or a plan of action within five (5) days of the date the written complaint was received. If the dispute is not resolved with the District's homeless liaison, the parent/guardian or unaccompanied homeless youth may file a complaint in writing to the Superintendent or designee for further review. The District's Superintendent or designee will provide a written resolution of the dispute or a plan of action within five (5) days of the date the written complaint was received by the Superintendent or designee. If the dispute is not resolved at the Superintendent/designee level, the parent/guardian or unaccompanied homeless youth may file the written complaint before the District's Board of Education for resolution. The District's Board of Education will provide a written resolution of the dispute or a plan of action within thirty days of the date the written complaint was received by the Board.

At-Risk Students

The District will identify students in their ninth grade year, or students who transfer into the District after their ninth grade year, who are at risk of not being ready for college-level work or for entry-level career positions. The District will include, but not limited to, the following sources of information:

- A student's performance on the Missouri assessment program test in eighth grade in English language arts and mathematics;
- A student's comparable statewide assessment performance if such student transferred from another state;
- The District's overall reported remediation rate under [Section 173.750, RSMo](#);
- A student's attendance rate; and
- Any other information the District deems relevant.

The District will provide academic and career counseling to at-risk students prior to graduation so that the District may attempt to provide sufficient opportunities to these students to graduate college-ready or career-ready and on time.

The District may waive the requirements of this section for any student with a disability if recommended by the student's IEP committee.

Virtual Courses

I-160-P

Students residing within the District who are under the age of 21 and in grades Kindergarten through twelve may be eligible to enroll in the Missouri Course Access Program (MOCAP) and other virtual courses at no expense.

Full-Time Virtual Enrollment Process

1. The Department of Elementary and Secondary Education will adopt a policy establishing the process by which an eligible student may enroll in a full-time virtual program of their choice. Starting August 28, 2022, student and parents will direct their requests for full-time enrollment to the virtual provider.

Part-Time Virtual Enrollment Process

1. Prior to enrolling in MOCAP, the student must be enrolled full-time in a public school and reside in Missouri
2. The enrollment process will be substantially similar to the District's current enrollment process for other than virtual courses.
3. The District's designee must approve a student's request to enroll prior to the student's enrollment in a MOCAP course.
4. Students who transfer into the District while enrolled in a MOCAP course or program will continue to be enrolled in the course or program upon enrollment in the District.
5. Transfer students who have previously gained credits through successful passage of approved courses under MOCAP shall be accepted by the District.

Approval

1. The District will approve an enrollment request as long as the student meets the eligibility requirements and enrollment in the requested course or program is the in student's best educational interest. The decision will be consistent with the determination that would have been made for such course request under the process the District student would enroll in a similar course offered by the District. However, such determination may consider the student's prior participation in virtual courses.
2. Parents, counselors and others may be consulted to determine whether MOCAP or other virtual courses serve a student's best educational interest.
 - The "best educational interest" determination will be made on a case-by-case basis and will include facts and circumstances regarding an individual student's situation.
 - Available opportunities for in-person instruction will be considered prior to moving a student to virtual courses.
3. In general, students with disabilities may enroll in MOCAP and other virtual courses using the same process applicable to other students. However, for students with disabilities served under the provisions of Individuals with Disabilities Education Act (IDEA) or the Rehabilitation Act of 1973, Section 504 (504), the student's individual education program (IEP) or 504 team must

consider whether virtual courses or virtual school would serve the student's best educational interest, and if so, whether supports and services or accommodations are necessary in order for the student to participate.

4. Enrollment in MOCAP courses will not exceed full-time enrollment in the District.
5. Information regarding MOCAP and District-sponsored virtual courses will be included in Parent/Student Handbooks, student registration materials, and on the District's website.

Denial, Appeal, Removal

1. Refusal to grant approval for a student to enroll in MOCAP courses will be for good cause and a determination that it is not in the student's best educational interest.
2. Appeals of course denials will be handled in the same manner as denials for students seeking to enroll in courses offered by the District.
3. If a student is approved to enroll in a virtual course or program, the District will monitor a student's progress. If the course is not meeting the educational needs of the student enrolled in the course, the District may remove the student from the course. Recommendations from the course provider and/or DESE regarding the student's continued enrollment in the program will be considered before a student is removed.

In some instances, it may be determined that retention in a grade or subject area serves a student's best educational interest. In other instances, it may be determined that acceleration in a grade or subject area serves a student's best educational interest when a student demonstrates advanced performance or potential for advanced performance and social and emotional readiness for acceleration. Retention, unless otherwise required by law, or acceleration are exceptions that will be reviewed on a case-by-case basis. Retention or acceleration shall occur only after communication with the family throughout the course of the year regarding the student's progress including any interventions or enrichment opportunities that have been implemented, and after multiple data points have been considered, including social/emotional factors. The District may provide and require tutoring outside the school day or summer school as a condition of promotion. The District recognizes that different students learn differently and will employ methods designed to help these students achieve at high levels.
