Attendance and Absence Procedures S-115-S

Expectations for Attendance

Attendance is essential for learning. By law, all children must attend school from the age of 7 until the age of 17. Parents/guardians are accountable for the attendance of their child. The District will inform parents/guardians of their student's absence and support families when attendance becomes a concern. It is the responsibility of the student to make up work due to an absence.

Students will not be allowed to participate in any extra-curricular activities on the date of their absence without prior approval of the principal to be absent. (A student must be in school for $\frac{1}{2}$ of a day in order to be eligible to participate in any extra-curricular activities on that date, unless prior approval has been obtained.) The administration makes the final determination regarding whether an absence is excused or unexcused.

Procedures for Reporting an Absence

Parents must report a student's absence by 8:00 a.m. on the day of the absence. The school will contact parents who do not report a student's absence by the designated time if the absence cannot be verified otherwise. When a student is released early from school to a parent or guardian, it constitutes an absence. In general, prior notification is required when a student is dismissed early and the student must be checked out through the office.

If you know ahead of time your child will be absent, please contact the school AND your child should communicate with his/her teachers so preparations can be made for homework.

The District will contact the Children's Division (CD) of the Department of Social Services or the local Juvenile Officer will be informed in cases where the district has a reasonable suspicion that a student's lack of attendance constitutes educational neglect on the part of the parents/guardians or that parents/guardians are in violation of the compulsory attendance law.

Excused Absences

Parents or students must provide proper notification to the school showing the absence was unavoidable for an absence to be excused. Once the student has excessive absences as described later in this section, documentation will be required. It is the responsibility of the student to make up work with teacher support when a student's absence is excused.

The administration may request documentation to determine whether an absence is excused. Excused absences are allowed for:

- Illness of the student
- Medical appointments that cannot be scheduled outside the school day
- Serious illness or death of a family member
- Religious observances
- School-sponsored activities (e.g., field trips, athletics, competitions, etc.)

- Court appearances or other legal situations beyond the control of the family
- Emergency situations as approved by the principal
- Visits from a parent or guardian on active military duty who is on leave from, will be immediately deployed, or immediately returned with notification and approval of the principal
- Suspensions
- Work at home if the student does not have excessive absences as defined in this section
- An absence which has been requested and approved in advance by the principal due to exceptional circumstances. In these situations, make-up work should be requested in advance of the absence and any tests, projects, or in-class assignments will be made up at the direction of the teacher.
- College visits

Unexcused Absences

Absence for reasons other than the categories of excusable reasons, or that does not have the proper documentation for an excused absence as determined by the principal, will be considered unexcused. Excessive, unexcused absences will result in written notice from the principal to the parents/guardians. The principal may request a parent/guardian conference to discuss attendance concerns and a collaborative plan may be developed to remove barriers to attendance. When attendance remains problematic, the school may contact the appropriate agencies and/or authorities for assistance.

Homework Collection Sheets

- A. Must be obtained from the office prior to being absent. This will include the list of homework assigned when the student will be gone.

Late Arrival/Tardiness

A late arrival or tardy occurs when a student arrives after the expected class period has begun, as determined by the District.

- Students are expected to sign in with one of the school secretaries when they arrive late to school.

Truancy

Truancy is when the student is absent from school without permission of the parents/guardians or school official. Truancy includes, but is not limited to, skipped classes, falsely informing the school about the reason(s) for the absence, or absences that have not been pre-arranged and pre-approved as excused. The District may assign disciplinary measures for truancy.

Truants must be accompanied by a parent/guardian who shall make personal application to the principal and superintendent for re-admission of the truant.

Excessive Absences (10 or more) Absences are by class period.

- A. After 10 absences (excused or unexcused), a doctor's note is required or the parent must consult with the administration for any and all absences exceeding 10. If it is determined the absences have become excessive the student will make up $\frac{1}{2}$ the time missed before or after school. The local Juvenile Officer may be informed and a hotline call made when deemed necessary.
- B. A review board composed of the High School Principal and teachers may be convened to determine whether an exception to the rule should be made.
- C. Reviewing board's decision shall be submitted in writing.
- D. All teachers shall comply with the decision.
- E. After 10 absences, work made up for unexcused absences will be for 50% credit.

Absences - partial period attendance will be determined by the amount of time left in the period. Student will be considered absent for a whole period if their absence exceeds more than half of the period time. They will not be considered absent from that period if their absence is less than half of the period time.

- Students are expected to sign out with one of the school secretaries when they leave school early as well as sign in upon their return.
- If falsified absence information is found, written or oral excuses from parents/guardians will be required from that time on.

Make- Up Work

The timelines for turning in make-up work for prearranged absences will be determined by the teacher.

Upon returning to school after a period of absence that was not preplanned, students are expected to make up work missed.

A. Excused Absences

- (a). Students will have 1 attending school day for every day missing from school to make up work.
 - 1. Example: If a person is ill for two days, they would have until class starts on the third day back at school to turn in work missed with no penalty.
- (b). An assignment not completed by the allotted time will be considered late and the student will therefore receive 70% credit of the assigned score and follow the late work policy guidelines included in this handbook.

B. Unexcused Absences

- (a) Students will be given 50% credit for work made up during the period of absence.
- (b) Assignments that were to be turned in the day of the unexcused absence will therefore be considered late and the student will receive 50% credit of the graded score.

Dress Code S-180-S

The purpose of a dress code is to contribute to a safe, healthy environment that protects students and maintains a focus on learning. The dress code included in this handbook provides guidance to students and parents as to what constitutes appropriate attire for school and school activities. District administrators have the discretion to determine whether a garment or manner of dress not specifically described below is appropriate attire for school and school activities and/or causes a disruption to the educational environment. Administrators have the authority to take action to address dress code matters as they arise. The following District guidelines should be observed:

Dress Code Expectations and Prohibitions

Shirts and shoes must be worn. Clothing should be properly fitted (not overly restrictive or loose). Coverage of the body is expected. Therefore, the following garments are not permitted unless exception has been made for school spirit days

1. See-through garments;
2. Tops that are backless, strapless, low-cut, bare-midriff, have overly-large arm openings; or spaghetti straps;
3. Clothing that does not cover undergarments when a student is sitting or standing;
4. Undergarments worn as outer wear;
5. Clothing with profane, obscene, or otherwise inappropriate language;
6. Clothing with words, symbols or images that promote illegal, sexual, or violent behavior;
7. Clothing with advertisements or promotion of alcohol, tobacco, or drugs;
8. Language or symbols that promote gangs;
9. Hats and hoods (hooded sweatshirts worn up);
10. Handkerchiefs;
11. Sunglasses;
12. Face paint;
13. Costumes, including ears and tails;
14. Overly-dramatic make-up;
15. Other wear that restricts the line of sight of a student's face and/or facial recognition may not be worn (although exceptions will be made by the principal for head coverings that have religious significance, are worn for medical reasons, or are for a specific, school-sponsored event)

16. Heavy or loose chains, or straps that create a safety risk.
17. When, in the judgement of the principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

Additional Dress Code Information

Courses and/or class activities that require observance of specific safety requirements may require adjustments of a student's clothing, accessories, or hair style for the duration of the class (e.g., hair pulled back and/or hair nets for culinary classes or other safety wear, etc.). Other dress code requirements may be articulated for students participating in certain extracurricular activities.

Violations of the District dress code will be addressed with remedial actions and/or consequences.

Allergy Prevention and Response S-145-S

The District is required to ensure students with allergies are safe at school through planned prevention and response to a student's allergic reaction. For purposes of District policy and related procedures, an allergic reaction occurs when the immune system overreacts to a typically harmless substance and may be mild to life-threatening. Allergy prevention and response protocols apply to all school locations, including nonacademic, school-sponsored activities and transportation provided by the District. The Board authorizes the Superintendent or designee to develop and implement procedures to protect the health and well-being of students with significant allergies.

Building-Wide and Classroom Approaches

Parents/guardians should provide, at the time of enrollment, information on any allergies the student may have. The school nurse may request written permission from the parents/guardians to communicate with a student's health care provider as needed. Staff members are trained annually on risk reduction strategies, symptom recognition, and response procedures. The school nurse has an emergency kit available and accessible in all school buildings containing prefilled auto syringes of epinephrine, Narcan, and asthma-related medications as allowed by District rules. If you do not want these medications administered to your student in an emergency, please notify the school nurse in writing.

The District will provide age-appropriate education for students, consistent with state learning standards, including potential causes of allergic reactions, information on avoiding allergens, symptoms of allergic reactions, and simple steps a student can take to keep classmates safe.

All processed foods, including food sold in vending machines, are labeled with a complete list of ingredients on each individual package. Ingredient lists will be created for all food provided through the District's nutrition program, including

before- and after-school programs, which are available upon request. This also applies to items sold as part of concessions, fundraisers, and classroom activities.

Individual Approaches

The District will evaluate and determine whether a student's allergies rise to the level of a disability that requires accommodations through the provisions of an Individual Education Plan (IEP) or Section 504 Plan (504). For those students who have allergies that do not rise to the level of disability, a designated team may develop an Individual Health Plan (IHP) and/or Emergency Action Plan (EAP). Staff who have a need to know about a student's allergies and plan will be informed and trained, and all staff members will follow any IEP, 504 Plan, IHP, and/or EAP.

A student's health information and individualized plan will be kept confidential and not shared with those who do not have a need to know unless authorized by the parent/guardian or as allowed by the Family Educational Rights and Privacy Act (FERPA). The District will communicate and collaborate at least annually with parents/guardians regarding the student's allergies, medications, restrictions/precautions, emergency contacts and any other relevant information to keep the student safe.

Health Services S-215-S

Health services are provided under the direction of a school nurse. The school nurse for your student's building may provide services in other buildings as well. Although the nurse may be not physically present at all times in a specific building, the nurse is always on call and there are trained employees in the building to provide first aid, dispense medication, and support the needs presented in the health office.

Illnesses/Injuries

Minor illness/injury

- (a.) Student shall obtain permission of classroom teacher to go to nurses' office
- (b.) Nurse/nurse designee shall examine and decide to:
 - a. Administer medical care and send back to class
 - i. Parental consent for treatment must be on file
 - b. Send home
 - i. notify parent/guardian
 - 1. student will not be sent home without parental consent
 - ii. notify principal's office

Parent/guardian notified at the earliest opportunity and are responsible for any medical bills.

Health Screenings

The school nurse does health screenings such as height, weight, vision, and hearing.

Health Office

If you have any questions, please contact the school nurse.

Administration of Medication S-135-S

All medication is kept in the health office and no medication will be dispensed without written parental permission, including over-the-counter medication. Many medications can be given at home before or after school. When this is not possible, medication should be brought directly to the health office by the parent/guardian and must be in the original packaging accompanied by the following information:

Non-Prescription Medication – A written note from the parent/guardian with the student's name, reason for the medication, the time the medication is to be given, the dosage prescribed, dosage route, any possible adverse reactions, and the number of days the medication is to be administered at school. These medications include, but are not limited to, allergy medication, decongestants, cough syrup, ibuprofen (Advil), acetaminophen (Tylenol), cough drops, or others.

Prescription Medication – Prescription medication must be sent to school in the original prescription container. The prescription label will serve as the written permission from the physician. If the doctor has given samples of medication, then a written note from the physician is necessary and should include the name of the student, the medication, the dosage prescribed, frequency of administration, route of administration, prescriber's name, any adverse effects, and any applicable emergency instructions. The nurse may need to clarify prescription orders with the provider.

The District will not administer the first dose of any medication. Written permission must be obtained from the parent/guardian at least annually.

Unused, discontinued or outdated student medications shall be returned or destroyed. All medications shall be returned/destroyed at the end of the school year.

When a student has a health condition which needs accommodation or may necessitate emergency care, it is important that the school nurse be informed. Examples of a health condition that would need to be shared with the school nurse include severe allergies, asthma, diabetes, hearing loss, seizure disorder, etc. This would include situations when a physician recommends a student assume responsibility for self-medication. The nurse may request a release of information from the student's health care provider and the information may be shared with necessary District staff members on a need-to-know basis. Please contact the school nurse.

Communicable Diseases F-245-S

Parents/guardians must notify the District if their student has a communicable disease. Parents/guardians will be required to provide written approval from the student's treating physician in order for their student to attend school. The District reserves the right to prevent student attendance until clarification or implementation of precautionary measures are in place. Parents/guardians are required to notify the District if they are enrolling or have a student attending school who is HIV positive.

Medical information of students is highly confidential, and the District will take necessary steps to protect the medical information of students and ensure that such information is released only to those with a need-to-know and/or individuals and entities who are required by law to be notified of certain health and medical information.

Students with a communicable disease who exhibit behaviors that increase the chances of their condition being spread to other individuals, may be subject to discipline and/or remedial action in accordance with the discipline code, and state and federal law.

Immunizations and Vaccinations

It is unlawful for any student to attend school unless the student has been immunized according to Missouri School Immunization Law or unless a signed statement of medical or religious exemption is on file at the school, which is described in all enrollment information. Parents/guardians should bring immunization records at the time of enrollment and obtain additional immunizations as required by state law.

Student Insurance S-140-S

The District recommends student accident insurance for the protection of a student and parents/guardians. It is the responsibility of the parents/guardians to arrange insurance coverage as the District does not assume financial responsibility for student injuries.

Students participating in interscholastic athletics are required to have insurance coverage. This may be in the form of either family coverage or the coverage offered through the District. Missouri State High School Activities Association (MSHSAA), requires that a student be covered through insurance before being allowed to practice or compete for a school team. The student will not be allowed to participate in interscholastic practices or competitions until proof of insurance is provided.

The District also provides information about MO HealthNet for Kids (MHK), Missouri's Medicaid program, to qualifying families who enroll students in the District. Parents who complete an application for free and reduced-priced meals (FRL), and who indicate on the application form a child does not have insurance, will be notified by the District that the MHK program is available. Forms for MHK may be accessed at: <https://dssmanuals.mo.gov/wp-content/uploads/2020/09/IM-1SSL-Fillable-Secured-6-24-21.pdf>.

Student Records S-125-S

Access to and Release of Student Information

All parents/guardians may inspect and review their student's education records, seek amendments, consent to disclosures except to the extent the law authorizes disclosure without consent, and file complaints regarding the records as allowed by law. Requests to inspect or review education records may be directed to the building principals. Requests to amend education records may be directed to the building principal to obtain the proper form. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

The parents'/guardians' rights relating to the education records transfer to the student once the student becomes an eligible student; however, parents/guardians maintain some rights to inspect student records even after a student turns 18. The District allows access to records to either parent, regardless of divorce, custody or visitation rights, unless the District is provided with legal documents that the parent's rights to inspect records have been modified.

Directory Information

Directory information is information about a student that generally is not considered harmful or an invasion of privacy if disclosed without the consent of a parent or eligible student. The District will designate the types of information included in directory information and may release this information without obtaining consent from a parent or eligible student unless a parent or eligible student notifies the District in writing. Parents and eligible students will be notified annually of the information the District has designated as directory information and the process for notifying the District if they do not want the information released. Even if parents or eligible students notify the District in writing that they do not want directory information disclosed, the District may still disclose the information if required or allowed by law. For example, the District may require students to disclose their names, District email addresses in classes in which they are enrolled, or students may be required to wear or display a student identification card that exhibits information designated as directory information. If you do not want the District to disclose any or all of the types of information designated below as directory information from your child's education records without your prior written consent (with exception of disclosures required by law), you must notify the District in writing by September 1st of each school year.

The District designates the following items as directory information:

General Directory Information: The following personally identifiable information about a student may be disclosed by the District without first obtaining written consent from a parent or eligible student: Student's name; date and place of birth; parents' names; grade level; enrollment status (e.g., full-time or part-time); participation in District-sponsored or District-recognized activities

and sports; weight and height of members of athletic teams; athletic performance data; dates of attendance; degrees, honors and awards received; artwork or course work displayed by the District; schools or school Districts previously attended; and photographs, videotapes, digital images and recorded sound unless such records would be considered harmful or an invasion of privacy.

Limited Directory Information: In addition to general directory information, a student's address, telephone number and email address; and the parents' addresses, telephone numbers and email addresses may be disclosed to: school officials with a legitimate educational interest; parent groups or booster clubs that are recognized by the Board and are created solely to work with the District, its staff, students and parents and to raise funds for District activities; governmental entities including, but not limited to, law enforcement, the juvenile office and the Children's Division (CD) of the Department of Social Services.

School Officials with a Legitimate Educational Interest

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests.

A school official includes a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a Board Member. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks.

A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Release of Records to Other Agencies or Institutions

The District forwards education records to officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements under the law.

Military and Higher Education Access

The District will disclose the names, addresses and telephone numbers of secondary school students to military recruiters or institutions of higher education as required by law. However, if a parent or a secondary school student who is at least 18 submits a written request, the District will not release the information without first obtaining written consent from the parent of the student/eligible student.

Release

Parents or guardians may designate additional adult(s) to have access to their student's records by requesting a Family Educational Rights and Privacy Act (FERPA) release form from the front office.

Notice

Parents/Guardians and/or eligible students have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Student Discipline S-170-S

Student Code of Conduct

The District believes students deserve the right to participate and learn in a safe environment which allows teachers to focus on instruction that accelerates achievement. To ensure that school is a quality atmosphere for all students at all times, the code of conduct and discipline policies outline consequences for misconduct that occurs at school, during a school activity whether on- or off-campus, on District transportation, or misconduct that involves the use of District technology. All District personnel are responsible to supervise and hold students accountable for violations of discipline rules.

Failure to obey standards of conduct may result in, yet is not limited to, verbal warning, community service, confiscation of property, principal/student conference, parent contact, loss of credit, grade reduction, course failure, removal from extracurricular activities, revocation of privileges including transportation, parking and technology privileges, detention, in- or out-of-school suspension, expulsion, and report to law enforcement. For offenses involving academic integrity, the student may also be subject to a loss of credit for work, a grade reduction, and/or course failure. The Board authorizes the immediate removal of a student who poses a threat to self or others as determined by the principal, Superintendent, or the Board.

Any student who is suspended for any serious violation of the District's Student Discipline policy shall not be allowed while suspended to be within 1,000 feet of any school property or any activity of the District, regardless of where the activity takes place, unless:

1. Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the Superintendent or the Superintendent's designee has authorized the student to be on school property;
2. Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the Superintendent or the Superintendent's designee has authorized the student to be on school property;
3. Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the District where such student attended school; or
4. Such student resides within one thousand feet of any public school in the District where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

If a student engages in an act of violence, a school administrator will report the information to teachers and other District employees who are responsible for the student's education or otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. Additionally, school administrators will report to the appropriate law enforcement agencies any crimes as required by law.

Corporal punishment is strictly prohibited as a method of discipline. Reasonable force may be used, when necessary, for the protection of a student or others and property. The District limits the use of seclusion or restraint to situations or conditions in which there is imminent danger of physical harm to self or others.

Students with disabilities will be disciplined in compliance with state and federal laws per the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Plan, and any regulations and state and local compliance plans, which includes due process rights as afforded to all students. Additionally, a student's Individual Education Plan

(IEP), including any portion that is related to past or potentially future violent behavior, will be provided to appropriate staff members with a need to know.

Information regarding a student's misconduct and discipline is confidential and only shared with those who have a need to know. Teachers and other authorized District personnel shall not be civilly liable when acting in conformity with District policies, including the discipline policy, or when reporting acts of school violence to a supervisor or other person as mandated by law.

The District discipline policy and procedures will be provided to every student at the beginning of each year, be published on the District website, and made available in the office of the Superintendent during normal business hours.

This code applies to all misbehavior committed by a student on District property, at any school-sponsored activity or event whether on- or off-campus, and District transportation. Additionally, the District may use its authority to address behavior that occurs off-campus if it interferes with the operation of the school or endangers the safety of students or staff.

Standards of Conduct and Consequences

No document can identify every possible offense that could potentially result in disciplinary action. This code identifies most offenses constituting a failure to obey the standards of conduct set by the Board. However, when circumstances warrant, the principal, Superintendent, and/or Board may impose consequences for misconduct not specifically outlined in this document.

Anti-bullying Coordinator – The Superintendent will ensure an individual at each school is designated to serve as the anti-bullying coordinator. All anti-bullying coordinators will be teacher-level or above and a list of coordinators will be kept on file at the District administration office and updated annually. Additionally, a District anti-bullying coordinator will be designated. The building anti-bullying coordinator is: the Building Principal and can be reached at 660-944-2316.

School Day – A day on the District calendar when students are required to attend school.

Reporting Bullying or Cyberbullying

District employees are required to report any instance of bullying of which the employee has firsthand knowledge. Any employee, substitute, or volunteer who witnesses an incident of bullying must report the incident to the building anti-bullying coordinator within two (2) school days of witnessing the incident. If the anti-bullying coordinator is unavailable or is the subject of the report, the employee should contact the District's Compliance Officer. In addition, all District employees, substitutes, or volunteers must direct all persons seeking to report an incident of bullying to the building anti-bullying coordinator.

Any individual making a verbal report of bullying will be asked to submit a written complaint to the anti-bullying coordinator. If the person refuses or is unable to submit a

written complaint, the anti-bullying coordinator will summarize the verbal complaint in writing.

When an anti-bullying coordinator is informed about a possible bullying or cyberbullying incident, verbal, written, or otherwise, the District will conduct a prompt, impartial, and thorough investigation to determine whether misconduct, including unlawful conduct, occurred. The District will implement interim measures as necessary. When it is determined that bullying or cyberbullying occurred, the District will take appropriate action for violations of District expectations and rules.

Investigation

Within two (2) school days of receipt of a report of bullying or cyberbullying, the anti-bullying coordinator or designee will initiate an investigation of the incident. The school principal may appoint other school staff to assist with the investigation. The investigation will be completed within ten (10) school days from the date of the written report unless good cause exists to extend the investigation. Complaints or Concerns C-120-S

Effective communication helps avoid and resolve many complaints, concerns, misunderstandings and disagreements. Individuals who have a complaint or concern should discuss their concerns with the school personnel involved in the issue at hand in an effort to resolve problems. This step will usually involve communicating directly with the person or persons with whom the complainant has a concern. This step may be skipped when the complainant in good faith believes that speaking directly to the person would subject the complainant to discrimination, harassment or retaliation.

This step may also be skipped if the complainant in good faith believes that any law or a District policy or written rule has been violated. The District has adopted specific procedures for investigation and resolution for complaints or concerns as required by specific and varying laws that are applicable to the District. The District's Compliance Officer should be contacted with any complaints or concerns that any law or District written rule has been violated, including but not limited to, laws relating to: civil rights,

including discrimination, harassment, and retaliation; special education matters including the IEP and 504 processes and services; federal programs and related services; bullying; and The Family Educational Rights and Privacy Act, including student records and confidentiality.

When communicating directly with the school personnel involved in the issue does not resolve matters satisfactorily, or if it is appropriate to skip the first step as described above, a complainant should consult with the District's Compliance Officer who will direct the complainant to the appropriate process for resolution of the complaint. The District designates the following individual to act as the District's Compliance Officer:

Name: Dallas Giedd
Phone #: 660-944-2316
Email Address: dgiedd@jc123.k12.mo.us

In the event the District's Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Name: Tyler Pedersen
Phone #: 660-944-2316
Email Address: tpedersen@jc123.k12.mo.us

All complaints of violation of any law or a District policy or written rule will be promptly investigated by the District, and appropriate action will be taken. Complainants are strongly encouraged to provide their concerns in writing.

Vocational/Technical Education

Vocational School is available to Juniors and Seniors with approval of administration. Although students enrolled in VoTech may earn embedded science and math credits, students are required to take 3 years of science and math at Jefferson for the purpose of meeting graduation requirements. If a student's Individual Career and Academic Plan (ICAP) indicates a need for the use of embedded credits, eligibility will be evaluated on a case-by-case basis. If a student is withdrawn from the program—whether due to disciplinary action, failure to maintain a minimum 2.0 GPA, poor attendance, or voluntary departure—the student will be placed in classes back in the District. However, depending on when this happens in the semester, the student may not be able to earn full credits for those District classes.

Participation in this program is considered an extension of the Jefferson C-123 School District classroom. As such, students are expected to adhere to all school policies and behavioral expectations. Disciplinary actions, including possible removal from the program, will be determined at the discretion of both the Jefferson C-123 and Northwest Technical School administrations.

The district may require students to learn at home through alternative methods of instruction due to extenuating circumstances that require the school to close for a period of time.

The student learning will likely involve various forms of teaching that could range from delivered hands-on materials to completing assignments via school provided technology devices.

Students will be responsible for completing assigned school work and may be held to the same standards as when instruction takes place in school.

Missouri State High School Activities Association (MSHSAA) Activities

The District complies with all MSHSAA guidelines. The most up-to-date version of the MSHSAA handbook is located at www.mshsaa.org.

Eligibility Requirements

See grade check information in the Extracurricular Activities and Club section below.

Activities and Athletics Participation Citizenship Guidelines

The Jefferson C-123 School District offers many extra-curricular activities. These activities are designed to supplement the student's educational process and assist in the development of the attributes of good citizenship by the participants. Since participation in these activities is a privilege, students must meet certain academic standards, demonstrate acceptable citizenship and behavior, and maintain appropriate attendance in order to be eligible to participate. Unless special arrangements have been made with the principal, a student is required to attend half of the school day on the day of an activity in order to participate.

Eligibility requirements for participation in JHS Activities or Athletics

In order to participate in a JHS school activity governed by the Missouri High School Activities Association, a student must be currently enrolled in courses that offer three units of credit, and must have earned three units of credit the preceding semester of attendance. No more than one credit earned in summer school shall count toward maintaining academic eligibility. In addition, a student must meet the academic requirements as set forth by the Jefferson C-123 district. The student must also meet all eligibility requirements as set forth by the Missouri High School Activities Association.

Competitive Participation

Interscholastic participation in the activities sanctioned by MSHSAA for the Jefferson school district is competitive. Participation is open to everyone but the amount of participation is by no means guaranteed to be equal. Evaluation procedures by coaches will determine how much an individual gets to participate.

Citizenship Guidelines for Extra-curricular Activity Participation

Any student who represents his/her school in activities must be a credible citizen and be judged so by both the proper school authority certifying the list of students for participation and the MSHSAA. Students should remember to conduct themselves in such a manner as to reflect positively upon themselves, family, school and community. The students conduct should be satisfactory in accordance with the standards of good discipline. Besides the possibility of losing eligibility for inappropriate behavior, students involved in JHS activities are subject to the disciplinary consequences listed in the Student Handbook.

It is understood that the sponsor, principal, parents, and school handle citizenship eligibility cases on an individual basis. System wide guidelines are used in attempting a uniform handling of these cases.

Each student is responsible to notify the school of any and all situations that would affect his/her eligibility under MSHSAA guidelines. If the student does not notify the school of the situation prior to the school's discovery, then the student shall be ineligible for up to 365 days from discovery, pending review by the MSHSAA Board of Directors. A student must be in attendance for 1/2 of the school day in order to participate in extra-curricular activities unless prior arrangements have been approved. If a student has an unexcused absence they will not be eligible to participate on that day or any subsequent day until an entire day of school has been attended.

Consequences

1. **Students under Arrest:** If a student is arrested for a misdemeanor or a felony, the student will be ineligible until the case has been resolved. If the student is assigned any restitution as a result of the court case, all restitution must be fulfilled before the student will be allowed to participate. Parents and students will be informed of any problem through a meeting with the sponsor, principal or superintendent, if the circumstances warrant. Decisions will be made jointly by the administration and activity sponsor. Penalties for violations are:

2. **Use or Possession of Alcohol or Tobacco:** Students shall not use alcohol or tobacco. If a student violates this regulation, his/her violation will be reviewed by the sponsor and the administration. Following the review, the student and his/her parent/guardian will be notified of the decision and subject to the following:

A First Offense - restriction from participation in activity or sport for two games.

B Second Offense - restriction from participation in activity or sport for the rest of the season or a significant period of time and restrictions may be extended into the following season/school year.

3. **Use or Possession of non-prescribed drugs or controlled substances:**

A First Offense - Restriction from participation in activity or sport for the rest of the season or a significant period of time and restrictions may be extended into the following season/school year.

B Second Offense -Possible restriction from participation in activity or sport for the remainder of the student's high school eligibility period.

4. **Students involved in misconduct while at school:** After a review by the sponsor and administration, the student will be notified of the results. Students assigned an out-of-school or in-school suspension will be ineligible to participate during the suspension. The sponsor of the activity may assign students an additional punishment.

5. **Unsportsmanlike acts by participants:** Such as during a contest, which results in ejection, will cause the participant to be restricted from representing the school for at least the next contest. A participant who commits such an act but is not ejected may still be subject to at least a one game restriction. Each case of this type will be reviewed by the sponsor, athletic director and principal before a final decision is made.

6. **Due Process:** Students will have an opportunity to express their side of any incident in which they may be involved. Parents and other appropriate representatives may be involved with students during the due process hearings. If the student is dissatisfied with any decisions, he/she has the right to appeal through the following channels:

- A. superintendent
- B. school board

7. Any incidents which occur that are not covered by these guidelines will be reviewed on an individual basis and decisions related to penalties will be made jointly by the sponsor and administration.

Out-of-Town Trips

Students are expected to accompany the group on all out-of-town trips using the mode of transportation arranged for by the school. Any deviation from this policy requires the following:

- 1. A request by the parent/guardian must be made personally and in advance and approved by the sponsor.
- 2. Under emergency conditions, the sponsor in charge of the group will use his/her best judgment in approving any requests.
- 3. If there is any doubt about the circumstances surrounding such a case, the student is to remain with the group.

Requests of this nature should be rare and discouraged. Groups should go and return as a group. Misconduct on out-of-town trips will result in disciplinary measures being taken. If a student does not return with the group a parent or guardian must sign the student out with the sponsor.

Parent Communication with Coaching Staff

Parents are encouraged to communicate with their student's coaches. If requesting a visit, please call the office or the coach ahead of time to set up an appointment. If calling the coach at home, please call before 8:00 p.m.

District Sponsored Extra-curricular Activities and Clubs I-210-S

Extracurricular activities sponsored by the District are part of the educational experience and opportunities for students. Clubs, sports, and other groups seek a diverse range of students and provide fair access under the law. Students are encouraged to identify activities matched to their interests and ability levels and participate in those activities. Participation in extracurricular activities is voluntary and a privilege. Therefore, students must meet certain academic standards, demonstrate acceptable citizenship and behavior, and maintain appropriate attendance in order to be eligible to participate. Unless special arrangements have been made with the principal, a student is required to attend school on the day of an activity in order to participate. All extracurricular activities are supervised by District employees and the expected code of conduct for students remains the same as during the standard school day. Additional guidelines for specific groups, including activities sanctioned by the Missouri State High School Activities Association (MSHSAA), may be outlined at the beginning of the year and/or season. Competitive, interscholastic activities may have evaluation procedures that eliminate some students from participation. When students are not selected for participation, communication will occur in a personal and respectful way.

No student is to be re-admitted to the building once he/she has left any school activity without prior approval.

A student becomes ineligible for extra-curriculars after receiving an "F" in the same class for two consecutive weeks.

1. The grade check will be from Monday to Monday.
2. The class grade will not be affected if a student cannot participate in the extra-curricular activity due to this grade eligibility requirement.
3. After a student becomes ineligible due to receiving an "F" in the same class for two consecutive weeks, the student may become eligible by having a "D" or above at the next grade check. However, if the student then has an "F" at a grade check in any class after becoming eligible again, the student is automatically ineligible.

Student Council

School activities will be governed by the student council and the rules of procedure.

- A. There will be no class parties sponsored by the school.
- B. There will be no class dues.

Based on Missouri Statute (§ 167.790, RSMo), homeschool students, full-time equivalent virtual students, and family paced education school students can participate, contingent upon the successful completion of a tryout if applicable, in any event or

activity offered by the District, as defined by law, in which the student resides. This includes athletics and fine arts activities, or other activities related to these. The District may require participation in components of instruction required for participation in certain activities. The District's disciplinary policies and Student Code of Conduct will apply to all students in these activities and all students must meet the same academic, physical, and financial requirements. Due to the timing of this legislation passing and printing of this material, there may be additional MSHSAA requirements in place the District must comply with as well.

School Cancellations and/or Early Dismissal

School will be closed when weather conditions are such that buses are unable to run safely. A broadcast will be made utilizing Textcaster to notify students and parents/guardians. Anyone may sign up for Textcaster by going to the schools web site (www.jeffersonc123.org)
