CONFLICTS OF INTEREST AND INCENTIVES

KiwiSaver Advice – When we give KiwiSaver advice we consider your risk profile, any ethical or socially responsible biases, fees, performance and diversification within your family unit (if applicable) to recommend the best fit KiwiSaver for you. Sometimes this is included in a Plan that we are already preparing for you and sometimes this is a standalone recommendation. When it is part of a Plan, we do not charge any extra for this recommendation to be included. When it is a standalone recommendation we do not charge for this advice. We may be remunerated by the provider that you join. (In some cases we may not be remunerated at all for this.) Any remuneration is based on your KiwiSaver balance and can be 0.15% - 0.25% of the amount invested. For example: If you have \$50,000 in your KiwiSaver the remuneration we receive would be between \$75.00 and \$125.00 per annum. This also means we will be there to assist you with your KiwiSaver and you can ring us any time with questions or when you would like advice.

Insurance Advice – When we give Insurance advice we consider all the companies in NZ and use research as to the quality of the policy offering and pricing across a number of companies to find you the most suitable insurance cover. We may charge between \$150.00 - \$250.00 plus GST for this advice. If you proceed with the advice we will be remunerated by the Insurance Company if the policy is issued. This commission consists of:

An upfront commission of up to 220% of your first year's premium.

An ongoing commission of up to 10% on subsequent years' premiums, as long as the cover remains in force.

We will disclose the actual amount received once we know the types and levels of cover we will recommend, and this may change if you choose to move forward with cover levels different to those recommended.

Professional Investment Services (Manawatu) Limited has an agreement for services for investment clients with OneAnswer Portfolio Service which is a custodial service owned by ANZ. We use Morningstar Research to assist us with portfolio creation and also utilise research from Jarden and Trustnet. We have no contracts or incentives to place client's fund with any investment offering. We do not receive commission on the placement of any investments on the custodial platform.

We also have Retail Investment options but again there is no incentive to select a particular provider, although we do receive an ongoing adviser commission based on the value of the investments. These clients are not charged any ongoing management fee for advice.

Our KiwiSaver investment options do have varying commission levels and we manage this resulting conflict by using Morningstar KiwiSaver research to assist us in recommending an appropriate provider. These clients are not charged any ongoing management fee for advice.

For all personal insurance, Professional Investment Services (Manawatu) Limited will receive commissions from the insurance companies whose policies we can recommend. If you decide to take out insurance that we recommend, the insurer will pay a commission to Professional Investment Services (Manawatu) Limited. The amount of the commission is based on the amount of premium associated with your cover; specific commissions will be advised to you when advice is provided.

From time to time, product providers may give us small gifts of nominal value.

To ensure that our financial advisers prioritise the client's interests above their own and to manage the potential conflicts of interest as disclosed above, all Professional Investment Services (Manawatu)

Limited advisers follow an advice process that quotes most companies available in NZ and overlays research on the quality of the product offering, and ensures personalised recommendations are made on the basis of the client's goals and circumstances, as advised by the client. Professional Investment Services (Manawatu) Limited financial advisers complete regular training, including how to manage conflicts of interest.
