## ***Strengthen your IT-Education with Virtual TechLab***

*Virtual TechLab, the pioneer in virtual learning environments for IT hardware education.  
At Changedied, we believe in the power of hands-on learning, which is why we offer  
Virtual TechLab as the Virtual Training Solution for your students.*

## **WHO IS VIRTUAL TECHLAB FOR?**

Whether you're an experienced IT instructor looking to enhance your teaching methods, a school principal striving for curriculum innovation, or a student aspiring to develop your passion for IT hardware, Virtual TechLab is for you! It is designed to meet the needs of both educators and students, creating an inclusive learning environment.

## **WHAT CAN YOU ACHIEVE WITH VIRTUAL TECHLAB?**

Virtual TechLab opens the doors to a world of unlimited possibilities for hands-on learning in assembling IT components. Say goodbye to limited budgets, time constraints, and restricted hardware—with Virtual TechLab, students can learn and experiment at their own pace. Making mistakes becomes a learning experience without unpleasant consequences, while understanding of IT hardware is deepened.

Strengthen your IT education with Virtual TechLab. Teachers provide students with realistic learning experiences, better preparing them for the challenges of the real IT world. It's more than a virtual learning environment; it's a bridge between theory and practice that transforms the educational landscape.

## **HOW TO INTEGRATE VIRTUAL TECHLAB?**

Implementing Virtual TechLab into your curriculum is simple and flexible.

The intuitive interface makes it easy for both teachers and students to get started immediately. The VR game for students is initiated from the teacher's tablet, where lesson progress can be monitored and adjusted. To enhance collaboration skills, teachers can have two students collaborate in a single VR environment.

Prepare your students for a career in the rapidly evolving IT sector and experience the transformative power of Virtual TechLab. The future of IT education begins here and now!

## **HOW WAS VIRTUAL TECHLAB DEVELOPED?**

Virtual TechLab was developed by experts in collaboration with various educational institutions in the Netherlands. The game has been extensively tested with the target audience and was developed in close cooperation with them.
