**Nuttall Oak**

# SIMPLIFY YOUR SPACE WITH EASYGOING PLANTS

*Low-maintenance plants make landscaping simple. They're drought tolerant once established, naturally resist pests and disease, and bring lasting beauty without the extra work. Spend less time maintaining, and more time enjoying your space.*

## Shrubs

Dwarf Youpon  
Holly

Compacta Holly

Mondo Grass

Yucca

Japanese Maple

Weeping Willow

Ruby Falls Red  
Bud

Autumn Blaze  
maple

Jane Magnolia  
Tree

Wax Myrtle

# BLOCK THE VIEW, NOT THE BEAUTY

*Using a natural screen barrier is a beautiful and eco-friendly way to add privacy to your space. Unlike fences or walls, living screens like shrubs and trees provide year-round interest, help block wind and noise, and create a habitat for birds and pollinators. They also improve air quality and blend seamlessly into the landscape, making your outdoor space feel more peaceful, private, and connected to nature.*

## Shrubs

Elagnus

Japanese Yew

Oakland Holly

Waxleaf  
Ligustrum

White by The  
Gate Camellia

Pampas Grass

Greensboro  
Red Camellia

Needlepoint Holly

Cleyera
