AN ORDINANCE ESTABLISHING
SOCIAL MEDIA USAGE POLICY FOR CITY OF MIDDLETOWN
OFFICIALS AND EMPLOYEES

WHEREAS, the use of social media is an important way for people to interact and convey information, but there can be inappropriate and misleading posts and uses of social media that are not constructive and in the best interest of the City of Middletown government; and

WHEREAS, the City Commission of the City of Middletown finds that there is a need for the city to approve a social media policy, consistent with other policies currently in use by other governmental agencies, for the purpose of encouraging the constructive and positive use of social media for city government communications,

NOW THEREFORE, be it ordained by the City of Middletown

SECTION 1: The following ordinance is adopted by the City of Middletown Commission:

1. The City of Middletown does hereby adopt a policy regarding the use of social media for communication of city information. The purpose of this policy is to establish general standards and responsibilities when city employees and elected officials are communicating about the City of Middletown using social media. The policy governs the use, administration, management, monitoring and retention of the city's social media content. This policy is also applicable to any city website.
2. It is the policy of the City of Middletown to use social media to provide information and resources to the residents of the city and to provide another convenient point of contact between the city and its citizens. It is not the policy of the City of Middletown to create a public forum on any social media platforms, or city websites, for political discussions or debate.
3. The city recognizes the role that these tools play in the lives of city government and the individuals that serve the city and acknowledges that its employees have the right under the state and federal constitutions to speak out on matters of public concern not related to their official duties. This policy is not intended to interfere with any city employee or official's right to freedom of speech. However, the city does have the right to establish minimal and reasonable restrictions on the use of social media by city officials and employees to encourage constructive and positive use of social media for city government communications.
4. All uses of social media on behalf of the city, or in any manner that represents the city or constitute communication by the city, must comply with the following standards:
 - a. No employee or city official may establish, use, or terminate an official City of [Type here]

 - c. No information, link, or other materials or communications may be posted on a departmental social media account that is not related to the mission, services, and business objectives of the City of Middletown.
 - d. Social media accounts established by the city are to be used for city business or informational purposes only. Communications and postings that are not related to a city or department business purpose are prohibited.
 - e. Any posts dealing with political or legislative initiatives or issues must be specifically approved by the City Commission prior to posting.
5. The City of Middletown considers the activities and uses of social media listed below to be unacceptable. This list is not exhaustive. Questions about particular uses of social media or particular social media content should be directed to the City Clerk who will forward the question to the City Commission for a decision. Unacceptable uses of social media include:

6. Submittals or posts to an official city site are allowed if the content does not violate the social media policy. Users may only post their own, original content.  - a. Elected or appointed city officials who want to interact with the community on social media in their role as a city official are required to maintain a separate account. City officials will notify the City Clerk of any official pages utilized. The City Clerk will maintain an updated list of official pages of city officials.

 - c. Elected city official's pages shall clearly indicate that any content posted or submitted for posting is subject to public disclosure. Additionally, guidelines, if any, shall be posted conspicuously on the page.
