

SHAWNEE

WOOD PRODUCTS  
INCORPORATED

## VISION

“Custom Cabinetry handcrafted to the highest standards. Growing our business through Amish craftsmanship, prompt service, and satisfied customers.”

## MISSION

“To provide exceptional custom cabinetry that delights our customers, while adhering to the principles of integrity, perseverance, and fairness, always under the watchful eye and guidance of our Creator.

## CORE VALUES

*Value*

*Perseverance*

*Fairness*

*Integrity*

*Amish Craftsmanship*

*Full Service*

*Satisfaction Guaranteed*

## OUR STORY...

In the late 1970's our founder, Raymond Miller, began building cabinets in his barn as he had outgrown two facilities in Middlefield, Ohio. He founded Shawnee Wood Products in 2001 which is owned by Raymond and private shareholders. Shawnee provides exceptional custom cabinetry with Amish Craftsmanship and satisfaction guaranteed. We have created cabinetry for some of the most prominent people.

## **Custom Kitchens**

Our custom kitchens range from traditional, contemporary, minimalist, or the style of your choice. We can include pantry cabinetry with all the accessories, pullouts, and also custom built hoods, plank tops & Butcher Block tops.

## **Bathrooms**

Our Bathroom cabinetry includes vanities, linen cabinets, makeup desks, tub surrounds, medicine cabinets, and mirror frames for the design of your choice. From practical to luxurious...

## **Entertainment Centers**

The TV area is the center piece of the living room, so make it functional and eye-catching. Keep in mind that proportion is the key. For large family rooms you'll want a full media center, or long consoles that house everything in one place.

## **Offices & Bookshelves**

If you're fortunate enough to work from home you might be in the market for a custom Home Office. Custom desks and bookcases, with beautiful millwork and rich beams can create cozy and elegant office spaces.

## **Flooring**

When it comes to flooring, our specialty is parquet flooring. Custom designs you can't buy off the shelf at your local home improvement store. We specialize in fitting all the pieces together to create your perfect fit floor. Along with borders, curved floor pieces, and wood vents to match and blend with your spaces.

## **Fireplaces & Surrounds**

Amish crafted mantles and fireplace surrounds to match, from contemporary to the century old distressed look. With panels from wall to wall and floor to ceiling. Regardless of the look and design you're trying to achieve.

## **Commercial Applications**

Commercial... Shawnee Wood Products offers customized cabinetry solutions for commercial enterprises throughout Cleveland, Columbus, and Pittsburgh. Our highly skilled Amish cabinetmakers collaborate closely with business owners to produce custom furniture and cabinetry that accommodates their needs and desires.

Restaurants... We collaborate with architects and designers for the perfect atmosphere in your restaurant. Try Café 422 in Niles, Ohio for their featured horseshoe bar along with great food and drinks, and Café 422 in Boardman, Ohio for their featured wine display & modern designs.

*We service Restaurants, Medical Industry, Salons, to Commercial office furniture and Veterinary facilities. Regardless of your particular business and storage needs, we collaborate with your team to build productive spaces!*

## FINISHING, GLAZING, & DISTRESSING

\* We strive for a superior quality finish. The finishing process is vital to the durability of your cabinetry. We use Sherwin Williams to stay up to date with the latest innovations in finishing.

\* We can custom match paint colors and stain for existing projects.

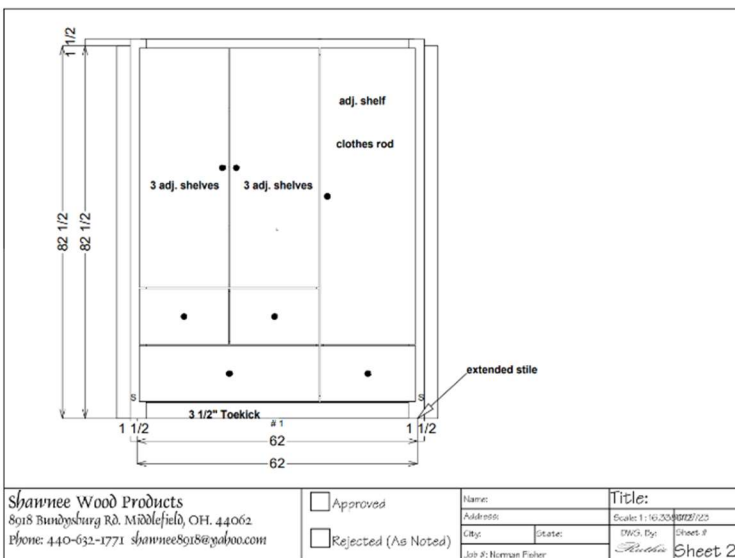

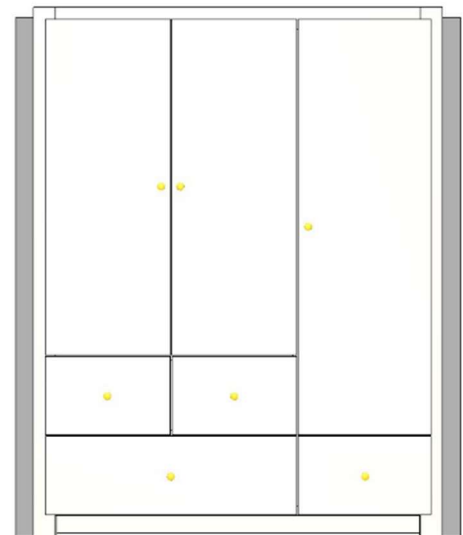

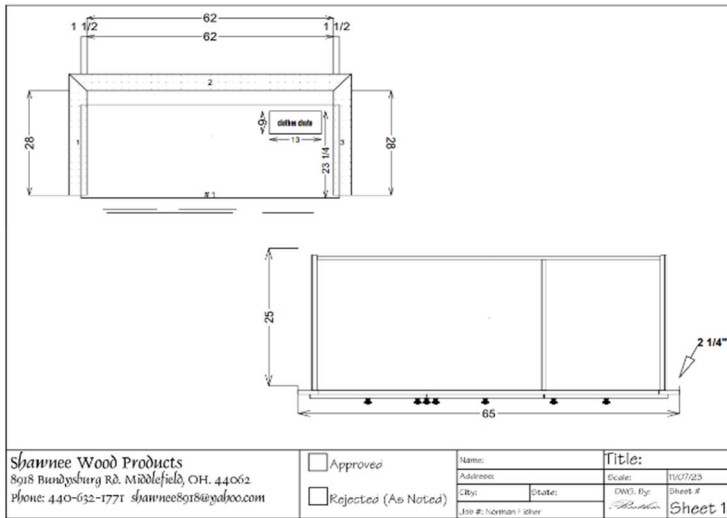

\* We offer oil finishes for butcher block tops and stains that are biodegradable. Suitable surfaces for prepping and cutting food.

\* Our Amish craftsmen can distress and glaze cabinetry to mimic pieces from years gone by. From the worm holes in Wormy Chestnut to the worn edges from years of usage.

## Getting Started:

Send us your drawings and basic information, using our Cover Sheet on pg. 7 as a guide, and we will get you an estimate. After you have reviewed the estimate, we ask you for a 40% deposit. Then we will schedule a date for us to go to the job site and take final measurements. Our cabinet drafters will use these measurements, your drawings, and any appliances specs to design the final drawings. Our drawings, cover sheet, and molding inspo will be sent to you for your signed approval. If the drawings do not meet with your approval, we ask that you note any questions and mark-ups on the drawings and return them. We will make any needed corrections and resend the drawings to you.

Your cabinets will be ready for you approximately 6-10 weeks after the drawings are approved!
