DIY Rain Chains

What: A rain chain is a decorative, functional alternative to a traditional downspout that guides rainwater from gutters to the ground, a drain, or a collection barrel. It uses surface tension (cohesion and adhesion) to direct water down a series of chains or cups, reducing erosion and creating a calming, rhythmic sound. Create your own unique rain chain using shower curtain hooks and beads. Not only will this add a splash of color to your outdoor space, it is functional too!

When: Monday August 31st from 2:00-3:00pm

Where: Meet and pick up at the Wood County Board of DD, Entrance C, Transportation Bldg., 1921 E. Gypsy Lane Rd., Bowling Green
