Dignity Lift

The Dignity Lift is a powered toilet seat that is designed to help individuals with limited mobility sit down on and rise from the toilet safely and independently. It contains a motorized lifting mechanics that is controlled by the press of a button. The controls are easy to use and operated by pressing the button on the armrest or the remote. The lift can be attached to the preexisting toilet and the sturdy frame provides additional support. Some frames come with the option of a built-up bidet.
