Re: Fall Sports Registration

Date: July 28<sup>th</sup>, 2025

---

It is time to register for the Fall Sports 2025 season! Wood County Special Olympics (WCSO) is offering Flag Football, and Bowling. **Please read the following information carefully.**

Proudly, Wood County Special Olympics is a robust sports program that offers 9 different sports each year and participation is at an all-time high! For every sport season, Wood County Special Olympics tries extremely hard to avoid sport practices and games from overlapping. Unfortunately, this goal is not always met due to facility rental availability, program growth, and competition scheduling.

To offer the most successful program possible, we utilize outside community resources and facilities to host practices and events. This is a major cause for overlap in schedules. Each sports season, WCSO rents swim and bowling lanes, softball fields, indoor and outdoor track facilities, and golf courses. Communication with facilities begins months in advance to secure the schedule that would be most suitable for our athletes and families. Although the facilities do their best to accommodate our requests, they are not always able to grant each preferred choice.

The increased participation in our program also requires the creation of several teams within certain sports. For example, the high volume of volleyball and basketball athletes have led to the creation of multiple teams within the volleyball team and basketball team. Ultimately, this leads to the scheduling of additional practices, games, and times in those specific areas.

Each sports season, our program typically schedules competitions with seven other counties for basketball, volleyball, softball, and flag football. Our goal is to offer as much competition as possible for our athletes, so we try to be flexible and creative with our schedules to accommodate the availability of other counties as well as our own.

We appreciate your continued support in our program and our athletes. Without it, we would not be able to provide the program our athletes deserve. We are excited to spring into this next season, and we hope you are too.

Sincerely,  
Jennifer Krouse  
Wood County Special Olympics Coordinator

**Please Note:** Wood County Special Olympics does not provide one-on-one (1:1) supervision during practices, competitions, or events.

Our program is designed to support athletes in a group setting, with oversight provided by trained coaches and volunteers. While we work hard to create a safe and supportive environment for all participants, we are not staffed to provide individual, continuous supervision for any single athlete.

If an athlete requires 1:1 support for medical, behavioral, or safety reasons, it is the responsibility of the family or caregiver to arrange for a support person to attend with them.

This policy helps ensure the safety and well-being of all athletes and allows our coaches and volunteers to focus on delivering a positive experience for the entire team.
