

## WOOD COUNTY BOARD OF DEVELOPMENTAL DISABILITIES

# GYENNO Steady Spoon

GYENNO Steady Spoon is designed for individuals who have hand tremors such as Parkinson's Disease and essential tremors. The device offsets 85% of unwanted tremor from the intended movement of the individuals hand. The device has both a spoon and fork attachment to allow for increasing independence when eating all different types of foods. The device is battery operated and a fully charged battery can run for 180 minutes. The device switches on and off automatically and will turn to sleep mode when not in use.
