*Family and Children First Council created a new Shared Plan focusing on improvements with Service Coordination and assisting our families in Wood County.

1. Identify any barriers in implementing the plan (i.e. data collection, data tracking, funding, infrastructure, etc.)

Potential barriers to the plan: the community-based activities/resources will not be available or a wait list

Families having a difficult time getting the youth to the activities

Respite event – lack of volunteers

2. Identify any successes/how implementing this plan has worked to strengthen the families.

We have connected several Service Coordination cases with outside resources including: Adriel, sportcamps, extra-curricular activities, equine therapy, and safety internet course.

Increase collaboration of agencies working towards goals of the families

3. List the data source(s) for the indicator(s):

Service Coordination/Wraparound documentation – being aware of community resources to allow our youth to become involved in and making the connection.

Held a family resource event for families.

Outreach with community in various ways.

4. Identify any key findings (explanation of data findings; FCFC actions taken in response to key findings, etc.):

The family resource event was a success, and it has allowed our families to be connected to resources and with hopes to continue the family connection.

The increase in outreach has allowed our community to gain knowledge of what FCFC offers and this could come with increased referrals.
