Garlon® 4 Ultra

EPA Reg. No. 62719-527

Directions for Use on Land Grazed by Lactating Dairy Animals

This supplemental label expires on January 31, 2021 and must not be used or distributed after this date.

ATTENTION

- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- Read the label affixed to the container for Garlon 4 Ultra herbicide before applying. Carefully follow all precautionary statements and applicable use directions.
- Use of Garlon 4 Ultra according to this supplemental labeling is subject to all use precautions and limitations imposed by the label affixed to the container for Garlon 4 Ultra.

CAUTION

Use Precautions and Restrictions

Consult with a Dow AgroSciences representative if you do not understand the "Use Precautions and Restrictions." Call (1-800-263-1196) for more information.

Grazing and Haying Restrictions

Grazing

- There are no grazing restrictions for livestock or dairy animals on treated areas
- Portions of grazed areas that intersect treated non-cropland and rights-of-way sites may be treated at up to 8 lb ae per acre if the area to be treated on the day of application comprises no more than 10% of the total grazable area.

Haying (harvesting of dried forage)

- Do not harvest hay for 14 days after application.

Slaughter Restriction: During the season of application, withdraw livestock from grazing treated grass at least 3 days before slaughter.
