About Infinity Fire Protection:

- Infinity Fire Protection Pty Ltd – ABN – 57 067 135 246.
- Established in 1992 and 100% Australian Owned and Operated.
- Shareholders still work within the business every day.
- Our “Modus Operandi”, our staff training, and our procedures have all been modelled on delivering the highest standards of customer service.
- 65 Full time employees supported by a fleet of specialist service vehicles
- Delivering specialist services across the Greater Sydney Area, Regional NSW and the ACT

Mission Statement:

To continually develop a diverse and consistent approach to Fire Safety Maintenance, Repair and Installation Services and to always aim to exceed our clients’ expectations

Modus Operandi:

- Infinity Fire Protection perform inspection, testing, maintenance, repairs, tenancy refits, fire system installation and certification of all essential fire services up and down the eastern seaboard of Australia.
- We develop long term relationships with our customers. It is the customer service we provide that has seen Infinity Fire Protection establish itself as a major player in the fire protection market.
- Infinity Fire Protection is passionate about training and knowledge. Our service technicians are highly skilled specialists that are committed to the safety of the occupants of the properties we maintain.
- We are active participants on several Australian Standards committees and energetic members of all the major fire industry & property industry associations and boards.
