Our curriculum is inclusive, ambitious and carefully designed to meet the individual needs, strengths and aspirations of our pupils. It provides meaningful learning experiences that support academic progress, personal development and preparation for adulthood.

**Our approach is guided by our core values:**

**Belong** – Pupils experience a curriculum that promotes inclusion, positive relationships and emotional safety, enabling them to feel confident, valued and ready to learn.

**Commit** – We are committed to high-quality teaching, personalised pathways and a broad, balanced curriculum that reflects statutory expectations while remaining flexible and responsive to individual need.

**Thrive** – We enable pupils to develop knowledge, skills, independence and resilience so they can achieve success and make sustained progress.

**Impact:**

Through a well-sequenced, autism-informed curriculum, pupils demonstrate improved engagement, increased independence and measurable progress across academic, social and life skills. This ensures pupils are well prepared for their next steps and able to flourish both in school and beyond.

**Statement of intent**

At Turning Point Academy, we value pupils' education and aim to provide a broad and balanced curriculum that is accessible to all. We do not tolerate discrimination of any kind, and our curriculum celebrates the diverse nature of our society, enabling pupils to embrace the world around them, and encourages adherence with the fundamental British values. It also promotes the spiritual, moral, social, cultural, mental and physical development of pupils at our school and of society.

This policy outlines our dedication to establishing a well-rounded and robust curriculum, as well as the provisions surrounding its creation.

### 3. Curriculum intent

Pupils' learning and development is at the heart of our school's curriculum; it is broad and balanced and equips pupils with the skills necessary to succeed in life after school.

This curriculum intent statement outlines how the school has created the curriculum and the benefits it will bring to pupils' learning and self-improvement.

#### **Curriculum intent**

At our school, we have designed our curriculum with pupils' learning at the centre. We recognise that a curriculum has to be broad, balanced and offer pupils opportunities to grow as individuals as well as learners. Our school values the input of its pupils, parents and the local community with regards to the planning and delivery of the curriculum. We believe pupils get a well-rounded education if everyone is involved in shaping it.

We aim to ensure pupils enjoy learning and feel prepared for life after school. We also intend to offer our pupils new and exciting experiences through extra-curricular activities that are designed to build resilience, confidence and self-esteem. Our curriculum will be delivered in accordance with the Equality Act 2010, through a variety of methods, including those outlined below.

**Classroom-based learning:** Accessing different learning resources and equipment to broaden pupils' knowledge, and making cross-curricular links where possible within lesson plans, so that pupils can draw upon knowledge from different subjects and understand how

each topic plays a part in everyday life. Classroom teaching also includes one-to-one and small group tuition for pupils who require additional support.

#### 4. School ethos and aims

The overall aims of the curriculum are to:

- Enable all pupils to understand that they are all successful learners.
- Enable pupils to understand the skills and attributes needed to be a successful learner.
- Enable pupils to develop their own personal interests and develop a positive attitude towards learning, so that they enjoy coming to school, and acquire a solid basis for lifelong learning.
- Teach pupils the basic skills of literacy, numeracy, ICT and science.
- Enable pupils to be creative through art, dance, music, drama and design and technology.
- Enable pupils to be healthy individuals and appreciate the importance of a healthy lifestyle.
- Teach pupils about their developing world, including how their environment and society have changed over time.
- Help pupils understand the fundamental British values, and enable them to be positive citizens in society who can make a difference.
- Fulfil all the requirements of the national curriculum and the locally agreed syllabus for RE.
- Teach pupils to have an awareness of their own spiritual development, and to understand right from wrong.
- Help pupils understand the importance of truth and fairness, so that they grow up committed to equal opportunities for all.
- Enable pupils to have respect for themselves and high self-esteem, and to be able to live and work co-operatively with others.
- Enable pupils to be passionate about what they believe in and to develop their own thoughts on different topics.
- Enable pupils to develop their intellect including their emotional development, ask questions and take appropriate risks.
- Enable pupils to experience playing a musical instrument.
- Teach pupils about the importance of forming healthy relationships with friends, family and peers.

Through the aims outlined above, pupils will benefit by:

- Learning how to lead safe, healthy and fulfilling lives.
- Understanding that failure is part of the road to success.
- Being rewarded for academic successes.
- Being supported with their next stages in education and feeling prepared for life after school.
- Becoming responsible individuals who contribute to community living and the environment.
- Achieving to the best of their ability.
- Acquiring a wealth of knowledge and experience.
- Becoming critical thinkers.
- Finding a sense of belonging to the school and its community.
- Learning how to cooperate with their peers and respect one another inside and outside the classroom.

## 5. Organisation and planning

In general, lessons will be separated into three core stages:

- **Power Up** – this aims to engage learners immediately and hook them into the learning. It provides opportunities to practice retrieval and develop vocabulary and key skills.
- **Discover and Share** – this lesson input ensures content delivery and the development of ideas collaboratively.
- **Practice and Reflect** – pupils will apply their learning and practise their skills. Teachers use this time to provide live feedback and address misconceptions as they occur.

Lessons will use a range of teaching techniques to appeal to different learning types, e.g. visual, audio and kinaesthetic.

The different learning techniques include:

- **Using different kinds of questions** to engage pupils and prompt them to apply their knowledge to different examples, e.g. using 'why' and 'how' questions.
- **Opening discussions** around topics so pupils can learn from their peers and learn how to hold conversations with others.
- **Holding structured debates** to expose pupils to different points of view and teach them how to negotiate situations where there is a potential conflict of interest, whilst still respecting others' beliefs.
- **Using assessments** to test pupils' knowledge and consolidate learning; these can be through both informal and formal assessments.
- **Role playing and acting** to develop pupils' empathy and give them the opportunity to explore topics in a more interactive way.
- **Labelling, ordering and identifying** key themes within texts, dialogues and films to help pupils coordinate series' of events.
- **Written and spoken tasks** to encourage different methods of expressing ideas, as well as identifying key differences between writing and speaking conventions.

Teachers will plan lessons which are challenging for all pupils and ensure that there are provisions in place for more academically able pupils, e.g. completing additional work that is above the academic level of their peers.

Teachers will have due consideration for pupils who require additional help within their planning and organisation of lessons.

Disadvantaged pupils and those with SEND and EAL will receive additional support – this will include dedicated time with LSPs and access to specialist resources and equipment where required.

LSPs will be deployed within lessons strategically so that they can assist with pupils who require additional help, but are also able to minimise disruptions where necessary.

Pupils with EAL will be given the opportunity to develop their English ability throughout lessons where necessary.

Planning will be used to identify any possible difficulties within the curriculum and will break down barriers to learning. Any difficulties identified will be addressed at the outset of work.

Classrooms will be organised so that pupils have full access to resources and equipment – they will be provided with a rich and varied learning environment that will enable them to develop their skills and abilities.
