

HVAC Service Technician (Commercial) — Dallas, TX

About the Role

Service and maintain light-commercial RTUs/VAVs/split systems across multi-site customers. Work safely on rooftops, respond quickly, and document thoroughly.

Responsibilities

- Diagnose/repair RTUs, splits, economizers, controls basics
- Preventive maintenance; verify performance and efficiency
- Coordinate with dispatch/clients; meet SLAs and site rules
- Complete work orders, photos, and parts requests

Qualifications

- 3+ years commercial service; EPA 608 Universal
- Rooftop safety; OSHA-10 preferred
- Read schematics; strong electrical & refrigeration fundamentals
- Reliable driving record; some evenings/weekends as needed
