

HVAC Service Technician (Residential) — Tampa, FL

About the Role

Handle residential service/maintenance with a focus on heat pumps, IAQ, and coastal humidity control. Deliver clean work and clear communication.

Responsibilities

- Diagnose/repair heat pumps, air handlers, controls; perform PMs
- Charge verification (weight/SH/SC); airflow/duct leakage basics
- Recommend IAQ/maintenance plans; complete digital paperwork
- On-call rotation as assigned

Qualifications

- 2–3+ years residential service in humid climates preferred
- EPA 608 (Type II or Universal); strong customer skills
- Safe driving; comfortable with ladders/rooftops
- Tablet/CMMS proficiency
