

Refrigeration Technician (Commercial) — Boston, MA

About the Role

Service and maintain commercial refrigeration systems (supermarket racks, walk-ins, reach-ins, ice machines). Prioritize uptime, food safety, and clean documentation.

Responsibilities

- Diagnose/repair rack & standalone systems; leak detection & recovery
- Perform PMs, defrost/controls checks, and case performance tuning
- Coordinate with store/facility teams; meet response SLAs
- Complete work orders, parts requisitions, and compliance logs

Qualifications

- 3+ years commercial refrigeration; EPA 608 Universal
- Familiar with rack controllers and supermarket systems
- State/local refrigeration licensing as required; OSHA-10 preferred
- Safe driving record; ability to work nights/weekends as scheduled
