MAKILLA GORILLA

Makilla Gorilla mushrooms boast large, fist-sized dried fruits, pale colourless stems, and light golden brown caps. The thick, circular caps and heavy blue bruising on the stems signal their high psilocybin content. For those new to psilocybin, Makilla Gorilla offers a powerful introduction to its transformative effects. Users report a captivating sensory experience. The strain is known for generating vivid, open-eye visuals, immersing trippers in a world of vibrant colours and intricate geometric patterns, reminiscent of a kaleidoscope.

THRASHER

Thrasher mushrooms offer an intense and transformative psychedelic experience. For those seeking a deeper level of self-exploration or a more vivid sensory journey, this intriguing strain has become a popular choice in the world of magic mushrooms.

1/2oz	\$70
1oz	\$120

TIDAL WAVE

Tidal Wave Mushrooms are a unique blend of genetics that have been carefully bred to achieve a higher level of potency and distinct characteristics. This strain is believed to be a hybrid, primarily stemming from the genetic lineage of Psilocybe cubensis (possibly the potent Penis Envy) and Psilocybe azurescens, two of the most popular and well-researched magic mushrooms strains known to mycologists and psychedelic enthusiasts alike.

CHARAS TEMPLE HASH BALLS

- • - • - • 200 • 350

Charas Temple Hash Balls are a form of hashish that have been appreciated and cultivated in Nepal and the surrounding regions for thousands and thousands of years. The deep aroma of Charas Temple Hash Balls are known for their striking earthy base, with notes of a dry cedar-like woodiness and a mellow, creamy undertones.

BUBBLE HASH

15 • 35 • 60 • 110 • 190

SOLD OUT

Bubble hash, also known as bubble hash or ice water hash, refers to a specific type of hash made with ice water. To make bubble hash, cannabis flower is added to bags of ice water (called "bubble bags") and agitated, which freezes and then breaks the resin glands from the flower. These broken resin glands, which contain essential compounds like THC and CBD, move through a series of screens while the plant material is left behind, forming bubble hash.

AFGHANI HASH

15 • 35 • 60 • 110 • 190

Afghani hash is traditionally produced throughout Afghanistan. In fact, hashish is produced practically everywhere in and around Afghanistan. This is accomplished by hand pressing cannabis dry sift with the addition of a small quantity of water or tea. Afghanis hash is pressed by hand. It is worked until becoming highly elastic. A rich flavor and strong aromatic smell will be the result. In Afghanistan, the product is then stored in the form of 100mg bricks or hash balls.

GRAND FINALE GOLD

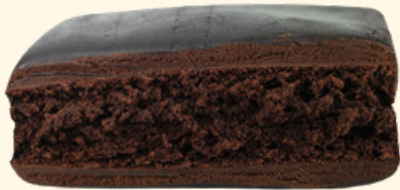

15 • 35 • 60 • 110 • 190

This beautiful smooth and tasty hash burns nicely with a smooth finish on the tongue and will leave you nicely medicated, enough to provide relief for your symptoms. Produced using high quality strain, making it uplifting and stimulating, yet still maintaining the hashish body buzz we expect. The Grand Finale Gold Hash is firm and dark in colour, and has a soft, sweet flavour and aroma.

RED LEBANESE

20 • 55 • 90 • 160 • 250

One of the most popular hash products in the market, Red Lebanese Hash, is known for its high potency and smooth taste and texture. Although many claims that the two varieties of Lebanese Hash, blonde (yellow) and red, are two separate stains, the key difference is that the products are made from cannabis plants harvested at different stages of their growth. Blonde hash is made from younger cannabis plants and is higher in THC. In contrast, the products of Red Lebanese Hash for sale are made from older plants and therefore contain higher traces of cannabitol (CBN) which offers greater relaxation.
