

## Our Conference Vision

We believe that the application of a Biblical Worldview leads to the flourishing of individuals, families, and societies. We desire to see our nation impacted by the Kingdom of God through Christ-centered education which starts in the home and is supported by the church.

We aim to mobilise and equip churches, parents, and educators to disciple the next generation through a biblically faithful worldview. We understand that transformation comes through the renewing of the mind in God's truth (Romans 12:2) and through experiencing the power of the Gospel (John 8:32; 14:6)

We will be inviting Christian leaders, parents, and educators to join with us as we are renewed in God's vision for kingdom education, as we discuss the impact of the current prevailing ideologies and worldviews present in education today, and as we are inspired to join the education revolution by stories of kingdom impact from around the world.

The conference will be enriched with smaller group seminars on various topics, such as discipleship through Christian education, equipping for church leaders, homeschooling, various Christian education models, worldview and governance resources for Christian schools, worldview considerations in the BC curriculum, etc.

There will be many resourcing organizations present for attendees to connect with.
