### The Seven Trumpets Revelation 8:6—11:19

### PRAYER

“Prayer is access to an environment in which God is the pivotal center of action.” Peterson.

“Praying is that act in the life of faith which consciously and deliberately enters into a speaking/listening attentiveness before God – God’s relationship with His creation and creatures and their relationship with him. Whenever we concentrate, focus, and attend, we pray. Prayer is the coming into awareness, the practicing of attention, the nurturing and development of personal intensity before God.” Peterson

“The task of the gospel is to move us away from talking about God to talking to God.” Peterson

“[Prayer] is the realization of personal powerlessness, and, at the same moment, participation in God’s power.” Peterson

“Prayer is a focus upon God whereby all things come into focus.” Peterson

“Prayer is the most practical thing anyone can do. It is not mystical escape, it is historical engagement. Prayer participates in God’s action.” Peterson
