## COUNCIL UPDATES

### **FROM THE COUNCIL CHAMBERS**

A very busy and productive evening in Chambers on Tuesday 15<sup>th</sup> June 2021, where Council held two very important meetings.

Firstly, Council met as the Coomalie Bush Cemetery Board to receive operational report updates and discussed plans to complete the new “Rosella Niche Wall”, that was installed. The existing Columbarium is nearing capacity and the Cemetery Board resolved for a new niche wall to be installed. The Board has requested an additional amount of \$15,000 be referred to the First Quarter Budget Review for consideration of the installation of a shade structure or pergola to enhance amenity.

The Ordinary General Meeting was the last meeting of the financial year and the last meeting to take place under the *Local Government Act 2008*. The new Act comes into force from 1<sup>st</sup> July 2021 and there will be necessary changes made to the agenda and papers to ensure compliance with the new provisions.

Key outcomes from the meeting included;

- Rates – Council declared rates for the 2021-22 financial year. The Rates Declaration was published in the *NT News* on Friday 18<sup>th</sup> June 2021 and it can also be accessed here. [DECLARATION OF RATES AND CHARGES 2021-2022.pdf \(nt.gov.au\)](#)
- Council has also agreed to enable payments by two instalments. For those property owners who do not wish to pay rates in the usual one sum, payments will now be due in two equal parts on Friday 24<sup>th</sup> September 2021 and Friday 25<sup>th</sup> March 2022. Rates are also payable via direct debit. If you encounter problems meeting your rates obligation, please contact the helpful staff at the Council Office to arrange a Payment Plan.

- The Budget, Fees and Charges and the Shire Plan 2021-22 were also ratified at the Council meeting and are available on Council’s website. At this stage, Council is uncertain as to the amounts it will receive from the Commonwealth and Territory Governments regarding operational subsidies and the annual Financial Assistance Grants. The Budget for 2021-22 has taken a very conservative outlook given advice that further reductions will be made to annual subsidies. For example, the Northern Territory Government has indicated the annual Community Library operational grant will again be reduced by a further 3%. Amendments will be made at the First Quarter Budget Review to reflect changes in budget amounts.

---

and Community Infrastructure Program. These funds will be further invested in road and waste management improvements.

- Council has also been working with stakeholders in providing a safer school bus stop in Batchelor. In consultation with the Northern Territory Government, NT Police, Buslink and the property owners, a new designated school bus stop will be established in the Batchelor General Store carpark, along the boundary to Anzac Park. An in school and on-bus safety and awareness program will also be delivered by the team from the Department of Infrastructure, Planning and Logistics.
- Waste Management Facilities – Council also resolved not to award the contract for the Supervision of the two gatehouses. Currently there are two contractors that provide supervision and access services to Council at both Waste Management Facilities. Both contracts conclude at the end of June 2021 and Council resolved to staff the gatehouse directly.
- The gatehouses were funded by a Special Purpose Grant to assist Council in meeting the requirements that the NT Environment Protection Authority included in its 2018 Directions Notice to Council. In order to comply with *Waste Management and Pollution Control Act 1998* Council needed to include better access controls and prevent the deposit of listed materials. Deliberately lit fires at the waste facilities were also causing issues for Council. Over the coming months there will be further improvements to both sites that will see greater compliance and less negative impacts on our environment.
- A special newsletter on Waste Management will be issued in the coming weeks.

## COUNCIL'S COMMUNITY LIBRARIES

### COMMUNITY LIBRARIES

What a great month we've had settling into our new library roles!

We have enjoyed getting to know the regular children that utilise our library facilities every week. We have also been getting to know the avid readers in our communities and what texts they're interested in.

the school holidays- remember the Coomalie School Holiday Program I running too! Mr Andrew will be using the Adelaide River library for some of his sessions and we hope to include some of the fun activities he will have in our fantastic facilities going forward.

Speaking of new things to do at the library, how many words can you find on this Boggle Board? You'll find this one in the Batchelor Community Library, come down and fill out a word list to see if you can get the most words this week! There might be a prize for you!

See you all soon!

Linda Roberts

Community members and visitors are all welcome at the library during the times above.

### HEADPHONES IN LIBRARIES

Just a reminder that library staff, at both Batchelor and Adelaide River, cannot issue headphones to people, this is due to current COVID-19 restrictions, you are however allowed to bring your own and use in our devices.

Please respect this decision when advised.

## SIAM WEED

### What to look for:

A fast-growing shrub or scrambling weed that can grow several metres in height. The plant has branches and leaves in opposite pairs and produces bunches of fluffy white to pink flowers during June to September.

### What you can do

- Do not move plants, plant material or soil out of the Torres Strait Protected Zone to the Torres Strait Permanent Biosecurity Monitoring Zone, or from either zone to mainland Australia without a permit and an inspection by a Department of Agriculture and Water Resources biosecurity officer.
- Report any signs of suspect exotic weeds to the Department of Agriculture and Water Resources by phone on +61 7 4241 7800 or email [NAQS](#).

### Profile

Siam weed is one of the world's worst weeds, with a phenomenal growth rate and massive seed production. Plants can reach 10 metres by scrambling through adjacent vegetation. It forms impenetrable thickets to three metres tall in open sites, such as river banks and pastures. It can smother tropical fruit crops, young forestry plantations and pastures. It is also a serious environmental weed, invading native woodlands and posing a major fire hazard in the dry season.

### Identification

Branches and leaves grow in opposite pairs. Leaves are triangular with three prominent veins and toothed margins. Crushed leaves are mildly aromatic. From June to September it produces masses of fluffy white to pale pink flowers. The seeds are 4–5 mm long with a parachute of pale bristles that helps them travel in the wind and adhere to clothing. The seeds are notorious for spreading via vehicles, earthmoving and construction equipment.

*Siam weed flowers*

### **Distribution**

Siam weed comes from tropical America but has become a serious weed in Africa, South East Asia and Papua New Guinea. There have been a number of detections of this weed in Queensland and the Cocos Islands. From 2013 the Siam weed eradication program was replaced with a National Management Strategy that stresses the importance of early detection and eradication if found anywhere outside the containment zone in north Queensland.

### **Threat**

If Siam weed established widely in Australia, control would cost millions of dollars a year. Tropical crops, grazing land and natural ecosystems would be threatened.

*Siam weed forms dense infestations*

### **Keep a Top Watch!**

Be vigilant for any new and unfamiliar plants in your region. Siam weed could potentially invade much of Australia's tropical and subtropical coastal fringe from the Kimberley region to northern NSW. Learn what it looks like and contact the Department of Agriculture and Water Resources if you think you've seen Siam weed plants in your region.

**Report any unusual shrubs that you don't recognise**

**BATCHELOR MUSEUM DEVELOPMENT ASSOCIATION INC**

Seeing the numbers of caravans and travellers on our Top End roads, it is no surprise that we have had a lot more visitors to the Museum. Our volunteers Bryn and George (Georgina) are doing a great job and also enjoying their stay.

come, sit, and enjoy the garden, which is looking good. The few millimetres of rain did not do much for it though and the green will eventually go to dry brown.

The Tamarind trees are being watered in the hope that they will recover their more dense foliage. They were affected because of the long period of lower rainfall over the past few Wet seasons. Consequently the Barking Owls did not nest there this last season. Hopefully they will return. Whilst Prue was away, Carol, and Sue ran the book stall at the Market. Sean assisted with the loading of the boxes. It was a good day, though we will welcome Prue's expertise with selection, advising customers and re the books when she returns.

It has been interesting talking with visitors as most are people who live interstate in Australia- there are few overseas people, though we did have two visitors who could speak, but not read English. George spent some time to assist them.

Ethical Adventures tourist groups were almost one hundred per cent overseas visitors, before Covid, but are now people from interstate. It is good to see the company mobile again.

Lucinda and I continue to deal with improving the displays and the photographic displays that Lucinda put together are very popular. However the numbers of people who sit and watch the Bombing of Darwin DVD is remarkable. It is a whole new history lesson for many.

A lively meeting of the Coomalie Gardening Group took place on Sunday 20th June 2021 at Denmar Downs

Apologies were received from Denise and Billy.

After a morning tea of nibbles followed by both vanilla and humming bird cake discussion took place on the timing of watering of gardens amongst other things. Consensus was that the best time was between sunrise and 9 am.

Next month's meeting will be brought forward and held at Christian Camp Grounds on the Batchelor Road on Sunday the 11th July 2021 at 11am.

Please note there will NOT be a meeting during August due to Seniors' month..

The September meeting at will be held at the home of Elva Pearce.

The October meeting will be held on Denmar Downs where the guest speaker will be Barry Conde and his topic will be Native Bees.

All are welcome to join us and enjoy the exchanging of ideas and knowledge etc.

A big thank you to Patricia Forscutt for the compiling and cooking of a large part of the Sponsors' tent. To the volunteers goes heartfelt appreciation – a bit of a hand makes so much difference to the Committee's workload.

### **2021 Adelaide River Show**

This year was very small because many of the 'pop-up' stalls we tend to rely on are not working due to the Covid and also to the cancellation of Fred's Pass Show and apparently a couple of other events which were also cancelled. We have already commenced planning for our 2022 Show which will be an event to attend.

### **2021 Camp Draft**

A very successful 3 day competition, very well run, with cattle donated by Tipperary Station, and run by Sue Brosnon and Dave Connelly. The Saturday night band The Grind provided great music.

### **Open Mike Music Night 31 July 2021**

Be sure to keep this date free. Our monthly Open Mike Music Night is a great night with all kinds of talent coming out and a friendly atmosphere. We offer free camping, bar and food facilities. It is a safe environment for kids and we normally get between 120 – 140 people many of whom are regulars.
