The understanding and flexibility provided alongside the support we receive to facilitate our organic growth over last 6 years partnership has been second to none.

THE CHALLENGE

As a seasonal and growing FMCG business that are solely reliant on flexible staffing to allow a fluid approach to meeting the demand of our clients. It was proving difficult, time-consuming, and inefficient to manage the process directly in-house.

We needed a flexible work force of high quality candidates for short term demand and long term vacancies alongside our permanent team whilst improving productivity, efficiency and quality during periods of growth.

THE SOLUTION

We understood the profile of the partner company we were looking for to solve our temporary staffing issues. This allowed us to research, shortlist and meet a number of local suppliers.

The team at Recruit Mint stood out as the ideal fit for our business immediately. As a local independent agency the attention to detail to understand our business and staff needs partnered with the infrastructure and ability to access a wide pool of local high-quality candidates, which only the most suitable for our business were put forward. Put them ahead of any other.

The forward-thinking approach and planning for future needs as well as the now is refreshing.

Truly a pleasure to work with Recruit Mint over the past 6 years and looking forward to many successful years to come with their continued support.

From the moment Recruit Mint started they have provided a flawless service. There has always been a high level of communication and trust and as a local independent agency they are always able to make quick decisions is paramount to the growth of our business. Their impact and ability to find the right candidates for the right roles and our business has made our organic growth since 2014 possible.

Their internal process and understanding of our business and industry has allowed them to have the time to focus on resourcing, selection and the interview process, producing only the best quality candidates available. This is evident as many of our agency temps are long-term placements that go on to become permanent members of staff.

They have always been adaptable to support changes in demand, which can happen on a daily basis.
